

Join us in reflecting on our work for a more just society over the past year.

Dear Katie,

After closing our fiscal year (August 2020-July 2021) this summer, we're reflecting on our **collective impact** for justice. I invite you to join us in looking back on a year of working for peace and justice in Honduras, and inspiring communities across the world to do the same. In a year of many changes, the **commitment of our team and all of you to a more just society sustained us.**

I share [this report](#) with deep gratitude and hope that it reminds you of what is possible when we work together with a beautiful vision of peace and justice. We look forward to continuing to grow with you in the season to come.
