**DID YOU KNOW? Downloading apps**

If your child has a mobile phone or tablet, you should be aware of what apps he or she is downloading and using. There are several apps designed to hide photos and videos, that are protected by security features like passwords, fingerprints or face ID. These apps may not be immediately obvious on a device, as they are designed to be hidden. One tip to avoid hidden content or apps is to set up a shared log-in or account which will allow you to prevent anything from being loaded to your child's phone without your knowledge. For more tips and information, read the VIRTUS® article "Do You Know What's Dwelling On Your Child's Phone?" at lacatholics.org/did-you-know.
