TECHNICAL INFORMATION

ARCHITECTURAL ——— FLOORING.

**DR. FLOORS ARCHITECTURAL FLOORING
IS TAILOR-MADE TO PROVIDE LONG-
LASTING SOLUTIONS TO DIVERSE ISSUES.**

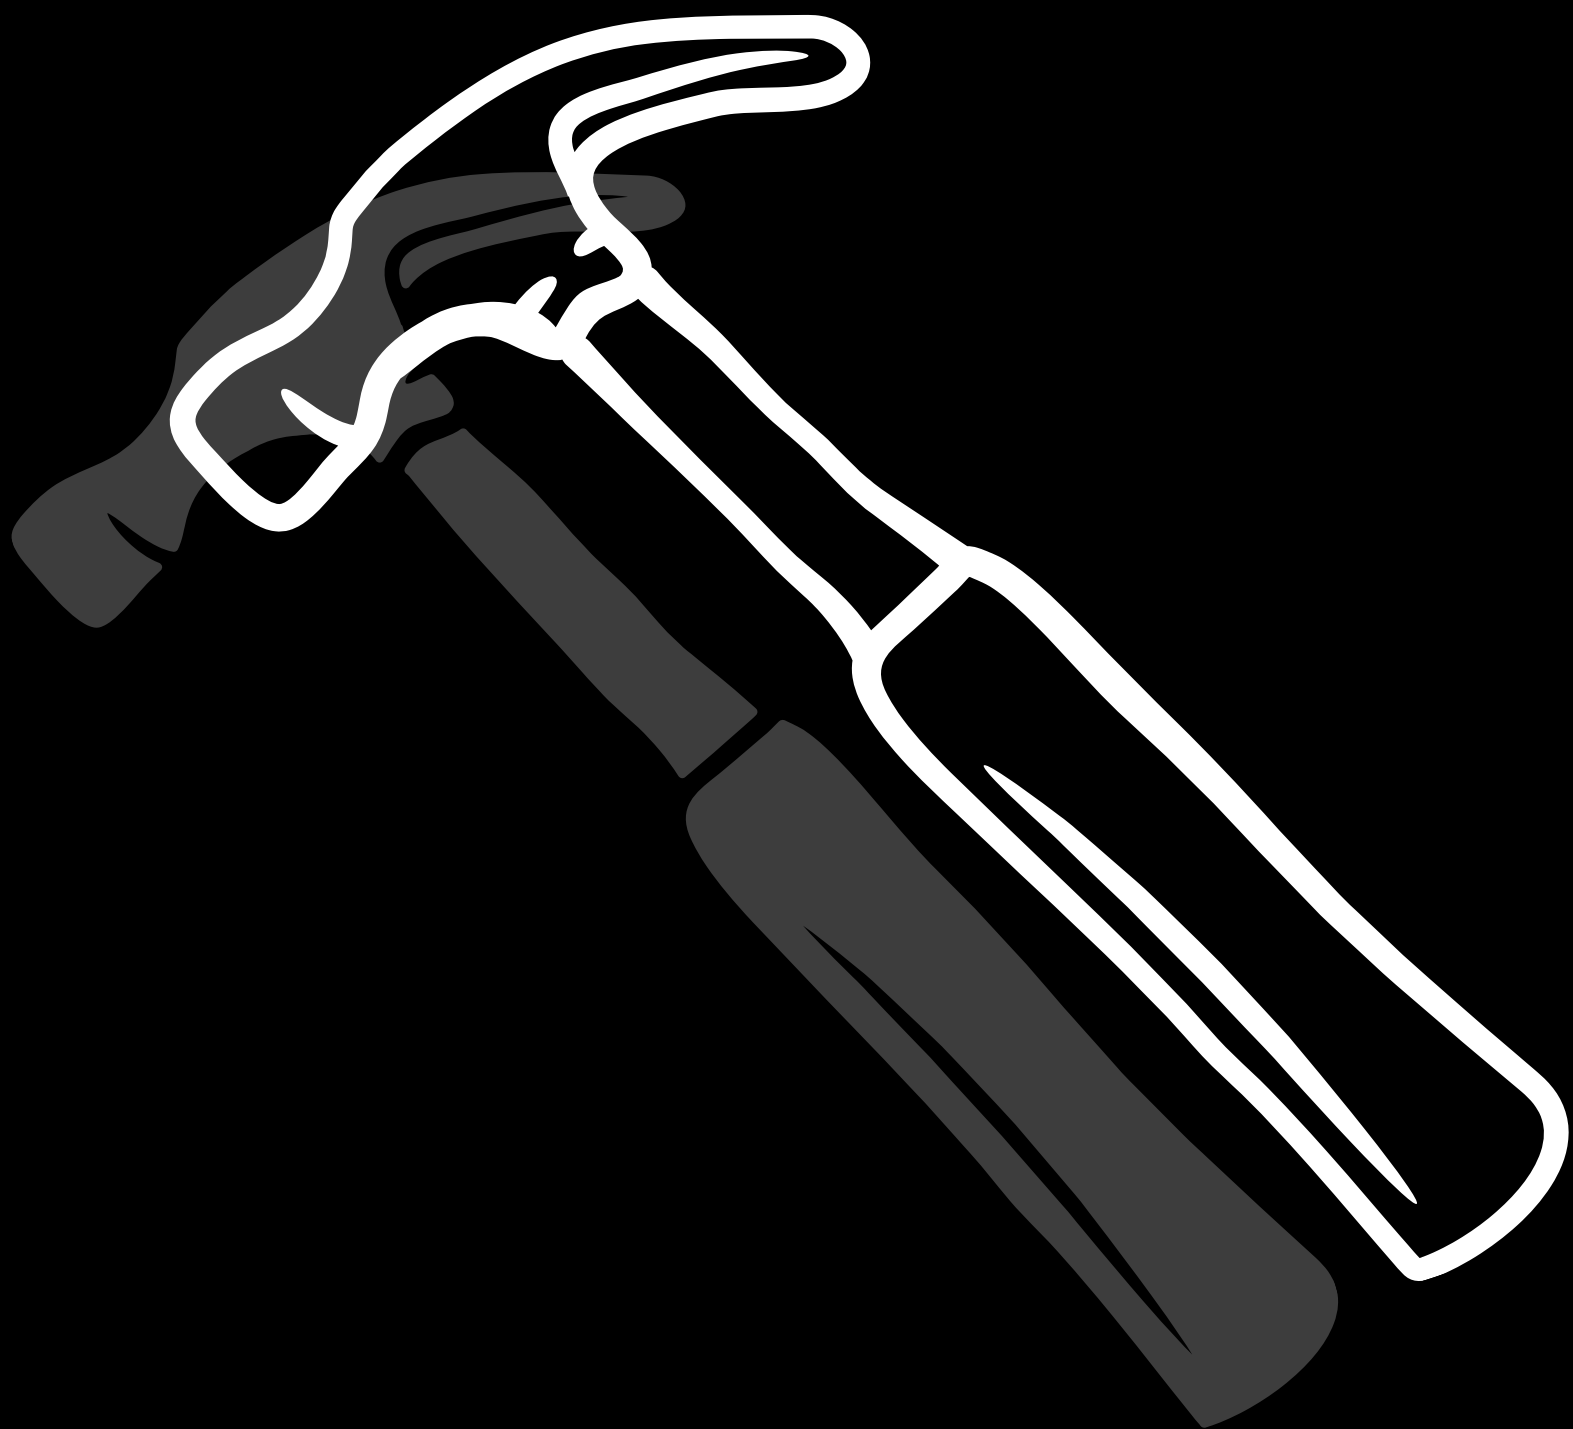

Reliable, efficient and long lasting, **DR. FLOORS** industrial flooring is perfect to use across all industries and areas.

