INDEPENDENT AUDITOR'S REPORT

To the Board of Education Renick R-V School District Renick, Missouri

Opinions

We have audited the accompanying cash basis financial statements of the governmental activities and each major fund of the Renick R-V School District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Renick R-V School District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash basis financial position of the governmental activities and each major fund of the Renick R-V School District, as of June 30, 2022, and the respective changes in cash basis financial position for the year then ended in accordance with the cash basis of accounting described in Note 1.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Renick R-V School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter—Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statement in accordance with the cash basis of accounting described in Note 1, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Renick R-V School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and
 disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the Renick R-V School District's internal control. Accordingly,
 no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Renick R-V School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Renick R-V School District's basic financial statements. The budgetary comparison information on pages 23-26 which is the responsibility of management, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

mu Kilm CARKE

In accordance with *Government Auditing Standards*, we have also issued our report dated September 20, 2022, on our consideration of the Renick R-V School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Renick R-V School District's internal control over financial reporting and compliance.

Note 1: Summary of Significant Accounting Policies

Renick R-V School District (the "District") is a public educational district operating under the applicable laws and regulations of the State of Missouri. It is governed by a "six director" district (with seven members of the Board of Education) as described in RSMO Chapter 162, which are elected by registered voters of the District. The District prepares its basic financial statements in conformity with the cash basis of accounting, which is another comprehensive basis of accounting promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources; and it complies with the requirements of the appropriate version of the Missouri Department of Elementary and Secondary Education (DESE) Financial Accounting Manual (the "Accounting Manual") and the requirements of contracts and grants of agencies from which it receives funds.

A. REPORTING ENTITY

The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the primary government is not accountable, but for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. Financially accountable means the primary government is accountable for the component unit and the primary government is able to impose its will or the component unit may provide financial benefits or impose a burden on the primary government. In addition, component units can be other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The District is a primary government, which is governed by an elected seven-member board. As required by the cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America, the District has evaluated the above criteria to determine whether any other entity meets the definition of a component unit and must be included in these financial statements. The District has determined that no other outside entity meets the above criteria and therefore, no other entity has been included as a component unit in the District's financial statements. In addition, the District is not aware of any entity for which the District would be considered as a component unit of that entity.

B. BASIC FINANCIAL STATEMENTS – GOVERNMENT-WIDE STATEMENTS

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The District does not have any business-type activities that rely, to a significant extent, on fees and charges for support.

In the government-wide Statement of Net Position, the District's net position is reported in two parts—restricted net position and unrestricted net position. The District first utilizes restricted resources to finance qualifying activities.

Note 1: Summary of Significant Accounting Policies (Continued)

B. BASIC FINANCIAL STATEMENTS – GOVERNMENT-WIDE STATEMENTS (Continued)

The government-wide Statement of Activities report both the gross and net cost of each of the District's functions. The functions are also supported by general government revenues (property taxes, other local, county, state and federal revenues, etc.). The Statement of Activities reduces gross expenses by related program revenues, operating and capital grants. Program revenues must be directly associated with the function (instructional services, support services, food services, etc.). Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reports capital-specific grants.

The net costs by function are normally covered by general revenue (property taxes, other local, county, state and federal revenues, interest income, etc.).

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

C. BASIC FINANCIAL STATEMENTS - FUND FINANCIAL STATEMENTS

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, fund equity, revenues and expenditures/expenses.

Major individual governmental funds are reported as separate columns in the fund financial statements. The District considers all governmental funds to be major funds and reports their financial condition and results of operations in a separate column.

1. Governmental Funds:

The focus of the governmental funds' measurement (in the funds statements) is upon determination of financial position and changes in financial position (sources, uses and balances of financial resources) rather than upon net income. The District reports the following major governmental funds:

- a) General (Incidental) Fund: Accounts for general activities of the District, including student activities, food service and textbook funds which are not designated in a separate fund.
- b) <u>Special Revenue (Teachers') Fund</u>: Accounts for expenditures for certified employees involved in administration and instruction. It includes revenues restricted by the State for the payment of teacher salaries and fines collected by the county.
- c) <u>Capital Projects (Building) Fund</u>: Accounts for the proceeds of long-term debt, taxes and other revenues designated for acquisition or construction of major capital assets.

