Kentucky Waterways Alliance Report A Tire Mobile App Use Support

Contents

Find contained below operating information for the Kentucky Waterways Alliance Report A Tire Mobile App. This information provides user recommendations and tips for using the KWA App. Please reach out to Kentucky Waterways Alliance with any questions.

How To Use the KWA Report A Tire Tool

We strongly encourage you to use this tool whenever near or on a waterway. Whether you're hiking, paddling, fishing, boating, or simply enjoying Kentucky's amazing system of waterways, **if you see a tire, report a tire!**

Getting Started

- Ensure you have allowed the KWA Report A Tire Mobile App to use your location. For more information on location settings, visit instructional information from Apple (here) and Android (here).
- Our app will collect your report regardless of your current cellular connection. We encourage you to report tires wherever you find them!

Reporting a Tire Location

- Safely position yourself close to the tire(s).
- Press the "+", and record how many tires you can observe.
- Indicate if you remove the tire(s).
- If you are within 25 feet of a tire and it is unsafe to approach, use the manual entry mode by tapping any location on the map to drop a tire location pin.
- When you are ready, submit your report! A submission ribbon will appear when the report has been collected by KWA.

Exploring Other User Reports

- Explore other data points: Tap any point on the map to learn when the report was recorded and how many tires were observed.

Pro Tips

- Safety is ALWAYS a priority. Consider river and weather conditions prior to reporting.
- Be aware of your surroundings when using the KWA Mobile App.
- When looking at the map, your points are green, other report points are blue.