We strive to minimise risk with the introduction of our innovative flooring techniques, which have been refined and perfected by industry professionals for over 20 years.

Luxurious, mechanically and chemically durable flooring systems are a necessity across all industries. Damage from fires, thermal shock, oils and grease, product spills and cleaning agents can wear down floors incredibly fast. These issues can raise safety concerns, with the potential of slipping and tripping hazards, and the build-up of bacteria.

DR. FLOORS anti-bacterial and anti-slip floors reduce the risk of workplace injuries, allowing businesses to operate without interruption. Our flooring systems also include a 7 - 25 year warranty, covering all wear and tear to our flooring solutions.

Expertly designed surfaces create high quality aesthetic appeal. Not only do we ensure practical floors, but beautiful ones too.

DR. FLOORS ARCHITECTURAL
FLOORING AMAZES WITH ITS SLEEK
APPEARANCE AND HIGH RESISTANCE
TO IMPACT, ODOUR AND VOC.

FOOD ————— INDUSTRY.

- **ANTI-BACTERIAL** grows stronger with time
- **RATED P5 FOR ANTI-SLIP**
- **ODOUR-NEUTRAL & VOC-FREE**
- **HIGHLY RESISTANT** to chemicals, impact, fire & thermal shock

DR. FLOORS HAS BEEN TRUSTED AS A LEADING PROVIDER OF FOOD INDUSTRY FLOORING FOR OVER 20 YEARS.

Spaces such as supermarkets, restaurants, kitchens, bakeries, freezers and stockrooms are especially prone to ongoing damage from waste & chemical spills, foot-traffic and accidents. An ideal flooring surface is easy to clean, and resistant to bacteria and corrosion.

DR .FLOORS Architectural Flooring provides solutions to all of these issues. With a fast curing time and anti-slip technologies, our floors are completed overnight and ready to use the next day.

RETAIL ——— INDUSTRY.

- **NO IMPACT** our floors are ready to use the next day
- **AESTHETICALLY COMPLIANT**
- **EASY TO CLEAN** resistant to chemicals
- **LONG-LASTING & DURABLE** 7 - 25 year warranties

Retail spaces see high, concentrated foot-traffic that can wear at the floor and undermine the aesthetic appeal of the brand. Shopping isles, check-out sections and stockrooms see most of the damage that comes from heavy use, cleaning products and spills of outside food or drink.

DR. FLOORS Architectural Flooring provides robust floor coating systems that seamlessly integrate into the exiting visual appeal.

DR. FLOORS prioritises the safety of customers and employers, while also ensuring that no disruptions are caused to store operations. Our flooring systems are highly resistant to chemicals, so strong cleaning products can be used without issue.

BEFORE.

AFTER.

FOR OVER 20 YEARS, DR. FLOORS HAS
BEEN TRUSTED AS A LEADING
PROVIDER OF DURABLE, VISUALLY
PLEASING FLOORS.

PHARMACEUTICAL ——— INDUSTRY.

- **ANTI-BACTERIAL** clean & hygienic
- **CHEMICAL RESISTANT**
- **EASY TO CLEAN**
- **RATED P5 FOR ANTI-SLIP** prevent accidents & injuries

Pharmaceutical and medical practices require competence, precision and delicacy, and pharmaceutical flooring is no different. Certain flooring solutions can absorb and contain bacteria for prolonged periods of time, regardless of how clean they appear. **DR. FLOORS Architectural Flooring** is lab-tested to fight bacteria, and its anti-bacterial properties grow stronger as time passes.

Our flooring system is rated P5 for Anti-Slip, making it as safe as possible for customers, patients and practitioners.

Additionally, our flooring system has incredibly low VOC emissions, leaving the building odourless and fresh.

WAREHOUSE ————— MANUFACTURING.

