New Pervious Concrete Report Released - The RMC Research & Education Foundation has released its latest pervious concrete research report, *Predictive Model for Void Content and Strength of Pervious Concrete Pavements Installed in the Field*. Performed by researchers at Washington State University, the project includes the development of a model that may be used to predict the void content and compressive strength of pervious concrete field installations based on mixture composition and the compaction level. Installers can use a database of their mixture composition, roller screed weight, revolutions per minute, void content and strength of cores from past projects to recalibrate the developed model. The calibrated model can then forecast the required compaction to produce the target void content and strength. The project included both laboratory and field testing and looked at several variables, including roller screed weight and the number of passes.

Foundation Releases 30th Anniversary Video - The RMC Research & Education Foundation is celebrating its 30th anniversary and recently released a video to commemorate the milestone. Check it out from our YouTube page here.

Amazon Announces Prime Days 2021, Provides Opportunity to Support Foundation Through AmazonSmile - Amazon's annual Prime Days have become a much-anticipated event to find great deals. Amazon announced that this year's Prime Days will take place on Monday and Tuesday, June 21st and 22nd. Prime Days provide customers excellent deals on thousands of products while also offering you the opportunity to support the RMC Research & Education Foundation by selecting RMCREF as your charity of choice and shopping AmazonSmile at smile.amazon.com.AmazonSmile is identical to Amazon.com – the only difference is that shopping atsmile.amazon.com allows a portion, usually 0.5%, of your purchase of qualified items to go to your charity of choice. **To sign up and select the Foundation as your charity of choice, visit http://smile.amazon.com/ch/52-1680963 and be sure to always shop from smile.amazon.com to ensure your purchases are credited.** You can even shop from AmazonSmile from the Amazon app on your phone or tablet. Since the Foundation's account was established in 2014, $3,250 has been raised as part of this program.

Be sure to check our homepage regularly for new resources! If you have colleagues who are not yet receiving Foundation communications, please encourage them to sign up from the "Join Our Mailing List" link also available right from our homepage.
