1. Purpose of Request for Expressions of Interest (EOI)

The Township of Armour is seeking interested developers, healthcare service providers and other suitable parties (Respondents) who would have an interest in leading and/or supporting the creation of an Almaguin Health and Innovation Hub (AHI Hub). The AHI Hub will expand and complement the existing mix of healthcare services available to the Almaguin Highlands Region. The Township, along with regional partners recognizes that access to healthcare and extended services in the region is a key concern for residents as well as a key priority for local and regional decision makers.

The purpose of this Request for Expressions of Interest (REOI) is to identify potential project partners that have an interest in bringing the AHI Hub to life.

2. Background Information

The Township of Armour is a single tier municipality in the District of Parry Sound. It is a small, rural community located along Highway 11, between Huntsville and North Bay. The current population is approximately 1,414 with total households numbering 1,080. The Township is an active member of the [Almaguin Highlands Health Council](#) (AHHC) along with nine other municipalities. The AHHC is a not-for-profit organization focused on retaining and expanding quality healthcare services in the Almaguin Highlands region.

In 2024, the Township of Armour acquired a ~24-acre parcel of land at the corner of Pegg's Mountain Road and Ferguson Road with a vision of creating development opportunities that benefit both township and regional (Almaguin) residents. Since the acquisition of the property, Armour Council has invested in various property studies and reports to support the 'shovel-readiness' of the property. These studies will be made available to respondents to this EOI pending an initial review or intake consultation.

The concept for the AHI Hub has been developed in partnership with private sector developers and key healthcare contacts from various organizations. The Township recognizes that the creation of the Hub is an ambitious undertaking that will likely involve the support of multiple partners across various sectors.

Please see Appendices A & B for supporting documentation which includes information regarding the property, draft design concept, planning, and servicing considerations.

3. **General Conditions**

3.1 **Eligibility**

Before preparing an expression of interest, Respondents are advised to ensure that they can meet the following mandatory eligibility criteria. Expressions must:

- Provide an overview of the Respondent's history of either:
 - Successful commercial or public sector developments/investments
 - Continuous operation of a health, or extended health, related service (public or private sector services are welcome).
- Demonstrate a clear intent to either:
 - Create a new construction project geared to house healthcare or extended healthcare services; or
 - Establish a healthcare or extended healthcare service which is either currently unavailable locally or that fills a known gap in the local healthcare mix.

3.2 **Closing Date and Time**

3.3 **Clarification**

All inquiries regarding this Request for Expressions of Interest (REOI) shall be submitted in writing to the Chief Administrative Officer (CAO) of the Township of Armour. Questions must be received no later than seven (7) calendar days prior to the submission deadline.

Responses to substantive inquiries shall be shared publicly on the Armour Township website at the discretion of the Township in order to ensure fairness and transparency in the REOI process. The Township will not be responsible for any verbal instructions, interpretations, or information provided outside of this written clarification process.

Respondents are solely responsible for seeking clarification on any matter they consider to be unclear or ambiguous within this REOI prior to submission.

3.4 Development Structure & Land Disposition

The Township of Armour anticipates that the Almaguin Health & Innovation Hub may proceed under one of two potential land transaction models:

Fee Simple Sale of all or a portion of the Pegg's Mountain Road development lands, subject to a negotiated Development Agreement; or

Long-Term Municipal Ground Lease, whereby the Township retains ownership of the lands and enters into a long-term lease arrangement with the Lead Developer.

The Township recognizes that a long-term land lease model may provide enhanced opportunities for senior government funding participation and strategic partnership alignment, particularly where continued municipal involvement strengthens eligibility under applicable public funding programs.

The final land transaction structure will be determined through discussions with the selected proponent(s) and shall be subject to Council approval.