- **HIGH ABRASION RESISTANCE** ideal for pallets & forklifts
- **RATED P5 FOR ANTI-SLIP**
- **HIGH MECHANICAL RESISTANCE**
- **VOC-FREE & ODOURLESS**

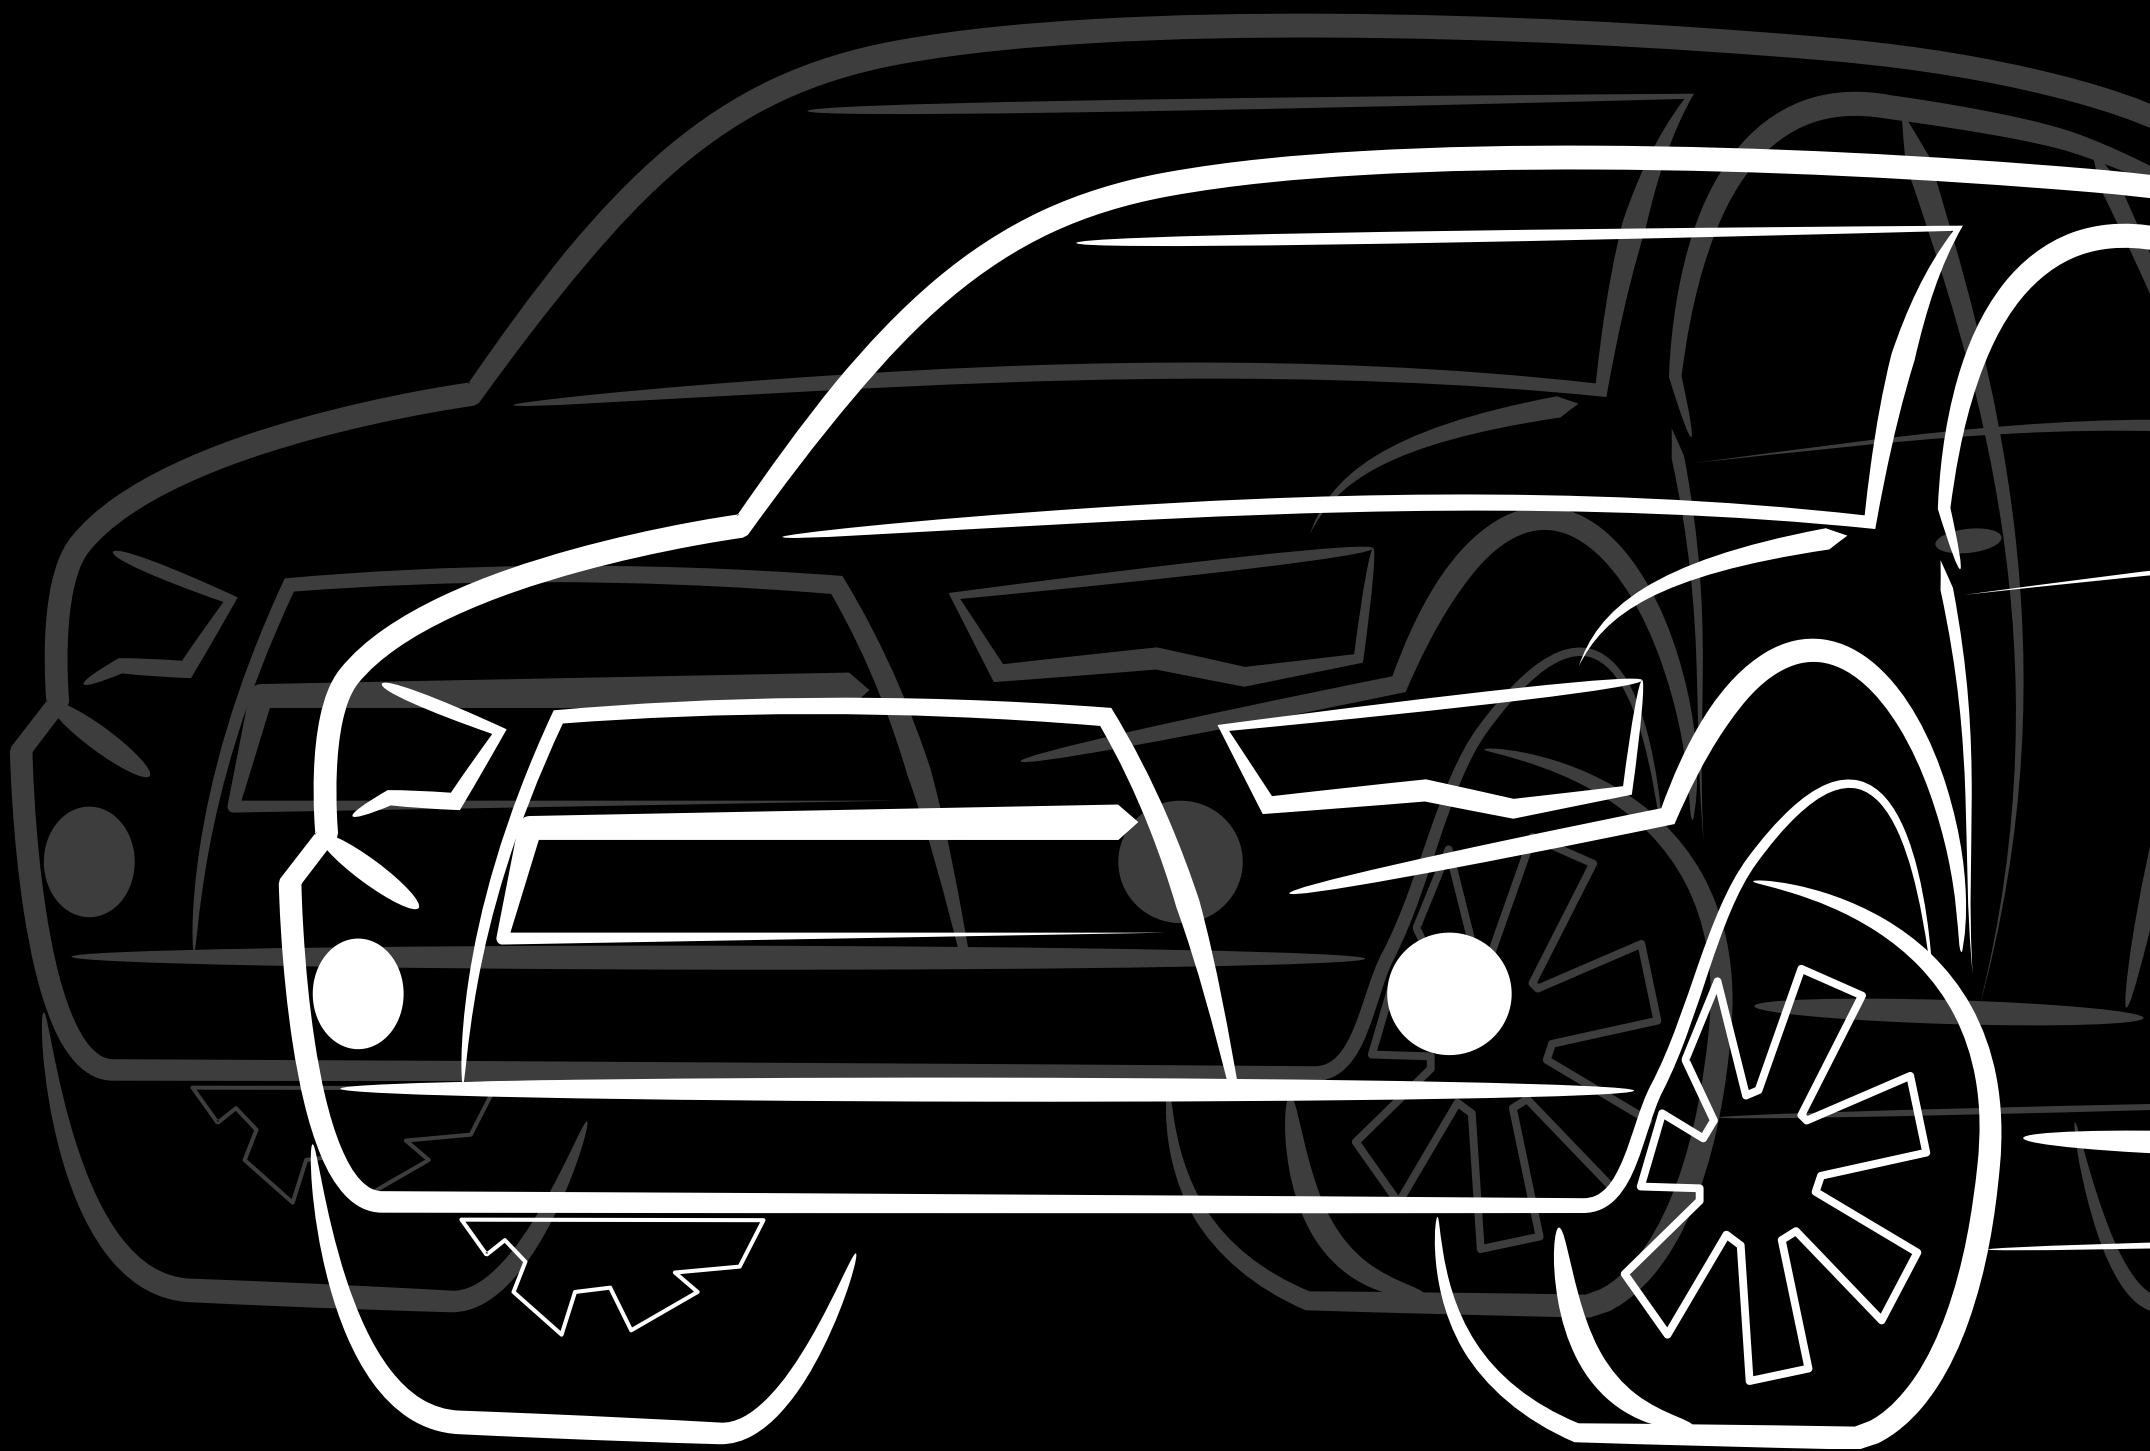

According to BGN, a third of all accidents which occur in the workplace are the result of a stumble, slip or fall.

Warehouse and manufacturing workers are particularly susceptible to injury, especially when damages are caused by heavy machinery, pallets and forklifts. **DR. FLOORS Architectural Flooring** is abrasion and mechanical resistant, mitigating the risk of damage and preventing hazards.