The activities reported in these funds are reported as governmental activities in the government-wide financial statements.

Note 1: Summary of Significant Accounting Policies (Continued)

C. BASIC FINANCIAL STATEMENTS - FUND FINANCIAL STATEMENTS (Continued)

2. Proprietary and Fiduciary Funds:

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position and cash flows. Fiduciary Funds are used to report assets held in a trustee or agency capacity for others. The District does not report any proprietary or fiduciary funds.

D. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

Government-wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole. These statements include the financial activities of the primary government. The government-wide statements are prepared using the economic resources measurement focus, which differs from the manner in which government fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service or program and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from general revenues.

Fund Financial Statements

Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. The Governmental Funds are accounted for on the "flow of current financial resources" measurement focus. This measurement focus is based on the concept of accountability, which includes measuring whether current year revenues were sufficient to pay for current year services.

Note 1: Summary of Significant Accounting Policies (Continued)

D. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (CONTINUED)

BASIS OF ACCOUNTING

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Both the government-wide and governmental fund financial statements are prepared using the cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under that basis, the only asset recognized is cash, and no liabilities are recognized. All transactions are recognized as either cash receipts or disbursements. Noncash transactions are not recognized in the financial statements. The cash basis differs from accounting principles generally accepted in the United States of America primarily because certain assets and their related revenues (such as accounts receivable and revenue for uncollected taxes or grants) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or service received but not yet paid) and certain assets and their related debt (such as capital assets and the debt issued to acquire the assets) are not recorded in these financial statements.

E. BUDGETS AND BUDGETARY ACCOUNTING

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. In accordance with Chapter 67, RSMo, the District adopts a budget for each fund of the political subdivision.
- 2. Prior to July the superintendent, who serves as the budget officer, submits to the Board of Education a proposed budget for the fiscal year beginning on the following July 1. The proposed budget includes estimated revenues and proposed expenditures for all District funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year.
- 3. A public hearing is conducted to obtain taxpayer comments. Prior to its approval by the Board of Education, the budget document is available for public inspection.
- 4. On May 18, 2021, the budget was legally enacted by a vote of the Board of Education.
- 5. Subsequent to its formal approval of the budget, the Board of Education has the authority to make necessary adjustments to the budget by formal vote of the board. Adjustments made during the year are reflected in the budget information included in the financial statements. Budgeted amounts are as originally adopted, or as amended by the Board of Education.
- 6. Appropriations and the authority to expend funds lapse on June 30, 2022.

Note 1: Summary of Significant Accounting Policies (Continued)

F. FINANCIAL STATEMENT AMOUNTS

1. CASH AND CASH EQUIVALENTS

For the purpose of financial reporting, "cash and cash equivalents" include all demand and savings accounts and certificates of deposit or short-term investments with an original maturity of three months or less. Additionally, the District maintains a cash and temporary cash investment pool that is available for use by all funds. Each fund type's portion of this pool is presented as cash and cash equivalents.

2. INVENTORIES

The purchase method is used to account for inventories. Under the purchase method, inventories are recorded as expenditures when purchased, however, material amounts of inventories are reported as assets of the respective fund. Reported inventories in these funds are equally offset by a fund balance reserve, which indicates they are unavailable for appropriations even though they are a component of reported assets. There are no material amounts of inventories at June 30, 2022 and no inventories are recorded in the accompanying financial statements.

3. CAPITAL ASSETS

The District does not maintain records of capital assets such as land, buildings and equipment. Capital assets when acquired have been reflected in the current year budget as capital outlay. Accordingly, depreciation for assets placed in service and depreciated over their estimated useful lives has not been recorded or reflected in these government—wide financial statements.

