Gov. Whitmer Announces 40 New Jobs Coming to Adrian

Investment from Adrian Steel Company marks the company's largest investment in Michigan since 1953

LANSING, Mich.- Today, April 28, Governor Gretchen Whitmer announced the Michigan Strategic Fund (MSF) Board approval for Adrian Steel Company's expansion in Adrian (Lenawee County) that will create at least 40 new jobs and result in \$43.4 million in capital investment to grow the economy.

"Michigan is on the move and open for business, competing for and winning big projects in industries like steel manufacturing," said Governor Whitmer. "Today's announcement will create 40 good-paying jobs and cement Michigan as the best place to build the future. Let's keep working together to create good-paying jobs, bring supply chains home from overseas, and tell Michigan's story."

"Today's approved project underscores the continued votes of confidence that industry-leading companies in manufacturing give our state," said Quentin L. Messer, Jr., CEO of the MEDC and MSF Board Chair. "This industry is at the core of our state's heritage and future competitiveness. I congratulate Adrian Steel

Company for choosing to 'Make It in Michigan' and thank Governor Whitmer, the members of the Michigan Strategic Fund Board, the Michigan Legislature and our economic development partners for the collaboration that made today happen."

Adrian Steel Company investing \$43.4 million, adding at least 40 jobs to expand operations in Lenawee County

OVERVIEW: Adrian Steel Company is making a \$43.4 million investment to significantly expand its operations in Adrian, reinforcing its long-standing commitment to Lenawee County and the state of Michigan. The MSF Board approved a \$320,000 performance-based Michigan Business Development Program (MBDP) performance-based grant to support the company's expansion, which includes a 112,000-square-foot addition to its existing Adrian facility.

The expansion will enhance Adrian Steel's manufacturing capabilities with additional

space dedicated to raw material storage, cutting, forming, welding, painting, assembly, office functions, and shipping operations — further strengthening the company's ability to serve customers across North America. Over the next five years, the project is expected to create at least 40 new jobs and bring Adrian Steel's total capital investment to \$43,453,278.

In support of this investment, the MSF Board also approved a five-year, 100% State Essential Services Assessment (SESA) with an estimated value of up to \$228,751 for \$25,791,240 in eligible personal property. Additional support includes an anticipated real property tax abatement from the City of Adrian, along with a State Education Tax abatement authorized by the MEDC.
