AUCTION TERMS AND CONDITIONS

1. BID

- The submission of a bid means a binding offer.
- The bidder remains bound to his bid until it is either outbid or rejected by Auctioneer.
- Bids of unknown persons may be rejected by Auction House.
- Persons who are not present may notify the Auction House in writing of intended bids. These bids are considered as maximum bids, excluding the buyers premium. Changes to a written bid must be made in writing; they must be received no later than 24 hours prior to the Auction. Written bids can be sent to info@dutchauctioncompany.com
- Request for Telephone bids must be made no later than 24 hours prior to the Auction.

2. AUCTION LOTS

- The lots are offered and sold in the name and for the account of the consignor.
- The Dutch Auction Company and the sellers disclaim any warranty for the age, origin, condition and quality of the lots put up for auction. The lots are sold in the condition in which they were at the time of the knock down.
- All lots are to be inspected at the preview days. It is possible to get an idea of their condition and value and to obtain additional information. The buyer acknowledges, that we sell used goods which can have marks and defaults caused by their age.
- The lots are described based on the latest current state of knowledge to the best of our knowledge and belief. The Dutch Auction Company is not liable for obvious or hidden defects.

3. KNOCKDOWN/PROPERTY

- The lot is awarded to the highest bidder. The lot will only be delivered to the buyer after payment has been made in full.
- The knock down could be also conditional. If it is called up « conditional sale», it means, that the reserve was not met. The Auction House will first consult with the seller and afterwards inform the buyer, if his offer was successful or not. This may happen right at the sale or within a few days.
- In the event of differences between two or more bidders, the lot may be offered again.
- Once the bid has been accepted, no further complaints will be accepted.

4. KNOCKDOWN HAMMER PRICE / BUYERS PREMIUM

- A buyers premium of 25% on top of the hammer price will be added on your invoice. This is excluding 21 % VAT* on the buyer premium if applicable.
- For cars 17% buyer's premium will apply. This is excluding 21% VAT* on the buyer premium if applicable.

** Explanation of the application of VAT on the Buyers Premium (not on the hammer price of a lot, only the buyers premium):*

> Private buyers registered within the Netherlands and Europe are invoiced including VAT.

> Private buyers registered outside Europe and exporting the purchased lots, lots leaving Europe, will be invoiced without VAT. Proof of export of the lots is required.

> Commercial buyers (companies) registered in the Netherlands are invoiced including VAT.

> Commercial buyers (companies) registered outside Europe and exporting the purchased lots, leaving Europe, are invoiced without VAT. Proof of export of the lots is required.

If commercial buyers (companies) wish to make use of the above VAT application, they must register as a commercial (company) bidder. Company name, address and VAT number are then required information that must be provided at registration.

- Attention for online bidders: If you do not bid directly at Dutch Auction Company, but online on an external auction platform, please take into account the additional fee charged by that platform. This is usually around 5%. The platform indicates which percentage they use. The auction costs of 25% are then increased by that extra percentage. If it is 5%, then the auction costs via the online platform are 30%.

5. PAYMENT OF THE LOTS

- The auctioned lots must be fully paid and collected within 5 days after the auction (unless other agreements have been made with the Auction House) at the auction location, or location where the lot is located otherwise the auction location. 6. PICK UP OF THE LOTS

- The auctioned lots will only be released after the auction and after full payment.

- Lots that are not collected on time will be removed to storage at the buyer's expense.

7. LEGAL ISSUES/LIABILITY

- The Dutch Auction Company, as sales commissioner according to article 7:425 BW 7:425 BW, acts for the account of the consignor. Any liability for defects shall be excluded in accordance with section 2. Any notices of defects, claims for rescission or reduction must be addressed directly to the Consignor as the seller. No representative or employee of the Dutch Auction Company is entitled to issue any guarantees deviating from this.

- The auction management may offer lots outside the numerical order without justification, and may combine, separate, or withdraw catalog items.

