

ASJ HONDURAS LEARNING TRIP

February 15-19, 2026
Sunday-Thursday

Join ASJ in learning more about our work to reform public education and health systems in Honduras.

This trip will have around 30 guests participating. Together, we will visit a health center, a school, and participate in a press conference where ASJ will share important research and apply public pressure to government authorities. We will spend time learning about what it looks like to reform public systems, and why it is necessary to secure justice for those living in poor and vulnerable circumstances.

Housing will be in Airbnb apartments in a nearby apartment complex with accessible outdoor space and a grocery store (Ecovivienda, Tegucigalpa, Honduras). Transportation, interpretation, food, flights, and lodging are all included in the trip cost. If you are interested in learning more about how ASJ does its important justice work, then this trip is for you!

Price \$1,800 (includes flight, lodging, food, transportation, and interpretation)
