

Haiti House #434 Betty Dominique

Betty Dominique is a single mother who has eight children. She lives with three of them currently in Numero Deux. She sells food products as she has available to take care of herself and her family. As you can see from the before photo, there was never enough to provide a decent place to live. She is thrilled with her new home and praises God for His gifts to her and her family. She sends her gratitude to the donors who have so generously provided her with a decent home.
