

**TRI COUNCIL AGENDA
SEPTEMBER 25, 2025
6:30 P.M.**

**TOWNSHIP OF STRONG (Host Municipality) COUNCIL CHAMBERS
28 MUNICIPAL LANE, SUNDRIDGE**

**NOTICE: Zoom Link to attend the meeting virtually is available on the website at
<https://events.strongtownship.com/meetings>**

1. Approval of Agenda
2. Declaration of Pecuniary Interest or General Nature Thereof
3. Delegations/Presentation:
4. New Business/Follow-up Items [R]
 - 4.1 Ministry of Natural Resources – Lake Bernard Shoreline Work Permit Information
 - 4.2 The Cenotaph Flowers & Reserve [Village of Sundridge]
 - 4.3 Staff Holiday Bonus & Holiday – Taskforce Update
 - 4.4 Cooling Centre [Village of Sundridge]
 - 4.5 Amalgamation Update [Village of Sundridge]
 - 4.6 Tree Planting Program [Township of Strong – Mayor Bryson]
 - 4.7 Sundridge & District Medical Centre – Facility Management and Administration [Township of Strong]
5. Closed Session – Section 239(2)(b) personal matters about an identifiable individual, including municipal or local board employees: Sundridge & District Medical Centre – Facility Management and Administration
6. Next Tri-Council Meeting – January 2026 Hosted by Township of Joly
7. Adjournment

Subject: Work Permit Presentation
Attachments: Bernard_shoreline_work_permit_info_2025_FINAL.pdf

Good Afternoon,

Please find attached the MNR presentation on Work Permit applications.

This can be posted publicly on municipal or other relevant association websites.

Happy to chat.

Thanks!

Crown Land Work Permits (shore lands)

Work permit application information and
process

Ministry of Natural Resources

2025

Ontario 

Purpose

Provide an overview of the work permit application requirements and process for simple erosion control measures on shorelands

Serve as a reference for simple erosion control work permit applications

Provide contact information for questions and application submissions

Permit Requirements under the *Public Lands Act* – O. Reg. 239/13

- Applies to Crown land and Crown or private shorelands
- **“Shore lands”** are defined as lands covered or seasonally inundated by the water of a lake, river, stream or pond.

No Person Shall:

- a) Construct a building (on Crown land)
- b) Construct a trail, water crossing or road (on Crown land)
- c) Dredge shore lands
- d) Fill shore lands
- e) Remove invasive/native aquatic vegetation by mechanical means or by hand from shore lands
- f) Construct or place a structure or a combination of structures that is in physical contact with more than 15 square metres of shore lands. O. Reg. 239/13, s. 2 (1); O. Reg. 160/17, s. 2 (1).

Unless acting under the authority of the terms and conditions of a work permit or instrument granted under the act authorizing the activity.

Erosion Control Structures

The placement of an erosion control structure means filling shore lands by constructing a breakwall, revetment, groyne or doing other shoreline protection work.

You **need a work permit** to:

- build a new erosion control structure on shore lands
- change the dimensions of an existing erosion control structure on shore lands

You **do not need a work permit** to [maintain, repair, or replace an erosion control structure](#) if you meet the conditions in Public Lands Act *Ontario Regulation 239/13*.

However, you must let the ministry know before you start work by [registering your activity](#).

Erosion Control Structures (complex/engineered)

Breakwalls

Revetments (retaining wall)

Groyne

Erosion control structures (simple)

Riprap

Revegetation

How to apply for a work permit

A work permit application is reviewed and, if approved, issued free of charge by the ministry.

You can apply for a work permit online using the [Natural Resources Information Portal](#).

Contact the Bracebridge-Minden-Parry Sound District – crownlands.BMPS@ontario.ca for support during the process.

What to include with your application

You are responsible for all application requirements such as studies and associated costs.

Application forms are available through the [Natural Resources Information Portal](#) or from the local district office [work centre](#).

