What six years taught us

Stay true to the mission

Children and families deserve a safe place to learn. Every project starts there.

Choose aligned partners

Shared beliefs on paper aren't enough; we partner with those who act on them.

Grow the team with the mission

Fast growth needs more hands: staff, volunteers and in-country support.

Show donors the impact

Donors asked for progress reports and short videos. Stories keep them close.

Price for sustainability

Realistic admin fees fund the next school, not just this one.

Dream bigger

A garden, a feeding center and a clinic at every school.