- Any participation in the auction is at your own risk. In the event of damage to exhibited objects, the causer shall be liable.
- Each removal of the auctioned lots, also by third parties, relates to own costs and risks.
- The invoice for the auctioned lots is to be paid in accordance with section 5. If this is neglected, the auctioneer may, at his discretion, demand fulfillment of the purchase contract by charging a default interest of 1% per month on the hammer price plus surcharge and the costs of collection. However, he may also withdraw from the purchase contract without notice or other notification and cancel the knockdown and sell the lot by private contract. In this case, the successful bidder shall be liable for all damages resulting from non-payment or delayed payment, in particular for any loss of proceeds. Tilburg, The Netherlands - August 2025

Deelname aan de veiling is onderworpen aan de aanvaarding en onvoorwaardelijke aanvaarding van deze Veilingvoorwaarden:

1. BOD

- Het uitbrengen van een bod is een bindend bod.
- De bieder blijft aan zijn bod gebonden totdat het wordt overboden of afgewezen door de veilingmeester.
- Biedingen van onbekende personen kunnen door het Veilinghuis worden afgewezen.
- Personen die niet aanwezig zijn, kunnen voorgenomen biedingen schriftelijk aan het Veilinghuis doorgeven. Deze biedingen worden beschouwd als maximale biedingen, exclusief veilingkosten. Wijzigingen in een schriftelijk bod moeten schriftelijk worden gedaan. Schriftelijke biedingen dienen door het Veilinghuis uiterlijk 24 uur voor aanvang van de veiling te zijn ontvangen. Schriftelijke biedingen kunnen worden gestuurd naar info@dutchauctioncompany.com
- Verzoeken voor telefonische biedingen moeten ook uiterlijk 24 uur voor aanvang van de veiling te zijn ingediend bij het Veilinghuis.

2. KAVELS

- De kavels worden aangeboden en verkocht in naam en voor rekening van de verkoper.
- The Dutch Auction Company en de verkopers wijzen elke garantie af voor de leeftijd, oorsprong, staat en kwaliteit van de kavels die worden geveild. De kavels worden verkocht in de staat waarin ze zich bevinden op het moment van de hamerslag.
- Alle kavels dienen op de voorafgaande kijdagen te worden geïnspecteerd door koper. Daardoor is het mogelijk om een idee te krijgen van de staat en waarde van de kavel, en om verdere informatie te verkrijgen. De koper erkent dat we gebruikte goederen verkopen die door hun ouderdom kunnen zijn aangetast en gebreken kunnen vertonen.
- De kavels zijn naar ons beste weten en overtuiging beschreven op basis van de laatste stand van kennis. The Dutch Auction Company is niet aansprakelijk voor zichtbare of verborgen gebreken.

3. HAMERSLAG / EIGENDOM

- Het kavel wordt gegund aan de hoogste bieder. Het kavel wordt pas aan de koper geleverd na volledige betaling.
- De hamerslag kan ook onder voorbehoud zijn. Als het een verkoop «onder voorbehoud» is, betekent dit dat de minimum prijs niet is gehaald. Het Veilinghuis zal eerst overleggen met de verkoper en daarna aan de koper laten weten of zijn bod is geaccepteerd of niet. Dit kan tijdens of binnen een paar dagen na de veiling gebeuren.
- Bij verschillen tussen twee of meer bidders kan het kavel opnieuw worden aangeboden.
- Zodra het bod is geaccepteerd, worden geen klachten meer geaccepteerd.

4. HAMERPRIJS / VEILINGKOSTEN

- Over de hamerprijs wordt 25% veilingkosten gerekend. De veilingkosten zijn exclusief 21% btw* indien van toepassing.
- Voor auto's wordt 17% veilingkosten over de hamerprijs gerekend. Dit is exclusief 21% btw* indien van toepassing.

**Uitleg toepassing BTW over de veilingkosten (niet de kavels):*

- > *Particuliere kopers geregistreerd binnen Nederland en Europa worden gefactureerd inclusief BTW.*
- > *Particuliere kopers geregistreerd buiten Europa en de aangekochte kavel exporteren, dus Europa verlaten, worden gefactureerd zonder BTW. Een bewijs van export van de kavels is een vereiste.*
- > *Zakelijke kopers (bedrijven) geregistreerd in Nederland worden gefactureerd inclusief BTW.*
- > *Zakelijke kopers (bedrijven) geregistreerd buiten Nederland maar binnen Europa worden gefactureerd zonder BTW.*
- > *Zakelijke kopers (bedrijven) geregistreerd buiten Europa en de aangekochte kavels exporteren, dus Europa verlaten, worden gefactureerd zonder BTW. Een bewijs van export van de kavels is een vereiste.*

Indien zakelijke kopers (bedrijven) van bovengstaande BTW regeling gebruik willen maken dienen zij zich ook als zakelijke koper (bedrijf) te registreren als bieder. Bedrijfsnaam, adres en BTW nummer zijn dan vereiste gegevens die bij inschrijving opgegeven dienen te worden.