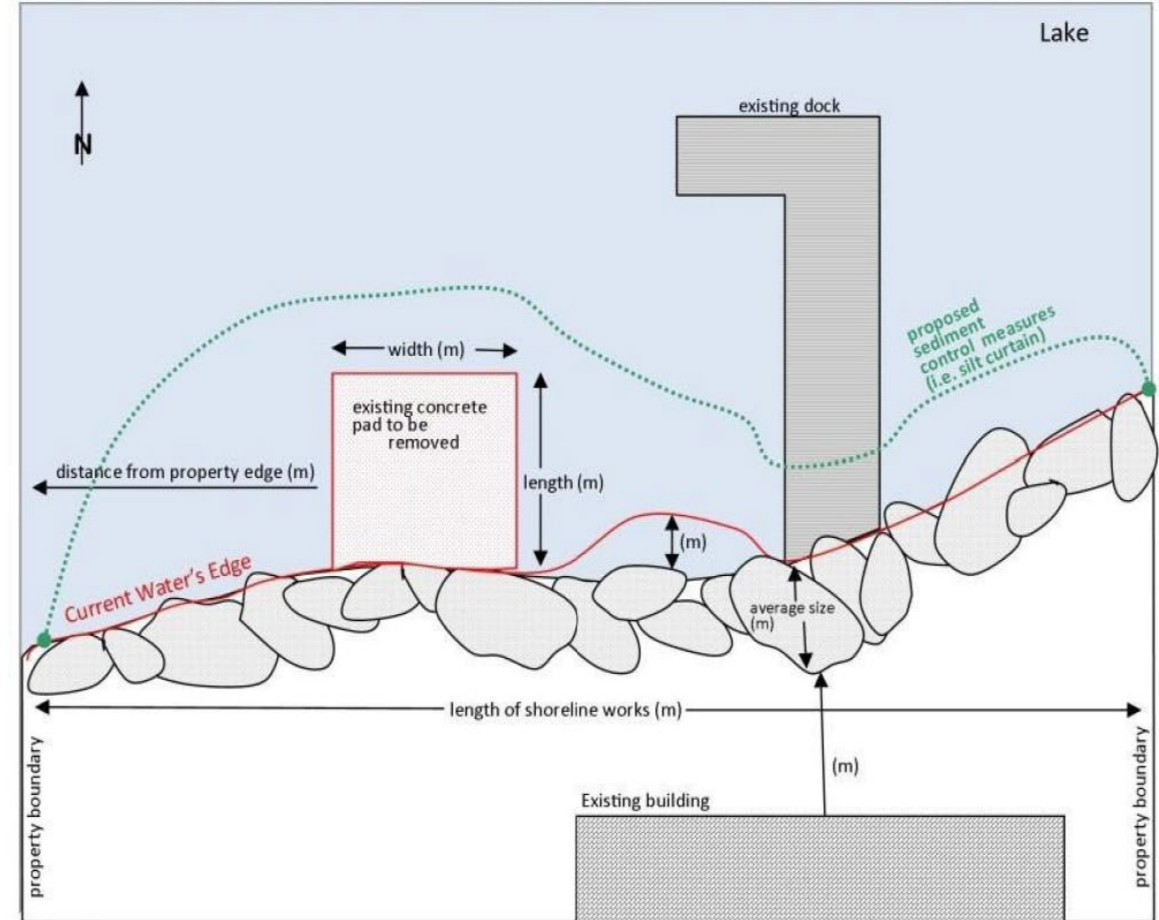

Note – information from Crown land work permits site [Crown land and shore land work permits | ontario.ca](#)

What to include with your work permit application

1. Site plans - a site plan is used to understand the work proposed relative to the site and conditions.

It should be a to-scale drawing showing the location and details of the proposed improvements relative to key features, including:

- a north arrow and the scale of the site plan
- boundaries of the proposed development
- a sketch of any proposed work and/or structures
- existing buildings, structures, infrastructure and improvements on the site
- an indication of all existing access to the site
- significant natural features (including current water's edge and high water mark)
- description of vegetation cover
- locations of water bodies
- the location and direction of where photos in the application were taken
- any other information relevant to the proposed work

What to include with your work permit application cont.

2. Key maps - are used to locate the general area of the application (scale between 1:100 000 and 1:50 000).

Applications must include a key [map](#) that is to-scale and depicts key features, such as:

- township lot fabric
- ownership details of the relevant property
- existing right of ways and access information
- coordinates of the property (Latitude/Longitude or UTM)
- locations of water bodies

• [Make A Topographic Map](https://www.lioapplications.lrc.gov.on.ca/MakeATopographicMap/index.html?viewer=MakeATopographicMap.MATM) online with the MNR mapping tool ([https://www.lioapplications.lrc.gov.on.ca/MakeATopographicMap/index.html?viewer=Make A Topographic Map.MATM](https://www.lioapplications.lrc.gov.on.ca/MakeATopographicMap/index.html?viewer=MakeATopographicMap.MATM)) or search “make a topographic map” on your preferred search engine

What to include with your work permit application cont.

