What six years taught us

Stay true to the mission

Children and families deserve a safe place to learn. Every project starts there.

Choose aligned partners

Shared beliefs on paper aren't enough; we partner with those who act on them.

Listen to communities

Every school begins with a community that asks for it and commits to it.

Report back

Supporters see the progress: updates, photos and videos from every school.

Build to last

Safe classrooms, toilets and water that serve children for years.

Dream bigger

A garden, a feeding center and a clinic at every school.