- Opgelet voor online bidders: Indien u niet rechtstreeks bij Dutch Auction Company biedt, maar online op een extern veiling platform houdt rekening met de extra fee die door dat platform in rekening wordt gebracht. Dit is meestal rond de 5%. Op het platform wordt aangegeven welke percentage ze hanteren. De veilingkosten van 25% wordt dan verhoogd met dat extra percentage. Als het 5% is dan zijn de veilingkosten via het online platform dus 30%.

5. BETALING VAN DE KAVELS

- De geveilde kavels dienen binnen 5 dagen na de veiling volledig betaald en afgehaald te zijn op de veiling locatie, of locatie waar het kavel zich bevindt anders de veiling locatie. Betaling kan contant (maximaal € 20.000,-), door een bank, of credit card betaling. Bij contante betaling of betaling met creditcard komt er 3% over het totale factuur bedrag bij in verband met extra bank afstorting- of credit card kosten.
- Voor het verlaten van de veilingzaal wordt elke koper verzocht de relevante formaliteiten op het veilingkantoor in ontvangst te nemen en een volledige betaling, of passende aanbetaling te doen.

6. AFHALEN VAN DE KAVELS

- De geveilde kavels worden pas na de veiling en na volledige betaling vrijgegeven.
- De kavels dienen uiterlijk binnen 5 dagen na de veiling te zijn opgehaald. Afhalen gaat in overleg met het veilinghuis.
- Kavels die niet op tijd worden opgehaald, worden op kosten van de koper naar de opslag gebracht.

7. JURIDISCHE KWESTIES / AANSPRAKELIJKHEID

- The Dutch Auction Company behoudt zich het recht voor om voor en tijdens de veiling of totdat het bod is geaccepteerd wijzigingen en opmerkingen aan te brengen in de kavelbeschrijving. Er kunnen ook objecten worden toegevoegd of verwijderd.

- The Dutch Auction Company treedt als verkoopcommissaris volgens artikel 7:425 BW op voor rekening van de verkoper. Elke aansprakelijkheid voor defecten wordt uitgesloten in overeenstemming met paragraaf 2. Alle kennisgevingen van defecten, claims voor herroeping of vermindering moeten rechtstreeks worden gericht aan de afzender als verkoper. Geen enkele vertegenwoordiger of medewerker van The Dutch Auction Company is gerechtigd hiervan afwijkende garanties af te geven.
- Het veilingmanagement kan zonder rechtvaardiging kavels aanbieden buiten de numerieke volgorde en kan catalogusitems combineren, scheiden of intrekken.
- Elke deelname aan de veiling is voor eigen risico. In geval van schade aan tentoongestelde voorwerpen is de veroorzaker aansprakelijk.
- Afhaling van de geveilde objecten, ook door derden, is op eigen kosten en risico's.
- De factuur van de geveilde kavels dient betaald te worden conform paragraaf 5. Indien dit niet nagekomen wordt kan de veilingmeester naar eigen inzicht, nakoming van de koopovereenkomst vorderen door een vertragingsrente van 1% per maand over de hamerprijs plus opslag en incassokosten in rekening te brengen. Hij kan zich echter ook zonder voorafgaande kennisgeving of andere kennisgeving uit het koopcontract terugtrekken en de hamerslag annuleren en het object verkopen via een onderhandse overeenkomst. In dat geval is de succesvolle bieder aansprakelijk voor alle schade die het gevolg is van niet-betaling of te late betaling, in het bijzonder voor eventuele gederfde opbrengsten. Een eventueel gedane aanbetaling wordt in mindering gebracht op de schade.
- Op de veiling en alle geschillen die daaruit voortvloeien is Nederlands recht van toepassing. Dit geldt ongeacht de wettelijke woonplaats van de betrokken partijen.
- De Engelse versie van deze verkoopvoorwaarden is bepalend voor de beoordeling van geschillen.
- De bevoegde rechtbank is Breda, Nederland.

