

## **Well 17 Kadesok Village**

**Greetings Dn Lloyd.**

**I hope you're fine. I have today concluded the project of the borehole in Kadesok village with the celebration of the Mass in which I was able to bless and launch the borehole for use.**

**The water volume is high and steadily flowing. It has been treated, it's very clean and safe for human consumption. The community is extremely very grateful for the donation and promise to pray for you and your family, the intentions of all our donors.**

**May God bless and grant you success, good health and divine protection.**

**Fr. Thomas Aquinas**