3. Profile or cross section view of planned work

The profile or cross section view of planned work should include:

- length and depth of work
- average size of material used
- water depth
- distance to structures on the upland property
- current and proposed slope of work area
- nearby features (trees, vegetation)

What to include with your work permit application cont.

4. Photos

If providing photos, indicate the location and direction of the photos relative to locations identified on the site plan.

Photos should:

- be clear and unobstructed
- be taken with good light
- be taken in snow-free conditions
- provide a wide-angle view of the site

5. Project description/ cover letter

The description of the project may include:

- purpose and rationale for the project
- details of the project such as location, duration, and recurrence (will it happen in stages or will it be done again in the future)
- alternatives considered to the proposed work
- mitigation measures integral to the design and scope of the project
- relationship of the proposed work to other projects (such as dock construction, dredging, upland grading etc.)

What to include with your work permit application cont.

6. Additional supporting information

Depending on the location and nature of the application, additional information may be required, such as:

- written confirmation that neighbouring property owners are aware of the proposed work
- comments from neighbouring property owners
- proof of consent to represent the landowner if the person applying for the work permit is not the landowner (e.g. a contractor or project manager)
- proof of land ownership or occupational authority, which may include:
 - plans, surveys, **deeds, Property Identification Number (PIN) document**, tax information, or information regarding occupational authority such as a land use permit or lease number

Corporate profile report

Applicants who are a corporation must submit a current [Corporate Profile Report](#).

How to apply

- Submit the completed application online using the [Natural Resources Information Portal](#). If you need support for the application process, contact your ministry [work centre - Bracebridge-Minden-Parry Sound District](#) (crownlands.bmps@ontario.ca).
- Submit the application well in advance of your planned project start date (Part 1 and Part 3 for shorelands).
- Attach all required information outlined in the form instructions, as a review will not be initiated until you have submitted a complete application.

Dear [REDACTED]

Subject: Shoreline Protection, So [REDACTED] 4-HCAA-02 [REDACTED]
– Implementation of Measures to Avoid and Mitigate the Potential for Prohibited Effects to Fish and Fish Habitat

The Fish and Fish Habitat Protection Program (the Program) of Fisheries and Oceans Canada (DFO) received your proposal on December 6, 2024. We understand that you propose to:

1. Install rip rap to protect approximately 9m of shoreline on Haliburton Lake (~11m² footprint below the ordinary high water mark); and,
2. Conduct work during dry conditions.

DFO – fisheriesprotection@dfo-mpo.gc.ca

Application cover letter

The completion of erosion control work on the waterfront of our property on Haliburton Lake is critical to prevent further environmental degradation and ensure the stability of the shoreline. Erosion in this area has significantly accelerated due to natural factors such as fluctuating water levels, wave action, and storm events, leading to the loss of soil and vegetation, which are essential for maintaining ecological balance. Without intervention, continued erosion threatens the integrity of the shoreline, risks sedimentation in the lake, and could adversely affect aquatic habitats and water quality. Implementing erosion control measures will not only protect our property but also contribute to the long-term health and sustainability of Haliburton Lake's ecosystem. This proactive approach aligns with responsible stewardship of natural resources and will mitigate potential environmental and safety hazards in the future.

Other submission requirements cont.

Site plan, profile view and photographs

- Materials
 - Filter cloth
 - 6-8' Granite gabion stone
- Dimensions of area to be filled
 - L: 30'
 - W: 4'
 - H: 2'
- Equipment - to be located on sand between shoreline and water line
 - Tracked skid-steer
 - 5ton mini excavator

Current

Proposed

Work Permit Application – simple erosion control example

Application Checklist

(Please ensure all items listed in the checklist below are submitted. Incomplete application packages will not be reviewed)

