

The Advanced Burn Life Support (ABLS™) program is the American Burn Association's (ABA) premier educational resource for the emergency care of burn injuries. Advanced Burn Life Support (ABLS) programs provide knowledge for immediate care of the burn patient up to the first 24 hours post-injury. ABLS programs also support emergency and mass casualty preparedness, focusing on triage, burn survivability, patient transportation, and patient treatment. ABLS is relevant to a wide range of professionals who treat individuals with burn injuries, including first responders, nurses, nurse practitioners, physician assistants, and physicians. Upon successful completion, all providers will receive a certificate of completion (renewable after 4 years). Physicians and nurses are also eligible for continuing education credit.

Thank you for your interest in attending the live ABLS course on **April 30, 2026**, at **UTMB Galveston**. To verify course participation, you will need to create a free ABA profile and register for the course.

- Use this custom verification link to complete your registration for your desired course. The link will also require you to log in to your ABA account (if you currently have one) or create a new account.
