

Well # 34 - Pawoty

Pawoty is community in a high mountain not far from Numero Deux. One Family International and the Winkley Family have partnered with HMI on several water projects in the past. They again have helped secure the funding to bring a community well to these families that have never had their own community well,. The people of this remote village have had to walk long distances to fetch water. OFI asked that this well be dedicated in memory of Julie Ann Winkley, a family member whose life ended too early but whose heart was in helping bring water to those in need.

Water Flowing for Christmas 2014 – Oh What a Christmas for the village of Pawoty!

Father Dave and Hilton Michel, members of the HMI mission team, at the Pawoty Well Dedication March 2015

Generator used to pump the well - Honda 7600 IMC 240 (made in china)