DR. FLOORS long-lasting durability is perfect for spaces with frequent uses of trolleys, fork-lift trucks and pallets. Our system is tailor-made to withstand high traffic and exposure to harsh elements.

DR. FLOORS ARCHITECTURAL
FLOORING HAS BEEN LAB-TESTED FOR
HIGH RESISTANCE TO CHEMICALS AND
BACTERIA.

AUTOMOTIVE ——— INDUSTRY.

- **HIGH ABRASION RESISTANCE** ideal for pallets & forklifts
- **RATED P5 FOR ANTI-SLIP**
- **BUILT FOR HIGH TRAFFIC**
- **RESISTANT TO FIRE & THERMAL SHOCK**

Repeated use of oils and chemicals can be detrimental to the integrity of a floor, and wear away at it over time.

DR. FLOORS Architectural Flooring provides solutions for the automotive industry, with surfaces that are specifically designed not to corrode under intense oils or chemicals, including sulfuric acid.

Our flooring solution impresses with its smooth, anti-slip surface (rated P5) that offers additional safety and support to work spaces. Its high abrasion and impact resistance makes it perfect for pallets and forklifts.

PUBLIC ————— BUILDINGS.

■ LOW-MAINTENANCE

■ RATED P5 FOR ANTI-SLIP

■ ANTI-BACTERIAL grows stronger with time

■ VISUALLY APPEALING wide array of colours available

Hospitals, schools and public buildings are known for high volumes of traffic. This level of activity requires highly durable, easy to maintain floors to support a diverse range of people over long periods of time.

