

RAC R MMD/NMD MEETING

9.12.25

ATTENDANCE

Baptist Beaumont

- Maternal:
- Neonatal: Dr. Doshi NMD, M. Bordelon NPM

Christus St. Elizabeth

- Maternal: Dr. Edmondson MMD, A. Waggespack, MPM
- Neonatal: Dr. Thompson NMD

Medical Center of SE Texas

- Maternal:
- Neonatal: S. Maccamond, NPM

UTMB Angleton Danbury

- Maternal: Dr. Adum MMD, J. Black MPM
- Neonatal: Dr. Jain NMD, J. Black NPM

UTMB Galveston

- Maternal: K. Stewart MPM
- Neonatal: Dr. Huff NMD, A. Shapley NPM

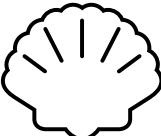

Maternal and Neonatal Medical Directors and Program Managers

- PAC to implement a program to recognize hospitals that provide bereavement care training to hospital personnel

Next meeting 12/17/2025 at 9 AM

PAC
MEETING
9/4/2025

DSHS PERINATAL LEVEL I MEETINGS

- * 10.1.25 2PM
- * 11.5.25 2PM

DSHS PERINATAL LEVEL II-IV MEETINGS

- * 9.17.25 2PM
- * 10.15.25 2PM
- * 11.19.25 2PM

TETAF & MIGHTY NETWORKS

* Applications are open for
NANN and AWHONN
Emerging Leaders
programs

*When to use case review
and when to use aggregate
review in trauma PI -
Trauma System News

What is Type II Diabetes?

Diabetes is a chronic health condition that impacts how your body turns food into energy.

When you eat food, the body breaks it down into sugar (glucose) to be absorbed into the bloodstream. In response to high blood sugar levels after a meal, the pancreas will release insulin to let the blood sugar into your body's cells for use as energy.

Diabetes stops the cells from responding to insulin causing too much blood sugar to stay in your bloodstream. Over time, this may cause serious health problems like heart disease, kidney disease, and vision loss.

Risk Factors

"About 50% of women with gestational diabetes go on to develop type 2 diabetes, but there are steps you can take to prevent it."

-Centers for Disease Control & Prevention (CDC)

Other risk factors include:

- Family history of diabetes
- Overweight or obesity
- Insulin resistance or prediabetes before getting pregnant

Lowering Your Risk

- Breastfeed your baby.
- Visit the doctor to have your blood sugar tested 6-12 weeks after delivery and then every 1-3 years.
- Adhere to a healthy diet. Make half your plate non-starchy vegetables, choose fruits, lean protein, whole grains, and keep hydrated with water.
- Limit consumption of processed foods, trans fat, sugary beverages, and alcohol.
- Stay active. Regular exercise can help lower blood sugar levels by improving insulin sensitivity.
- Reach a healthy body weight after delivery.

Contact

Methodist Hospital
Dietitian's Office
210-575-0928

Please contact your doctor if you need to book an appointment for diabetes screening.

Signs & Symptoms of Type II Diabetes

Diabetes symptoms may go unnoticed for a long time because they are not always noticeable. For this reason, it is important to know the risk factors and monitor blood sugar levels routinely with your doctor.

Some symptoms include:

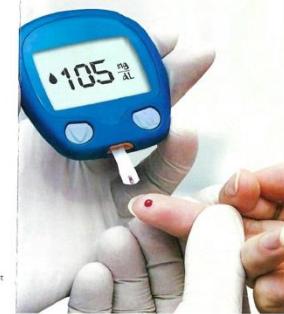

- Frequent urination
- Increased hunger and thirst
- Blurry vision
- Very dry skin
- Sores that heal slowly
- Frequent infections

COMMITTEE PROJECT DISCUSSION

MATERNAL

- ❖ Sepsis
- ❖ HTN

NEONATAL

- ❖ STS
- ❖ Increase percentage of newborns breastfeeding at discharge

Guest speaker: Olivia Owens, MSN, RNC-MNN, IBCLC

FY 26 COMMITTEE PROJECTS UPDATE

- Maternal committee voted to implement compiling our regional sepsis initiatives in alignment with the Texas AIM bundle
- Initial steps include evaluating guidelines and current practice at each campus to collaborate within facilities
- A. Waguespack has shared Christus' sepsis guideline
- Neonatal committee voted to focus on increasing breastfeeding rates at discharge by 10% in alignment with LASSO-TX initiative
- Initial steps to include incorporating current rates from each facility into a regional database and facilitate collaboration between hospitals to achieve goals
- O. Owens has shared UTMB's EPIC report

UNTIL WE MEET AGAIN....

- ❖ Next General Assembly and Perinatal Committee meeting 12.9.25 (Dr. Fox, UTMB, will present PASD mini-sim for Perinatal Committee)
- ❖ Next Medical Director meeting 12.12.25