- ☐ **Part 1 & Part 3** – Complete the work permit application. This form must be **signed by the applicant**. A contractor or agent **MAY NOT** sign the Part 1 application on behalf of the landowner.
 - ☐ **Rationale/justification for project** – A cover letter including supporting rationale for any proposal on Crown land must be provided. Why do you require what you are applying for?
 - ☐ **Agent sign-off form** – For privacy protection reasons, we require that the landowner sign off on the agent form (if applicable) to allow for necessary correspondence between the agent and MNR.
 - ☐ **PIN** (obtained from Land Registry Office) – Proof of ownership of upland property
 - ☐ **Corporate Profile** – must be submitted when the applicant for the project is a corporation.
 - ☐ **Sketches** – including all dimensions, distance to side lot lines, and identify all structures on the property
 - ☐ **Photographs** – Current, summer/snow-free photographs of the proposed work area must be provided.
 - ☐ **Location Information & Maps** – provide all available information to allow MNR to locate the proposed location of the project. Include lot, concession, geographic township, UTM coordinates, and street address (if available). The map should identify distinguishing features such as road names, fire route numbers, buildings etc. A sketch of the project should be overlaid onto the maps to provide clarity on the proposed work.
 - ☐ **Survey** – If the property is surveyed, a survey plan of the property with an outline of the project sketched on it should be attached.
 - ☐ **Neighbour Attestation** – Potentially affected neighbours must be notified of the proposed work. Discuss your project with affected neighbours and complete the attestation form
 - ☐ **Municipal comments** – are required if your property is located within an organized municipality
 - ☐ **Department of Fisheries and Oceans Canada** comments or approval. The DFO can be contacted by phone at 1-855-852-8320 or by email to fisheriesprotection@dfo-mpo.gc.ca.
There is no longer a self-assessment process for proponents and it has been removed from the DFO's website. **All works, undertakings or activities that have the potential to result in the death of fish or the harmful alteration, disruption or destruction (HADD) of fish habitat should be reviewed by DFO.**
The MNR is not in a position to issue our work permit(s) until we have confirmation of Fisheries Act review and approval.
 - ☐ **Work plan drawing details and requirements*** - The drawings included allow MNR staff to appropriately review your proposal. It is very important to ensure they are complete and accurate.
 - Draw your plans to scale
 - Include as much information as possible
 - Drawings should be neat (use a ruler or computer to create drawings)
- * For **ALL PROJECTS** you must include a *minimum* of **2 drawings**. Minimum drawing requirements are included in this package. All items on the minimum drawing requirement checklist **MUST BE** submitted:
- **Site Plan Drawing (bird's eye view)**
 - Clearly indicate where the work will take place in relation to lot lines and water's edge
 - Include dimensions of work footprint
 - Provide UTM coordinates, if available
 - **Project Specific Cross-Section Drawing**
 - Drawings specific to the type of work you are proposing – see details below for specifics.
 - Include a detailed side-view (cross-cut) drawing of the proposed work.

Note that engineer drawings, technical reports/supporting documentation may be required for complex projects. Groynes and breakwalls will require a coastal engineer's report.

Decision on work permit application

A decision on a complete work permit application will be made within 21-45 business days (for erosion control projects).

You may only begin work on projects when you receive a work permit.

You must comply with all permit terms and conditions.

A work permit may be approved with conditions, such as timing restrictions to protect fish spawning or sediment control.

While work is being done or following its completion, we may inspect the site to ensure compliance with the permit.

If your work permit application is denied, you may express your objection in a hearing. Refer to [Regulation 975: Work Permits](#).

Other approvals

Before you start any work, find out whether you need additional authorizations (from your municipality or other ministries).

You should consult your local municipality to determine if they have official plan policies or zoning bylaws in place that might affect, prohibit, or control any proposed work.

