Embalming & Use of Care Center.....\$945

Except in certain special cases, embalming is not required by law. Embalming may be necessary however if you select certain funeral arrangements, such as a funeral with viewing. For both public health and aesthetic reasons, we require embalming for open-casket public viewings. Embalming may also be recommended to preserve the body between the time of death and the disposition of the deceased. Livestream Services

Livestream services are available for funerals, memorials, and events that Stewart Baxter directs at any location that Wi-fi is available. We capture the stories and memories shared from events at the funeral home or at other locations of the services. This is especially important for family and friends who are unable to attend. Family members and friends anywhere in the world are able to be there with you. The livestream link is posted on your loved one's obituary page on the funeral home website or for more privacy, you can share the link privately.

Memorialization

Remember your loved one with a memory table display. You can include significant items from your loved one's life, including golf clubs, gardening tools, fishing gear, a musical instrument, a motorcycle helmet or jacket, knitting or sewing supplies...the possibilities are endless. Display special photos, certificates, achievement awards and other significant items on photo boards for display at the memorial event. Tables and an ample supply of easels are available for your use upon request.

Video Tribute

There is no better way to remember your loved one than with a personalized video tribute. Our video program incorporates your family's pictures with music into a presentation that can be played at the visitation, during the service or at the conclusion of the service. We text you a link and you upload the photos. It's that simple. You can post the video online for family and friends around the world to see and share with generations to come.

Personalized Music

You are not limited to traditional funeral music during your loved one's service. Customize the visitation or service with your loved one's favorite song or artist, or we are happy to help your family compile special music selections. You may connect your device directly into our sound system, or provide track title and artist to your funeral director for ease and assurance that the music is available for the event.
