DID YOU KNOW?

The importance of protective software
Children spend more time online than ever before. How can parents keep up with what they are doing and seeing? One easy way is to install accountability and filter software. Programs like Covenant Eyes, Bark Home Web Filter, or Circle can limit the sites and apps available to your children, and allow you to see their online activity. For more internet safety tips, read the VIRTUS® article “Five Keys to Monitoring Kids Online Activity” at lacatholics.org/did-you-know/.