8. ALGEMEEN

- De veiling- en verkoopvoorwaarden worden aan iedere geïnteresseerde bekend gemaakt en tijdens de veiling in de veilingzaal toegelicht.
- Wettelijke identificatie, naam en adres van de koper zijn vereist voor het bieden op en veilen van een object. Registratie geeft de koper het recht om te bieden.
- Het is de verantwoordelijkheid van de koper om zich te beschermen tegen de risico's van verlies, diefstal, beschadiging en vernietiging van de betreffende kavels door tijdig een verzekering af te sluiten. Alle risico's zijn bij de koper na de hamerslag van het artikel.
- Hoewel wij ons uiterste best doen om ervoor te zorgen dat alle inhoud van onze kavelbeschrijvingen, catalogi en alle gedrukte en online communicatie zo nauwkeurig mogelijk is, geven wij geen garanties en kunnen wij niet aansprakelijk worden gesteld voor eventuele onjuiste informatie of typfouten.

The Bill Nunn Organ & Fairground Collection

On September 27, 2025, we are proud to present the Bill Nunn Organ & Fairground Collection at auction, alongside a wide range of other remarkable collectibles. This exceptional sale features over 500 lots, including organs, carousels, horses, figures, decoration, fairground rides, mechanical musical instruments, and an impressive collection of over 50 L' Autopède carousel rides.

Bill Nunn was an American, well-known and highly respected collector within the industry. His passion for collecting began with carousel horses and evolved into a deep appreciation for wooden horses, other carved figures associated with merry-go-rounds, carousels and organs. Over the years, Bill curated one of the finest collections in the country—an extraordinary legacy built on dedication and enthusiasm. Bill built a custom octagon addition onto his mansion to showcase this extraordinary collection, where he spent countless hours with family and friends.

He even hosted tours for large groups, sharing the magic of the space. With a stunning collection housed inside, and a roller coaster, carousel, and steam train with track in the backyard, this was truly a one-of-a-kind, exceptional destination! Though numerous of Bill's organs had a European origin, all of them were located within the USA until he set a big Gavioli as a goal. Finding nothing stateside, he eventually settled on one in Belgium, a Germany-built instrument that had been judged as unrestorable by others. The Verbeeck, father Johnny and son Jeffrey, proved more than adequate to the task and delivered the largest instrument that Bill owned to that time.

Lacking a façade, Bill secured a relic of the famed Revere Beach amusement zone and had it expanded back to impressive dimensions by carver Gene Buck, creating a massive piece of art nouveau elegance, the largest anywhere.

Without Bill, a Mahauden organ would not be playing on earth today. His Hooghuy and Marengi organs are without equal in the USA, and his Wilhelm Bruder is the largest playing here. This is just a cameo of Bill's contributions to the world of mechanical organs.

Following Bill's passing in 2024, the family has now made the heartfelt decision to offer the collection at public auction. The entire collection will go under the hammer and everything must be sold!

All lots will start at very low starting prices as a reserve and will be sold to the highest bid, making this a truly exceptional chance for collectors, enthusiasts and dealers to acquire one of these beautiful pieces at great prices!

Highlights include the 1910 Marengi 81-Key Dance Organ, American Carousel with Parker & Herschell Spillman Figures, Mahauden 80-key Dance Organ, Hooghuys 77-Key Dance Organ "The Sunflower", 89-Key Gavioli G4 Fairground Organ and a 1923 Dutch Swing Carousel. In addition to these highlights, the auction features an incredible array of unique pieces—including a rare Kicking Mule Carnival Game, a beautiful Gypsy Wagon, Organ Trailers, rare American 1-Cent Ladies and Men Fortune Teller, fully functioning Calypso Fairground Ride, a massive collection of miniature carousel collectibles and much more!

069 | FULLY FUNCTIONAL AMERICAN CAROUSEL WITH PARKER & HERSCHELL SPILLMAN ANIMAL FIGURES

Fully functional carousel with 12 figures. Bill Nunn bought the carousel frame from Mission Creek Theme Park, located in Hinckley, Minnesota, when the park closed. New brass poles and new wiring was needed. The platform was stripped of paint, then re-varnished.