4. PROPERTY TAXES

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District. Property taxes attach as an enforceable lien on property as of January 1 of the year of the levy. Taxes are levied on October 1 and payable by December 31. All unpaid taxes become delinquent January 1, of the following year. The county collects the property tax and remits it to the District on a monthly basis.

The District also receives sales tax collected by the state and remitted based on eligible pupil counts. The District is not required to reduce its property tax levy by one-half the amount of sales tax estimated to be received in the subsequent calendar year, because voters of the District have approved a waiver of Proposition C rollback.

The assessed valuation of the tangible taxable property (excluding state assessed railroad and utilities) for the calendar years 2021 and 2020 for purposes of local taxation was \$17,606,775 and \$17,148,680 respectively.

Note 1: Summary of Significant Accounting Policies (Continued)

F. FINANCIAL STATEMENT AMOUNTS (CONTINUED)

4. PROPERTY TAXES (CONTINUED)

The tax levy per \$100 of assessed valuation of tangible taxable property for the calendar years 2021 and 2020 for purposes of local taxation was:

	20	21	2020 .		
	<u>Unadjusted</u>	Adjusted	Unadjusted	Adjusted	
General (Incidental) Fund Capital Projects Fund	\$ 3.8952 4700	\$ 3.8952 	\$ 3.8878 	\$ 3.8878 	
Total	\$ <u>4.3652</u>	\$ <u>4.3652</u>	\$ <u>4.3578</u>	\$ <u>4.3578</u>	

The receipts of current and delinquent property taxes during the fiscal year ended June 30, 2022 aggregate approximately 98.1 percent of the current assessment computed on the basis of the levy as shown above.

5. COMPENSATED ABSENCES

The District allows certificated employees to accumulate unused sick leave to a maximum of 50 days. Earned vacation time is generally required to be used within one year of accrual. Upon termination, up to 50 days of accumulated sick leave will be paid to the employee at the rate of 50% of their current daily salary. Due to its use of the cash basis of accounting, the District has not recorded any liability for compensated absences in the financial statements for the year ended June 30, 2022.

6. TEACHERS' SALARIES

The salary payment schedule of the District for the 2021-2022 school year requires the payment of salaries over a twelve-month period. Consequently, the July and August, 2022 payroll checks are included in the financial statements as expenditures paid in the month of June. This practice has been consistently followed in previous years.

7. LONG-TERM DEBT

The District has no general obligation bonds. The District has utilized capital leases to provide funding for facility renovation and expansion. Capital lease payments and loan payments including interest and principal are paid through the capital projects fund.

Note 1: Summary of Significant Accounting Policies (Continued)

8. GOVERNMENT-WIDE FUND NET POSITION

Government-wide net position is divided into two components:

- a. **Restricted net position**—consists of net position that is restricted by the District's creditors (for example, through debt covenants), by grantors (both federal and state) or by other enabling legislation.
- b. Unrestricted—all other net position is reported in this category.

9. GOVERNMENTAL FUND BALANCES

In the governmental fund financial statements, fund balances are classified as follows:

- **a.** Nonspendable—Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.
- **b. Restricted**—Externally enforceable limitations on use; amounts that can be spent only for specific purposes; limitations are imposed by creditors, grantors, or laws and regulations of other governments.
- c. Committed—Self-imposed limitations that must be set in place prior to the end of the period; amounts that can be used only for specific purposes determined by a formal action by the District's Board of Education; removal of the commitment must also be approved by a formal action of the District's Board of Education.
- **d.** Assigned—Limitation resulting from intended use; amounts that are designated by the District's Board of Education or Superintendent for a particular purpose but are not spendable until there is a majority vote approval by the District's Board of Education.
- e. Unassigned—All amounts not included in other spendable classifications.

The District does not have nonspendable, restricted or assigned governmental fund balances to report. In addition, the District has not formally adopted a stabilization policy.

