Guaranteed Goods and Services Additional 10%

Our Funeral Insurance Policies are written to keep up with inflation, but if inflation rises higher than the policy growth, the policy will end up being underfunded. To avoid this, we are offering ‘Inflation Protection’ on policies that are funded with an additional 10% of the total contract amount for lifetime protection. Our Goods and Services are guaranteed to be covered despite inflation with the protection added - though cash advances will be kept up with the growth rate and may result in additional funds being needed, as we cannot control outside vendor costs.