The shields and rounding boards were refurbished, painted, and a new canvas was bought for the top. 12 oil on canvas paintings decorate the wooden rounding boards, 2 of the paintings have visible signatures. This two-abreast carousel is populated with 12 figures: the outside row features Parker & Herschell Spillman horses, while the inside row includes a Heyn cow, French carousel pig, Bayol rabbit, Bayol cat, and Herschell Spillman zebra. The carousel is relatively small at 4,90 meters high (including the eagle figure at the very top) and 4,20 meters in diameter. In excellent visual and working condition only showing a few natural hairline cracks and small spots of paint loss. Manufactured by: S & S Woodcarvers, Santa Ana, California. 264 | 57-KEY GAVIOLI FAIRGROUND ORGAN CA. 1896

This 57-key Gavioli fairground organ was built in Paris, France circa 1896 and imported to America around 1969. Bill Nunn bought it from Steve Lanick, a skilled woodworker who has built and restored other organs. The organ was fully disassembled — down to the keys — packed in several boxes with no logical order, with parts of the organ missing and even including parts from other organs. Bill described it: "It was like several jigsaw puzzles all mixed together." Bill stated that restoring this organ was a big learning experience for him. He went to England to consult Russell Wattam and Andrew Pilmer, who joined in the restoration effort. Russell made the missing pipes and the glockenspiel in the Gavioli style, and they both came to Skyrock Farm to install the last parts and tune the organ. The organ originally came with many old books as well as about 40 meters of partial books (some original 1904 Gavioli, and some Gaudin and Gasparini arranged for 57 keys). These were salvaged for recutting with Andrew Pilmer filling in the missing sections. The organ is currently in good playing condition and comes with 35 books total — 15 really old and 20 by Tom Meijer and Andrew Pilmer. It features the following instruments on 196 pipes: violin,

flute, saxophone, piccolo, clarinet, cello, viola, and trombone, and the following percussion instruments: bass drum, cymbal, snare drum, and glockenspiel.

The organ facade is currently in excellent visual condition, showing only minor natural wear and a few small to medium cracks in the wood. It features beautiful oil paintwork, gold and silver leaf decoration, metallic golden Gavioli medallions, and three solid wood organ figures — with the central figure featuring an articulating arm. A custom-built wooden platform is included with the organ; it measures 20 x 330 x 130 cm.

270 | 1905 89-KEY GAVIOLI G4 FAIRGROUND ORGAN

The 1905, Black Forest, Waldkirch 89-key Gavioli G4 fairground organ was a project 9,5 years in the making, with the chassis restoration done in Belgium by the Verbeeck family while the massive facade was restored in-house with beautiful wood carving, oil painting, and gold & silver leaf decoration. In total over \$270,000 was spent on restoration, the facade, and the 437 books of Gavioli music included with the organ. When the instrument played once again in August 2016, actor Dustin Hoffman witnessed the grand occasion - his granddaughter was taking riding lessons at Skyrock Farm at the time. The Gavioli played wonderfully and was a delight to hear, although the automatic stop has required close attention as books come to an end. The instrument is currently in a very good playing condition and features the following instrument pipes - bass, trombone, violin, clarinet, piccolo, saxophone and the following

percussion instruments - xylophone, snare drum, bass drum. In excellent visual condition only showing a few small natural hairline cracks in the wooden facade. ATTENTION: The two organ figures on the sides and the large organ figure in front of the facade are not included as part of this lot, they are sold as separate lots. 273 | ONE-OF-A-KIND 1905 MAHAUDEN 80-KEY DANCE ORGAN

One-of-a-kind 1905 Mahauden 80-key dance organ, the only one known to us to exist. Built by Adolphus Gislenus Mahauden from Grammont, Belgium in 1905 starting with a Gavioli 87-key barrel organ serial no. #8055. Adolphus added other pipes, mostly by Mortier, and also by adding a glockenspiel, woodblock, and five chimes, he fashioned a dance organ using 12 registers. Adolphus Mahauden specialized in modifying other manufacturer's instruments, reconfiguring them to his own scale, adding bells, and register changes. Imported to the U.S. by G. W. MacKinnon, the organ was sold as a Ruth because at that time information about the organ builder Adolphus Mahauden was not known. The organ was first restored by Louie Svierveld in California in 1975, when Bill Nunn bought the organ it was playing but required further restoration. Dick Lokemoen began chassis restoration in 2007 and the facade was restored by Stacy Nunn. The organ facade is currently in a very good visual condition showing some natural smaller and larger cracks in the wood, and some spots of a little paint loss, it features

beautiful wood carving, oil painting, and gold & silver leaf decoration. The organ is in a very good playing condition, comes with 56 books of music, has a great Gavioli and early Mortier sound and features the following instrument pipes - bass, trombone, violin, baxophone, trumpet, bourdon, clarinet, cello, saxophone, flute harmonique, and the following percussion instruments - chimes, glockenspiel, snare drum, bass drum, woodblock, cymbals. Some parts of the description taken from the Tracy M. Tolzmann article - "Bill Nunn's Collection Farewell" in Carousel Organ, Issue No. 103-July, 2025.