10. RECONCILIATION BETWEEN GOVERNMENT WIDE AND FUND FINANCIAL STATEMENTS

The government-wide and fund financial statements of the District are prepared on the cash basis of accounting, which requires that revenues are recorded when received and expenditures are recorded when paid. However, the District presents a reconciliation between its' government-wide and fund financial statements to present the effect of payroll liabilities on cash and net position amounts. The expenditures resulting in the payroll liabilities are still recorded in both the government-wide and fund financial statements in the period in which they are paid, but this method allows the District to present the true values of cash and net position for its government-wide statements in the period in which the payroll liabilities are incurred.

Note 1: Summary of Significant Accounting Policies (Continued)

11. USE OF RESTRICTED RESOURCES:

When an expense is incurred that can be paid using either restricted or unrestricted resources (net position), the District's policy is to first apply the expense toward restricted resources and then toward unrestricted resources. In governmental funds, the District's policy is to first apply the expenditure toward restricted fund balance and then to other, less-restrictive classifications—committed and then assigned fund balances before using unassigned fund balances.

Note 2: Cash and Cash Equivalents

State statutes require that the District's deposits be collateralized in the name of the District by the trust department of a bank that does not hold the collateralized deposits. As of June 30, 2022, all bank balances on deposit are entirely insured or collateralized with securities.

Note 3 - Long-Term Debt

The following is a summary of changes in long-term debt for the year ended June 30, 2022:

	<u>Capital Leases</u>
Balances, July 1, 2021 Principal Payments	\$ 320,000 (320,000)
Balances, June 30, 2022	\$ _

Payments on long-term debt are made from the District's Capital Projects Fund. Interest expense for the year totaled \$8,764.

Note 5: Public School and Employee Education Retirement System of Missouri

General Information about the Pension Plan

Plan Description. PSRS is a mandatory cost-sharing multiple employer retirement system for all full-time certified employees and certain part-time certificated employees of all public school districts in Missouri (except the school districts of St. Louis and Kansas City) and all public community colleges. PSRS also includes certificated employees of PSRS, Missouri State Teachers' Association, Missouri State High School Activities Association, and certain employees of the state of Missouri who elected to remain covered by PSRS under legislation enacted in 1986, 1987 and 1989. The majority of PSRS members are exempt from Social Security contributions. In some instances, positions may be determined not to be exempt from Social Security contributions. Any PSRS member who is required to contribute to Social Security comes under the requirements of Section 169.070 (9) RSMo, known as the "2/3's statute." PSRS members required to contribute to Social Security are required to contribute two-thirds of the approved PSRS contribution rate and their employer is required to match the contribution. The members' benefits are further calculated at two-thirds the normal benefit amount.

PEERS is a mandatory cost-sharing multiple employer retirement system for all public school district employees (except the school districts of St. Louis and Kansas City), employees of the Missouri Association of School Administrators, and community college employees (except the Community College of St. Louis). Employees of covered districts who work 20 or more hours per week on a regular basis and who are not contributing members of the Public School Retirement System of Missouri (PSRS) must contribute to PEERS. Employees of PSRS who do not hold Missouri educator certificates also contribute to PEERS. PEERS was established as a trust fund by an act of the Missouri General Assembly effective October 13, 1965. Statutes governing the System are found in Sections 169.600-1699.715 and Sections 169.560-169.595 RSMo. The statutes place responsibility for the operation of PEERS on the Board of Trustees of the Public School Retirement System of Missouri.

A Comprehensive Annual Financial Report (CAFR) can be obtained at www.psrs-peers.org.