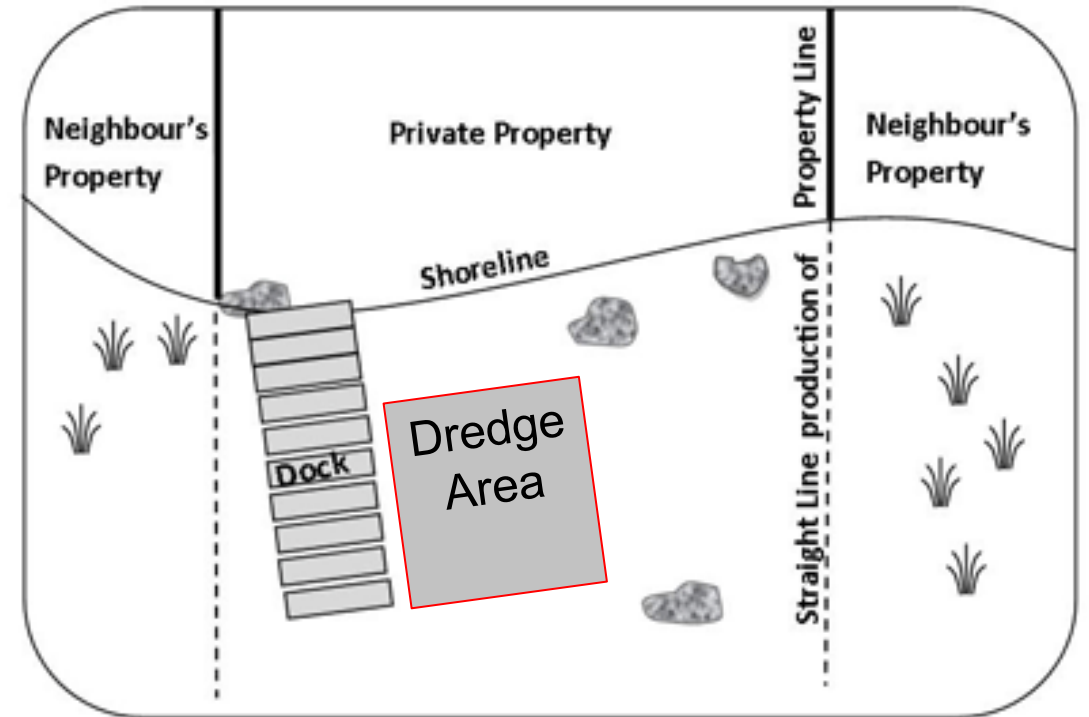

You should also check with other government agencies that may have an interest and regulatory role related to your proposal

You may also want to discuss the project with neighbours before starting work.

Work that doesn't require a work permit from MNR

Exemptions from requirements to obtain a work permit ([O. Reg. 239/13](#))

- Dredging shore lands previously dredged if:
 - No later than 5 years after the previous dredge
 - Dredging occurs within the same footprint as what was previously authorized
 - You can only conduct work on shore lands directly in front of your own property
 - Work is registered with MNR

Relocating Rocks

- Rocks must not be removed from the water
- Rocks must be distributed randomly so not to create an erosion control structure
- Area must be perpendicular to the shoreline and not exceed 6 meters in width
- Work is registered
- [O. Reg. 239/13 ACTIVITIES ON PUBLIC LANDS AND SHORE LANDS - WORK PERMITS AND EXEMPTIONS | ontario.ca](https://www.ontario.ca/laws/reg/13/1300023.htm)

Fig. 1 Relocating Rocks on Shore lands — Existing Features

Fig. 2 Relocating Rocks on Shore lands — Exempted from Work Permit

Removal of Invasive Aquatic Vegetation

No permit required for removal of invasive aquatic vegetation from shore lands with the following conditions:

- Work must be directly in front of your private property
- Must be “invasive” as defined by Regulation:
 - "invasive aquatic vegetation" means: plants listed in the document entitled "[Ontario's Invasive Aquatic Plant List](#)" and dated March 11, 2013, that is published by the Ministry (list available at: <https://www.ontario.ca/page/invasive-aquatic-plants>)
 - Must follow the conditions in the Regulation (found on the website).
- All cut or uprooted vegetation must be immediately and permanently removed from the water, etc.
- [O. Reg. 239/13 ACTIVITIES ON PUBLIC LANDS AND SHORE LANDS - WORK PERMITS AND EXEMPTIONS | ontario.ca](#)

Invasive aquatic plants

Brazilian Waterweed
Curly-Leaved Pondweed
Eurasian Water-Milfoil
Eurasian and Northern Milfoil hybrid
European Frog-Bit
European Lake Sedge
European Water Chestnut
Fanwort
Flowering Rush
Hydrilla
Parrotfeather
Phragmites (European Common Reed)
Purple Loosestrife
Rough (Great) Manna Grass
Yellow Iris
Water Hyacinth
Water lettuce
Watermoss-Salvinia species
Water Soldier

Erosion Control Structures: Maintenance, Repair, Replacement

No work permit needed if...

