VersaStudio BD Series

Desktop UV Flatbed Printer

BD-8 | MSRP $11,595

BD-12 | MSRP $16,795

*The **BD Series** combines the flexibility of a flatbed printer with the compact size to fit on your desktop, making it ideal for use in home businesses, small offices, retail spaces and classroom settings. With a BD Series, adding value and appeal to items like phone covers, cosmetic cases, fashion accessories, sports memorabilia, gifts, bottles, and more is a breeze. Simply print directly onto items or print UV DTF transfers for application later.*

- 4" Printable Object Height + Distance Mode Printing
- Automated Cleaning Routines
- UV-DTF / GTS Printing Compatible
- Bundled with Roland Versaworks 7 (macOS + Windows)
- Roland DG Connect Dashboard Included

Roland DGA's Industry-Leading Warranty and Support

The BD Series is backed by Roland DGA's unmatched customer service, support and a **one-year warranty***.

TY-300i

Direct-to-Film Printer (DTF)

MSRP ~~$23,195~~ | **Promo $17,195** (valid thru 12/26/26)

Automate Your Workflow

with a Roland DG Approved DTF Shaker Oven

The TY-300i printer seamlessly integrates with leading DTF powder shaker/heater units. To make it easy, we've tested and approved optional bundles, for an automated system that puts on-demand customization right at your fingertips.

Visit www.rolanddga.com for bundle pricing and promotions!

Whether you will be creating and selling standalone transfers, or producing your own unique finished apparel, you want your work to look exceptional. The TY-300i helps you achieve this with richer color, stronger detail, and more consistent results than other DTF systems. Faster output and expanded white capacity keep production moving, even on demanding days.