Benefits Provided. PSRS is a defined benefit plan providing retirement, disability, and death/survivor benefits. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least 60 and have a minimum of 5 years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 2.5% benefit factor. Beginning July 1, 2001, and ending July 1, 2014, a 2.55% benefit factor is used to calculate benefits for members who have 31 or more years of service. Actuarially age-reduced benefits are available for members with five to 24.9 years of service at age 55. Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

Note 5: Public School and Employee Education Retirement System of Missouri (Continued)

PEERS is a defined benefit plan providing service retirement and disability benefits to its members. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of 5 years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefits for life, which is calculated using a 1.61% benefit factor. Members qualifying for "Rule 80" or "30-and-out" are entitled to an additional temporary .8% benefit multiplier until reaching minimum Social Security age (currently age 62). Actuarially age-reduced retirement benefits are available with five years of service at age 55. Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

Summary Plan Descriptions detailing the provisions of the plans can be found on the Systems' website at www.psrs-peers.org.

Cost-of-Living Adjustments ("COLA"). The Board of Trustees has established a policy of providing a 0.00% COLA for years in which the CPI increases between 0.00% and 2.00%, a 2.00% COLA for years in which CPI increases between 2.00% and 5.00%, and a COLA of 5.00% if the CPI increase is greater than 5.00%. If the CPI decreases, no COLA is provided. For any PSRS member retiring on or after July 1, 2001, such adjustments commence on the second January after commencement of benefits and occur annually thereafter. For PEERS members, such adjustments commence on the fourth January after commencement of benefits and occur annually thereafter. The total of such increases may not exceed 80% of the original benefit for any member.

Contributions. PSRS members were required to contribute 14.5% of their annual covered salary during fiscal year 2022. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restriction set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 1% of pay.

PEERS members were required to contribute 6.86% of their annual covered salary during fiscal year 2022. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 0.5% of pay.

The district's contribution to PSRS and PEERS were \$127,620 and \$22,816, respectively, for the year ended June 30, 2022.

Note 5: Public School and Employee Education Retirement System of Missouri (Continued)

Commitment Related to Proportionate Share of Net Pension Liability. The net pension liability for PSRS and PEERS in total was measured as of June 30, 2021, and determined by an actuarial valuation as of that date. The district's proportionate share of the total net pension liability was based on the ratio of its actual contributions paid to PSRS and PEERS of \$129,984 and \$19,752, respectively, for the year ended June 30, 2021, relative to the actual contributions of \$744,694,744 for PSRS and \$125,712,392 for PEERS from all participating employers. At June 30, 2021, the district's proportionate share of the net pension liability was \$387,411 (0.0175%) for PSRS and \$16,908 (0.0157%) for PEERS. Because of the use of a cash basis of accounting framework in the preparation of these financial statements, this proportionate share of the PSRS/PEERS net pension liability is not reported in the District's financial statements as a liability, and is instead disclosed herein as a commitment. In accordance with the cash basis of accounting, pension expense or expenditures are only reported when contributions are paid by the District to the Systems.

Actuarial Assumptions. Actuarial assumptions used in the determination of net pension liability, including mortality rates and life expectancies, long-term expected rate of return, discount rate and sensitivity of the net pension liability to changes in discount rate are available in the separately issued PSRS/PEERS financial report that can be obtained at www.psrs-peers.org.

Note 6 – Other Postemployment Benefits (OPEB)

In addition to the pension benefits described in Note 5, the District makes available post-retirement healthcare benefits to all employees who retire from the District. Participation by retirees in the District health plan is subjected to terms and conditions set forth in the Board policy. The cost of the coverage is charged to the retiree.

Note 7 – Interfund Transfers

Interfund transfers for the year ended June 30, 2022, were as follows:

	General	Special	Capital
	(Incidental)	Revenue	Projects
	Fund	<u>Fund</u>	<u>Fund</u>
Transfers (from) to:			
Teachers Fund	\$ (113,888)	\$ 113,888	\$ -
\$162,326 or 7% SAT x WADA	(162,326)	-	162,326
Transportation Calc Cost	(25,019)	-	25,019
Total	\$ <u>(301,233)</u>	\$ <u>113,888</u>	\$ <u>187,345</u>

Interfund transfers were for recurring annual operating expenditures.

