What is your money for apart from use of the studio?

- Recycled studio clay included, other new clays available to try, larger projects are charged on a weight basis.
- Full use of the studio facilities, including the wheel, tools, apron, moulds, underglazes and transparent dip etc. Special brand glazes are charged per piece.
- A small piece of work from your experience will be stored to bone dry, fired to bisque, then glazed in a gloss transparent glaze for later collection. If it is not collected in 6 months, it will be recycled.

Working in ceramics, from a clay ball to a beautifully glazed piece is a lengthy process, allowing for drying out and 2 firings, but it is a joy to work with the clay from its raw state to owning a piece made from scratch.

The studio is a relaxed, happy and safe place for all to enjoy, we try to be as flexible with sessions as possible, recycle as much as we can, and open to the whole community.
