

August 14, 2022

To Whom it May Concern;

I hired J.P. Painting and Restoration in June 2022 for painting needs at my residence. They painted a variety of items including a wrought iron perimeter fence and deck railing. They also stained my outdoor porch staircase and a large wood playset. Finally, they also re-stained my large front door. Both Candace and Guillermo were intimately involved with me and made sure everything went smoothly and as agreed. I found both to be very trustworthy with attention to detail. They offered good pricing and completed the project on time. I reviewed the completed project and am very impressed by the quality of the work they performed. Given the size of my project, I figured I'd have a relatively large punch list of items needing touch up, but I couldn't find anything that needed attention...every item was completed perfectly. The crew was courteous and very hard working and cleaned up the job site completely.

I was so impressed with both Candace and Guillermo, that I have entered discussions with them to become a certified independent contractor for my company, City Wide Facility Solutions. My company provides building maintenance services to commercial businesses and we have been operating in the Front Range of Colorado for the past 20 years. We provide over 20 services to commercial businesses and utilize only high end, top independent contractors that we have a relationship with, to provide services to our customers. City Wide's reputation is the premier facility solutions provider in Colorado and we believe in customers for life. This is only possible with the partnerships we have with the very best independent contractors available. J.P. Painting and Restoration is exactly the type of partner we seek for our business and I was thrilled to have found them for the project on my personal residence.

I highly recommend J.P. Painting and Restoration.

Kind regards,

**Scott Brown**