Note 8—Restatement of Opening Fund Balance

After the June 30, 2021 audit was completed, the Missouri Department of Elementary and Secondary Education directed the District to restate opening fund balance, as follows:

	<u>General</u>	Capital Projects	<u>Total</u>
Opening Fund Balance Original Opening Fund Balance As Restated	\$ 2,234,706 1,822,385	\$ 121,933 	\$ 2,356,639 2,344,984
Variance	\$ <u>(412,321)</u>	\$ <u>400,666</u>	\$ <u>(11,655</u>)

Note 9 - Risk Management

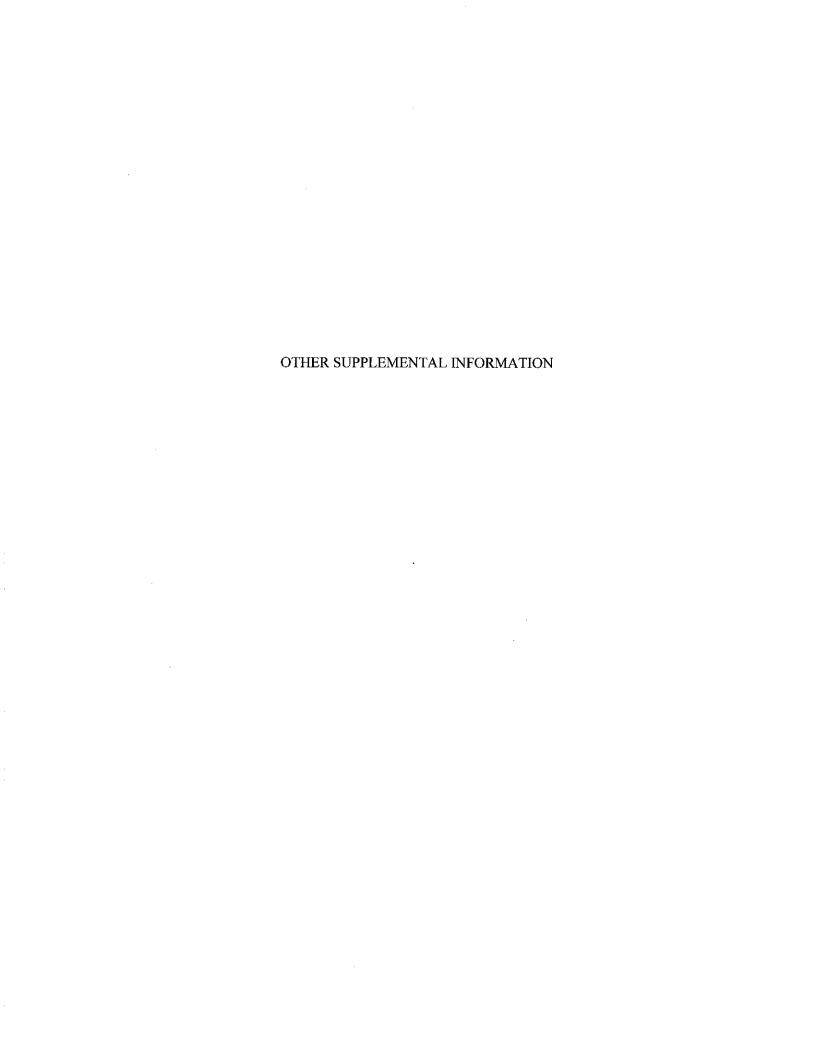

The District is exposed to various risks of loss related to limited torts; theft of, damage to and destruction of assets; errors and omissions and natural disasters for which the District carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

Note 10 – Contingencies

During 2021-2022 the District was awarded various financial assistance grants from the U.S. Government and the State of Missouri. Those awards are subject to program compliance audits by the grantors or their representatives. The audits of the programs have not been conducted. Accordingly, the District's compliance with applicable grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agency cannot be determined at this time; although the District expects such amounts, if any, to be immaterial.