DR. FLOORS Architectural Flooring offers a sleek, hygienic, long-lasting solution that's built to withstand corrosion, and is suitable for wet areas like toilets and showers.

A wide array of colours allows for a visually pleasing and harmonious feel. Our anti-slip solutions also ensure more reliable safety for visitors of all ages, and keep it easy to maintain cleanliness.

BUSINESSES

SHOWROOMS.

■ **VISUALLY APPEALING** wide array of colours available

■ **LOW-MAINTENANCE**

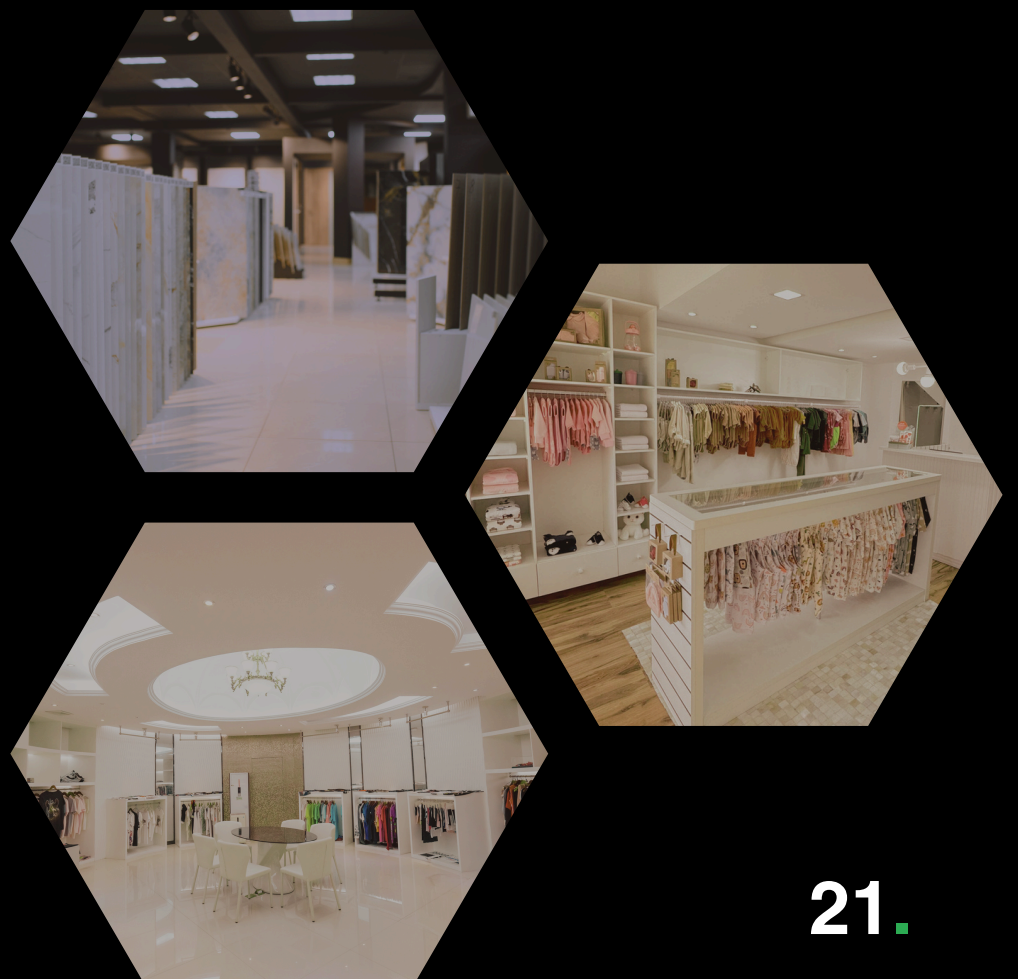

■ **RATED P5 FOR ANTI-SLIP**

■ **VOC-FREE & ODOURLESS**

Well maintained shopping areas enhance the products that are being sold, so it's vital to keep the floors inviting, clean and walkable. **DR. FLOORS Architectural Flooring** is Odour Neutral and VOC-FREE, meaning its designed to keep the area looking and feeling fresh.

