Haiti House #441 Fania Romelus

Fania Romelus, a dress maker, lived with her husband, Fritzner Metellus, in the pitiful shack you see in Kay an Ron with their two children. Fritzner works as a carpenter. For many years Fania has been asking and praying for a new home for her family and she was finally able to see the answer to her prayers. Fania passed away from cancer before the house was completed but she was able to see it under construction. Now she shares her praise and thanksgiving directly with God and prays for her family and the donor's family from her eternal home.
