

MWASONGA WATER WELL PROJECT PROPOSAL

PROJECT DESCRIPTION:

Kigamboni District is among of five District of Dar es salaam city , **Kinondoni, Ilala, Temeke, Ubungo** ,and **Kigamboni**. **Kigamboni** District is out of Dar es Salaam city, the big area is new settlement where they need infrastructures of water and another service, the people of Kigamboni use Ferry (Panton) to cross at town .Mwasonga is one of the village of Kigamboni District it is about **26 Km** from Kigamboni , **UMAWA** Headquarter.

Project Beneficiaries:

The project beneficiaries is the villagers of Mwasonga where there are shortage of clean and safe water especially new settlement like songani location where is selected site location

The Number of people is about **1200** ,This number is growing day to day because people coming from another part of city where it is already populated. There is no good infrurustructures of community service the people use shallow well for drinking water which it is not safe.

Economic:

The people of this village more is engaged in agriculture activities and small business, their income is low .they need Assistance in service initialing

Community Commitment:

The community will be committed for running cost of well for maintenance and repair like Electricity monthly charge, Security, and Site cleaning for project sustainability.

Supervision: and project sustainability

UMAWA will supervise with water committee user which until now we have four 2 water user committee. And is doing well for supervision UMAWA give this committee capacity building of **UMAWA** water policy and the Governmental water policy for to understand the value of water and how to manage the project. There are meeting of committee every mouth and the committee of each well bring report to UMAWA office.

Project Duration:

The project it will be implemented of two –three Mouth, depend the Design of well structure and geologists report.