Our flooring system has a smooth surface that is easy to clean, and perfect for trolleys to glide on.

In addition, our solutions are not permeable to liquids, meaning liquid spills or rain will not cause extra corrosion overtime. The wide array of colours allows for optimal customization, making all of our floors beautiful and unique.

Our selection of Aggregates are mixed with our resin to create epoxy terrazzo. Aggregates make up 70% of a terrazzo's surface. There are a wide selection of aggregates to choose from such as marble, glass, mirror, granite, shells, and plastic chips.

We offer an extensive range of exclusive aggregates, which we have set up extensive supply chains to ensure we can meet our clients requirements. We continuously explore new sources of aggregates to expand our color palette while also ensuring an ample stock of classic terrazzo chip colors sizes and styles.

We assist our clients in finding the right selection of chips for their projects in any colour and size. Most chips are crushed to standard sizes (size #0-3), but are available in microaggregates and oversized material if that is required.

CHIP --- SIZES.

Terrazzo aggregates come in three distinct sizes: micro, standard, and venetian.

Standard terrazzo chips are generally considered the most common and widely used in terrazzo applications. They are recommended for use in epoxy terrazzo installations. Standard sizes are available in size 0-2.

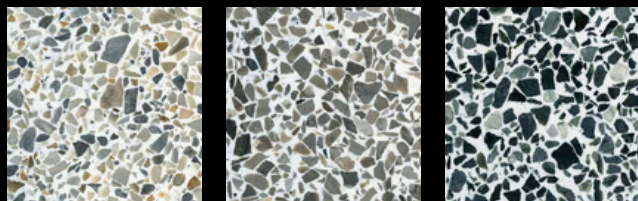

Micro and venetian aggregates can be considered as well. Micro aggregates result in a uniform surface with a finer grain appearance whereas venetian aggregates create a bold aesthetic with a visible aggregate pattern.

	Size (#)	Passes Screen	Retained on Screen
Standard	Size #0	1/8 inch	1/16 inch
	Size #1	1/4 inch	1/8 inch
	Size #2	3/8 inch	1/4 inch
	Size #3	1/2 inch	3/8 inch
Venetian	Size #4	5/8 inch	1/2 inch
	Size #5	3/4 inch	5/8 inch
	Size #6	7/8 inch	3/4 inch
	Size #7	1 inch	7/8 inch

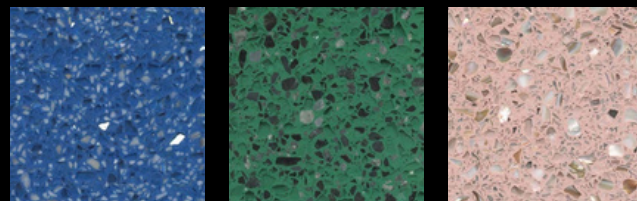

SAMPLE ————— DESIGNS.

DR. FLOORS offers free custom-made samples to our clients helping them create unique and personalised terrazzo designs using Dr. Floors brand epoxy and aggregates.

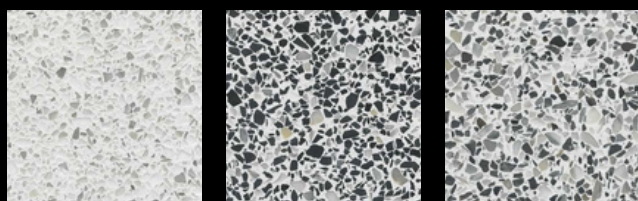

Requesting a custom sample is easy and free. It's a great way to evaluate the material and make informed decisions about which design works best for your terrazzo surface. Our design team ensures a quick turnaround on all sample requests, helping you make timely decisions before your project's start date.