Note 11: Subsequent Events

Management has evaluated subsequent events through September 20, 2022, the date on which the financial statements were available to be issued.

Renick R-V School District Notes to Budgetary Comparison Schedule For the Year Ended June 30, 2022

BUDGET LAW

The District prepares its annual operating budget under the provisions of the Revised Missouri Statutes (RSMO) Chapter 67. In accordance with those provisions, the following process is used to adopt the annual budget.

- A. Prior to July, the superintendent, who serves as the budget officer, submits to the Board of Education a proposed budget for the fiscal year beginning on the following July 1. The proposed budget includes estimated revenues and proposed expenditures for all District funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year.
- B. A public hearing is conducted to obtain taxpayer comments. Prior to its approval by the Board of Education, the budget document is available for public inspection.
- C. On May 18, 2021, the budget was legally enacted by a vote of the Board of Education.
- D. Subsequent to its formal approval of the budget, the Board of Education has the authority to make necessary adjustments to the budget by formal vote of the board. Adjustments made during the year are reflected in the budget information included in the financial statements.
 - Budgeted amounts are as originally adopted, or as amended by the Board of Education.
- E. Appropriations and the authority to expend funds lapse on June 30, 2022.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Education Renick R-V School District Renick, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the cash basis financial statements of the governmental activities and each major fund of the Renick R-V School District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Renick R-V School District's basic financial statements, and have issued our report thereon dated September 20, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Renick R-V School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Renick R-V School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Renick R-V School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs as finding 2022-001 that we consider to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Renick R-V School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Renick R-V School District's Response to Finding

Alu w Riem CARLL

The District's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the District's response and, accordingly, express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Kirksville, Missouri September 20, 2022

Renick R-V School District Summary Schedule of Findings and Questioned Costs For the Year Ended June 30, 2022

Section II—Financial Statement Findings

MATERIAL WEAKNESS

2022-001 Segregation of Duties

Condition: Because of a limited number of available personnel, it is not always possible to adequately segregate certain incompatible duties so that no one employee has access to both physical assets and the related accounting records, or to all phases of a transaction. There are some mitigating controls in place but it is not possible to have segregation in all areas.

Criteria: Duties should be segregated so that no one employee has access to both physical assets and the related accounting records, or to all phases of a transaction.

Effect: Risk is present that errors or irregularities in amounts that would be material to the basic financial statements may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Recommendation: We realize because of limited resources and personnel, management may not be able to achieve a proper segregation of duties; however, our professional standards require that we bring this lack of segregation of duties to your attention in this report.

Response: The limited number of available personnel prohibits segregation of incompatible duties and the District does not have the resources to hire additional accounting personnel.

