

Installation and usage

AbsorTerra pouches are plastic-free desiccants made from natural montmorillonite clay and packed with FSC-certified kraft paper.

The pouches start working as soon as they are removed from their transparent sealed packaging or removed from a box master PE-bag.

AbsorTerra pouches effectively control moisture inside various types of packaging to prevent issues such as mold, rust, and other moisture-related damage. They are suitable for use in crates, larger boxes, and smaller cartons, especially when the pouch needs to be in close and direct contact with the cargo.

Main features

DESICCANT TYPE	IN-BOX DESICCANT
TYPES AVAILABLE	2 g - 528 g (1/16 UNIT - 16 UNIT)
ABSORBING AGENT	MONTMORILLONITE
MOISTURE ABSORPTION	20-30% (ACCORDING TO DIN 55473)
PERMEABLE MATERIAL	FSC (MIX) KRAFT PAPER
INSTALLATION MODE	IN-BOX

Installation video guidelines

Every box is accompanied with assembly instruction via QR code. Read the code or click it to access the installation video.

Installation example

Shelf Life and Conditions

The shelf life of this product is one year from the production date printed on the packaging label. Recommended maximum relative humidity 60%. This is valid for unopened boxes.

Recommended storage temperature: 5 °C to 25 °C.

Access to the Safety Data Sheet

Read or click the code to access the SDS with technical and regulatory information of AbsorTerra.

Materials

MONTMORILLONITE CLAY

FSC-CERTIFIED KRAFT PAPER (MIX)

Dimensioning

The quantity needed will vary depending on various factors such as shipment time, climate conditions, air volume in the box, type of packaging used and type of goods. Contact us for further information.

Disposal

Absortech's products are intended for single use. To minimize the environmental impact, we recommend the following procedure for disposal of the used desiccant.

Product dispose to approved waste disposal facility in accordance with local regulations.

Prevent discharge into drains or watercourses.

Availability and Operational Temperature

Stock availability may vary between Absortech regions. Contact Absortech or AbsorPartner for guidance.

Operational temperature: -20 °C to 70 °C

LEARN MORE AT [ABSORTECH.COM](https://www.absortech.com)

Absortech helps you prevent moisture damage during transport. Our promise is to protect your brand, increase your savings and lower the environmental footprint of your logistics processes. We are a pioneer in moisture damage prevention with headquarters in Sweden. Since 1996, we have been offering a wide range of inhouse developed and produced desiccants made from calcium chloride. Peace of Moisture Mind® is our moisture damage prevention concept, which includes steps like audits, tests and global supply chain solutions. We are committed to base our operations on sustainable principles and help businesses like yours implement sustainable solutions to prevent moisture damage.
