

# Application Checklist (Generic)

Building Act 1993, Building Regulations 2018

NOTE: This is not a complete or exhaustive checklist; however, initially supplying as many of the documents listed below will speed up the approval process. Additional items may be required once the assessment of the application has been completed.

Document	Tick
Completed Application Form (Form 1) & Application Assessment Fee (as quoted) <b>MUST</b> be paid at time of application (will be deducted from final permit fee). NOTE: the application form must include Owner's & Builder's details plus the estimated cost of works.	
Letter of Appointment (to be signed by owner/s)	
Town Planning inquiry from the relevant council (letter or details of person in Council you have spoken with). If Planning Permit is required, provide two copies of the Town Planning Permit and endorsed drawings.	
Provide a current copy (within last 90 days) of the Certificate of Title and Plan of Sub-division for the allotment including any applicable Covenants or Section 173 Agreements incl. evidence of ownership.	
Legal Point of Discharge Advice under Reg 133 obtained from Council.	
Provide a copy of the Property Information, under Reg 51(2), that applies to the allotment. <b><u>This information must be obtained from Council</u></b> and must contain the information relating to flooding under Reg 153 & 154.	
Working Drawings (preferably prepared by a draftsman or architect) & Specifications including but not limited to: <ul style="list-style-type: none"> <li>Site area calculations incl. permeable areas of the allotment;</li> <li>Car parking provisions;</li> <li>North position;</li> <li>Show position, size and type of windows on adjoining allotments</li> <li>Shadow/overlooking diagrams</li> <li>Existing conditions</li> <li>All dimensions and setbacks to boundaries</li> <li>Elevations showing wall heights</li> <li>Sections showing ceiling heights</li> <li>Floor levels/step heights</li> <li>Location/width of easement/s.</li> <li>Wall types &amp; flooring</li> </ul>	
Engineering Drawings, Computations, Wall Bracing Design & Certification. For multiple units on a site, storm water drainage design will also be required.	
Energy Efficiency Report (where required)	
Council or Relevant Authorities consents for siting/build over easement etc (if applicable)	
Soil Report	
Re-establishment survey & site contour survey	
Builders Warranty Insurance & copy of Building Contract (if <b><u>registered builder</u></b> carrying out works over \$16,000), OR if <b><u>owner-builder</u></b> , a certificate from the Victorian Building Authority (VBA) if cost exceeds \$16,000. Phone VBA on 1300 815 127 for further info on Owner Builder Certificates.