- No increase to erosion control footprint – height of structure does not count
- Structure must be located directly in front of your private property
- Work must be registered on the [Natural Resources Information Portal \(NRIP\)](#)
- Must follow conditions in Regulation (found on website)
 - Sediment controls must be used if necessary
 - Excavation equipment (if any) must be operated on land or barge
 - [O. Reg. 239/13 ACTIVITIES ON PUBLIC LANDS AND SHORE LANDS - WORK PERMITS AND EXEMPTIONS | ontario.ca](#)

Thank you!

Crownlands.bmps@ontario.ca

[Crown land and shore land work permits |
ontario.ca](https://www.ontario.ca/crown-land-and-shore-land-work-permits)

costs associated with the provision of emergency social services and arrange for the provision of such details to the responsible Municipality(s) for cost recovery purposes. When applicable, provide such details to the Ministry of Municipal Affairs and Housing for consideration under the Ontario Disaster Relief Assistance Program (ODRAP).

4. Coordinate transportation for Red Cross Team human resources, as required.
5. Obtain assistance, if necessary, from the Provincial Ministry of Community and Social Services.
6. Maintain a log of all actions taken.

Medical Officer of Health

Activation

The Medical Officer of Health may be activated either directly or during a multi-municipal event, via the MCEG Liaison Officer, through the Emergency Operations Centre. When a representative is required to attend the EOC they will be assigned to the appropriate IMS Sector by the EOC Coordinator.

General

The responsibilities of the Medical Officer of Health include those areas of operation associated with:

- Communicable Diseases
- Health Inspection Services
- Advice on Medical Services
- Public Health Advisory

Responsibilities of the Medical Officer of Health

The office of the Medical Officer of Health shall:

1. Provide information and instructions to the Municipal Emergency Control Group (MECG) and the population on matters concerning public health.
2. Protect the health of the community from inherent health threats by enforcement of the applicable legislation.
3. Continue delivery of established programs to ensure continuity of care and general health protection.
4. Activation and direction of the "Pandemic Influenza Contingency Plan"
5. Activation and direction of the "Extreme Heat Response Plan"
6. Activation and direction of the "Extreme Cold Response Plan"
7. Maintain a log of all actions taken

Township of Strong

Cooling Station Activation Guideline

Aim

The aim of the Extreme Heat Plan is:

To inform the Township Emergency Control Group of the situation.

Scope

To monitor public information from North Bay-Parry Sound Health Unit posts for the local area

Emergency Control Group Activation

When a Heat Advisory from the Health Unit has been issued for the local area, the Mayor or Head of Council will determine if the Control Group is to be activated.

- Meet at the decided location by the Mayor. (Designated E.O.C.)
- Discuss the heat situation.
- Review the Health Unit advisory information.
- Ask Community Emergency Management Coordinator (C.E.M.C.) to check with neighboring C.E.M.C's to see what they are doing.
- Check to see if any requests from the public have been made for a relief station to go to.
- To review the information gathered and discuss and decide if a Cooling Station is required at this time.
- Set a time to meet again to review this matter if weather conditions continue.
- Confirm Chairperson will be the Mayor or Head of Council.
- Decide that a cooling station will be required, arrangements for a facility that will meet the needs to open for a Cooling Station.
- Decide what building will be considered, The SSJ Arena or (The Municipal Building if security is provided.)
- Arrange for staffing of Centre.

Township of Strong

Cooling Station Activation Guideline

Emergency Control Group Activation -Continued

- The Control Group will meet at the call of the chairperson to monitor activation.
- The Control Group will terminate the Cooling Centre Activation when one of the following or all conditions exist.
 1. Cooler weather.
 2. High Humidity has lifted.
 3. Health Unit has lifted their advisory.
 4. Public request no longer exists.
- Control Group to have a final meeting to review the activation until terminated, and discuss if improvements are needed.
- Review all costs involved.

Cooling Station Requirements

- Air Conditioned room.
- Chairs and tables available.
- Some cots available.
- Drinking water.
- Post Health Unit Information
- Security person.

