

## Chabolu Drinking Water Project

Nandyal District, Adhra Pradesh

Location of the Project: Chabolu. Nandyal District, Andhraparades  
State, India.

Coste of the Project: \$ 5,000. 00

Population: 300 families.

**Chabolu:** Chabolu is a small village, mostly agricultural families live in that village. It is a mostly poverty-stricken village. The life style of the people is very simple. Agricultural labor is their life style all through their life. Working for the landlords is their family trade for a minimal wage. The little money they receive is spent for their daily sustenance.

**Children's Education:** There is a clear distinction in elementary schools – separation of rich children and poor children. The mental capacity of the poor children is suppressed unconsciously as if they are good for nothing. That is how it goes on in the rural villages. All this is taken for granted and continued for generations.

**Health and Hygiene:** Medicine is a costly affair. Some of the chronic diseases will never be attended. The life span is maximum 45 – 50 years. Due to the agricultural labor, every day the physical bodies of both men and women are worn out. Most of them die without having the assistance of a hospital.

**Involvement of EVEW:** Ever since my Ordination 1978 I decided to try to change the lifestyle of these poor people and more especially the downtrodden and low caste. I joined the EVEW Society (ERADICATION OF VILLAGE EVILS AGAINST THE WOMEN AND WEAK). I've worked hard to bring awareness and the promise of a brighter future to these forgotten people.

**Financial support:** For the last bore well in Gospadu, you provided us \$ 5,000.00 and we did complete the project fulfilling your instructions and that of the donors. Every time you provide me help for our people, I recall the words of Jesus "What so ever you do to the least of my brothers, you did it to me".

You may kindly send the check on my name as usual to the same address: FR. Ramji Shoury; Church of the Little Flower; P.O. Box 20 Evergreen, LA 71333. If there are any questions, please call my telephone number: + 91 7207873449.

Lloyd, I explained my Mission and Water project in Chabolu. Kindly be sympathetic and generous to provide the needed money for the project.

May God Bless you and Haiti Mission and the Donors.

Fr. Shoury.
