

Buckets & Attachments When You Need Them

MISC-48M

MISC

The Berlon Mini Soil Conditioner is built for pros who expect clean finish work, zero downtime, and a tool that bites into whatever's in the way. With a direct-drive motor, carbide teeth, adjustable caster wheels, and four configurations to match your machine, this attachment turns rough ground into a clean, workable surface fast.

Features

Direct-Drive Power

- 12-16 GPM hydraulic motor with a max of continuous 20 GPM delivers consistent torque and faster response than chain-drive competitors.
- 196 max RPM with high tooth tip speeds for aggressive performance.

Carbide Tipped Teeth

- V-shaped pattern for smooth, even conditioning.
- 1.25" Fixed tungsten carbide teeth. **OR optional**
- 45-tooth drum built around an 8 inch diameter,
- 1/4" wall tube

Built for Control & Precision

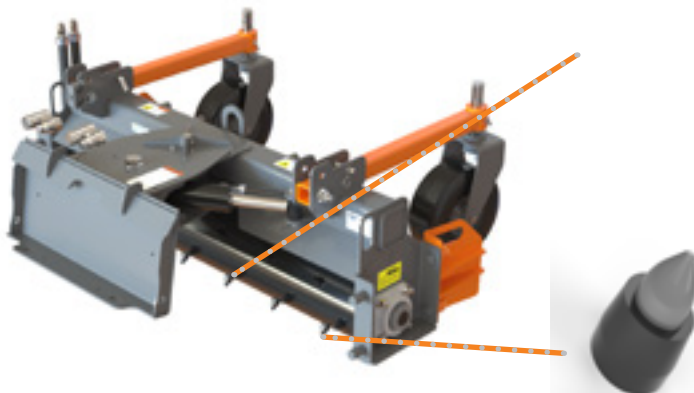

- Caster wheels feature 7-position height adjustment, roller-bearing pivots, greasable hubs and zero-flat tires.
- End spoil plates mount front or back with a dedicated stow area on the attachment.

Jobsite Toughness

- Grade 50 steel in all high-stress areas.
- Hardened pivot pins, greasable pivot points, and heavy-duty bearings with concentric locking collars.
- Integrated debris guards and a fixed, non-floating mount for consistent grading results

4 Available Configurations

- MISC-48M - Manual Angle (standard)
- MISC-48H - Hydraulic Option - incl hoses & couplers (2 sets of hose lines)
- MISC-48E - Hydraulic Option - incl manifold, 14 pin
- MISC-48S - Hydraulic Option - incl manifold and wire harness