Repeat finding of 2021-001

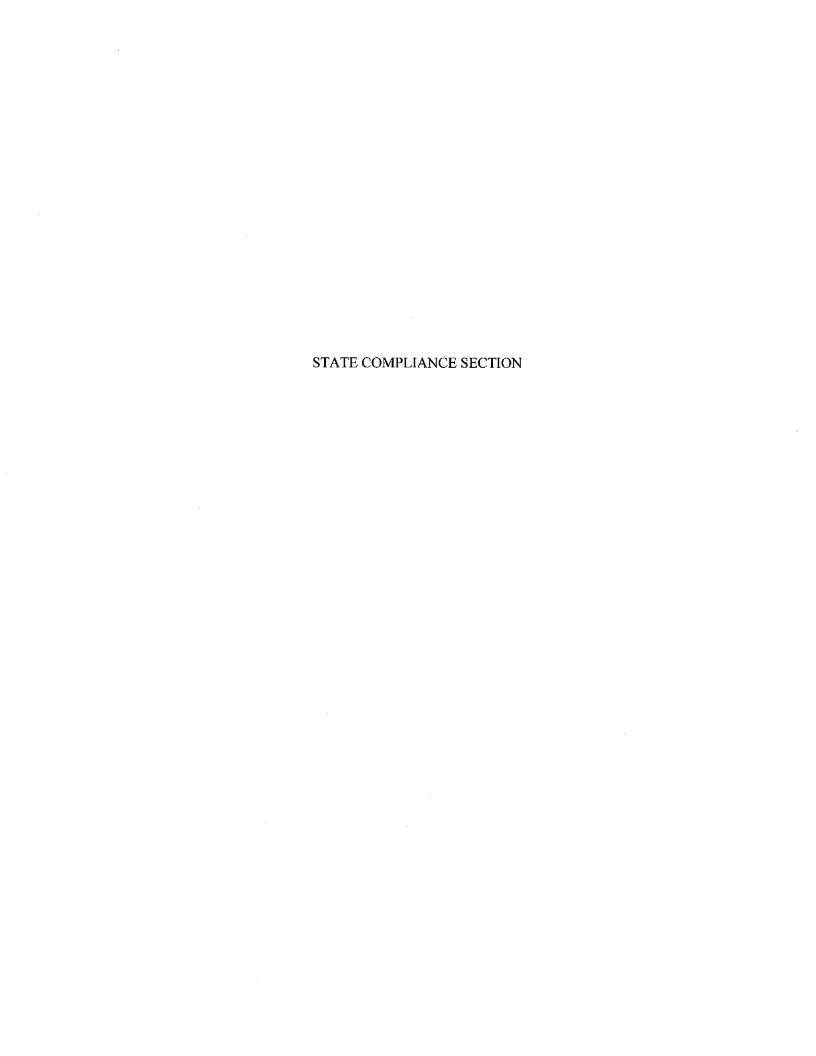

Renick R-V School District Schedule of Prior Audit Findings For the Year Ended June 30, 2022

Financial Statement Finding

2021-001 Segregation of Duties

Auditor's Recommendation: We realize because of limited resources and personnel, management may not be able to achieve a proper segregation of duties; however, our professional standards require that we bring this lack of segregation of duties to your attention in this report.

Status: Uncorrected. The limited number of available personnel prohibits segregation of incompatible duties and the District does not have the resources to hire additional accounting personnel.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH STATE REQUIREMENTS - FINANCIAL

Board of Education Renick R-V School District Renick, Missouri

We have audited the financial statements of Renick R-V School District, as of and for the year ended June 30, 2022, and have issued our report thereon dated September 20, 2022. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Our audit was conducted for the purpose of forming an opinion on the financial statements of Renick R-V School District taken as a whole. The accompanying Schedule of Transportation Costs Eligible for State Aid is presented for purposes of additional analysis and is not a required part of the financial statements. The information in this schedule has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly presented in all material respects in relation to the financial statements taken as a whole.

INDEPENDENT ACCOUNTANT'S REPORT ON MANAGEMENT'S ASSERTIONS ABOUT COMPLIANCE WITH SPECIFIED REQUIREMENTS OF MISSOURI LAWS AND REGULATIONS

Board of Education Renick R-V School District Renick, Missouri

We have examined management's assertions, included in its representation letter dated September 20, 2022, that Renick R-V School District complied with the requirements of Missouri Laws and Regulations regarding budgetary and disbursement procedures, accurate disclosure by the District's attendance records of average daily attendance and average daily pupil transportation and other statutory requirements as listed in the Schedule of Selected Statistics for the year ended June 30, 2022. As discussed in that representation letter, management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on management's assertion about the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Schedule of Selected Statistics is in accordance with the criteria, in all material respects. An examination involves performing procedures to obtain evidence about the Schedule of Selected Statistics. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of the Schedule of Selected Statistics, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

In our opinion, management's assertions that Renick R-V School District complied with the aforementioned requirements for the year ended June 30, 2022 are fairly stated in all material respects.

This report is intended solely for the information and use of management and others within the organization, Board of Education, Missouri Department of Elementary and Secondary Education and is not intended to be and should not be used by anyone other than these specified parties.