Notifying Public Cooling Station Available

- Posters placed in public locations in community.
- Local TV Channel.
- Radio

**THE TOWNSHIP OF STRONG, THE TOWNSHIP OF JOLY AND
THE VILLAGE OF SUNDRIDGE
THE SUNDRIDGE STRONG & JOLY ARENA & HALL
EMERGENCY & NON EMERGENCY USE FACILITY POLICY**

The Agreement for the operation of the Sundridge Strong & Joly Arena & Hall authorizes the Arena Committee to oversee the day to day operations of this facility. The Arena Committee acknowledges and supports the use of this facility in emergency situations as outlined below.

In the event of a Declared Emergency, this facility will be utilized in a manner as to best meet the needs of the municipalities and determined by the Community Control Group at that time. It is understood that in most anticipated events, this facility will be utilized as a Comfort Station for the residents effected by the emergency event. It is also understood that from time to time, the residents may be from a municipality other than the Township of Strong, The Township of Joly or the Village of Sundridge as determined at time of such emergency is declared. Reasonable expenses incurred during such an event shall be directed to the ***Township of Strong for authorization and payment through the shared Emergency Management Budget.*** *(this is something the three councils should discuss and determine if they are going to proceed jointly in a Emergency Management Committee).*

Non Emergency Event

In the event of situations which create periods of discomfort or inconvenience to the residents of the Township of Strong, the Township of Joly and the Village of Sundridge this facility may be utilized as a comfort station. The conditions under which this may occur are as follows:

1. If during the regular hours of operation for this facility, there are conditions such that residents are without essential services for an unacceptable period of time, the CEMC may consult with the Arena Manager/Staff to determine if the facility is available and may be open as a comfort station. At this time the CEMC or alternate CEMC will then contact the Mayor/Reeve of the Township of Strong, The Township of Joly or the Village of Sundridge to determine if the facility should be open as a comfort station.

If the Mayor/s or Reeve's deem the situation to be of a nature that the facility remain open beyond regular operational hours this information will be discussed with the Arena Manager to determine staff availability.

During non-emergency use of the facility as a comfort station reimbursement of expenses will only occur when the facility is open beyond regular hours of operation for this facility. When authorized to remain open outside of regular operation hours, reasonable expenses will be directed to ***the Township of Strong for authorization and payment through the shared Emergency Management Budget.***

ADVERTISEMENT FOR THE PAPER/WEBSITE AND FACEBOOK PAGE

SUNDRIDGE STRONG & JOLY ARENA & HALL

COMFORT STATION POLICY

In the event of situations which effect essential services and may be on considerable inconvenience or discomfort to the residents of Strong, Joly & Sundridge the Sundridge Stong & Joly Arena & Hall may be opened as a comfort station.

While the facility is open as a warming station, regular operation of the facility may continue. If the canteen is open, items may be purchased by anyone using the facility.

The use of the facility as a Comfort Station is not intended to replace or discourage families from being prepared for 72 hours in the event of an emergency.

To determine if the facility is open as a comfort station, contact the arena directly at 705-384-5571, check the Township of Strong, the Village of Sundrdige facebook page, or call your municipal office during regular office hours.

RESOLUTION

June 9, 2025 Committee Resolution

6.3 Amend Work Plan
R2025-044R

Moved By: Jim Ronholm

Seconded By: Fraser Williamson

WHEREAS the SSJ Restructuring Committee previously adopted a restructuring workplan that included a potential revision of the existing ward boundaries prior to the 2026 municipal election;

AND WHEREAS section 222 of the Municipal Act, 2001, S.O. 2001, c. 25 provides that municipalities may divide or redive the municipality into wards or dissolve existing wards, subject to timelines and notice requirements, and that any changes must be finalized by the legislated deadline in order to be effective for the next regular municipal election;

AND WHEREAS due to unforeseen delays, the SSJ Restructuring Committee is unable to complete the public consultation process, and meet the statutory requirements and deadlines for implementation in time for the 2026 municipal election;

AND WHEREAS it is in the best interest of the Municipalities to ensure that any ward boundary changes and proposed restructuring order are implemented through a transparent, well-considered process that allows adequate time for public engagement and compliance with applicable legislative requirements;

NOW THEREFORE BE IT RESOLVED THAT the SSJ Restructuring Committee directs that the restructuring workplan be amended to include a task list of items to complete up to the 2026 election; and updated timeline and consultation schedule for committee's consideration; and

That a copy of this resolution be forwarded to the Ministry of Municipal Affairs and Housing; and the member municipalities, for information.