274 | 1914 HOOGHUYS 77-KEY DANCE ORGAN "THE SUNFLOWER"

Louis Hooghuys built this dance organ in 1914 on a special order from Theophiel Versyp (from Bruges) for use in his restaurant. After Louis died in 1924 the organ was bought by his son, Charles Hooghuys, modified with an updated scale for use in a cafe Charles had bought. The organ was sold again in 1931, with all-new music, for use on a fairground. Wallace McPeak imported the organ to America and it was subsequently bought by Ron Bennet from Plano, Texas. Bill Nunn wanted to expand his collection with an European organ that played book music and was referred to Ron who at that point had this organ in his possession for 40 years. Realizing that he would never restore it, he finally sold the organ to Bill. When Bill got the organ it was partially dismantled and in very poor condition, even the keys were worn out. The entire organ needed to be thoroughly restored.

Currently, the organ facade is in very good visual condition showing some natural wear: small to medium cracks in the wood,

hairline cracks in the oil paint, and some small spots of paint loss. Hooghuys organs are known for their unique sound and also the fast action of the key frame and valves.

The organ is currently in very good playing condition working on 110V power, comes with 136 music books and features the following instrument pipes - bass, trombone, saxophone, violin, Tibia, Vox Humana, accordion reeds, flute harmonique, oboe and the following percussion instruments - xylophone, snare drum, bass drum, woodblock and cymbals. The sound can be further modified with the organ swells and tremulant. Serial no.: LH620.

Condition: Very Good

Location: Medina, Minnesota, USA

Estimates: EUR 70.000 - EUR 100.000

275 | 1910 MARENGHI 81-KEY
DANCE ORGAN "BECKY"

Built in 1910 by the Charles Marengi firm in Paris, this organ was exported to Belgium for use in Mr. Jan de Ploe's restaurant in Antwerp where it spent all its commercial life, even undergoing restoration on site. As musical tastes changed, the organ was slightly modified - the glockenspiel was removed, swell shades and vox Celeste pipes were added and the vox Humana was replaced with jazz flutes. The organ was imported to America in 1967. First it came to Texas where it played in a small amusement park owned by Duke Parrish, next it played at Tom Fretty's museum in Iowa, after that it was displayed in Greg Filardo's beautiful mansion in Milwaukee, before finally being acquired by Bill Nunn. Bill used a microscope when restoring the facade which allowed him to find and carefully replicate the original colors and gilding patterns hidden beneath the many layers of paint. All six of the original oil portraits of famous composers - Wagner, Liszt, Mozart, Beethoven, Benoit and Blockx, that were specifically painted just for this organ in Paris, as well as the other oil paintings and lettering were meticulously restored.

The organ facade is currently in excellent visual condition showing only minor natural wear: small cracks in the wood, hairline cracks in the oil paint, and a few tiny spots of paint loss. Dick Lokemoen mechanically restored the organ in 2007. Currently the Marengi is in very good playing condition, comes with 243 music books and features the following instrument pipes - bass, trombone, violin, piccolo, Voix Celeste, Unda Maris, saxophone, Vox Humana, and the following percussion instruments - bells, xylophone, snare drum, bass drum, woodblock, gong and triangle. 276 | WILHELM BRUDER SOHNE 62-KEYLESS FAIRGROUND ORGAN CA. 1928

Wilhelm Bruder Sohne 62-keyless fairground organ built in the Black Forest of Germany ca. 1928. The organ was originally used in Czechoslovakia until 2004, when it was purchased by Rosanna and the late Bill Harris, who had it restored in England. Bill Nunn acquired this organ in March of 2023 - this was the last instrument to join his collection, and as far as we know, the only such instrument in the U.S.

The organ facade is currently in excellent visual condition, showing almost no wear. It features beautiful decor done by Vicky Postlethwaite, oil painted artwork, gold and silver leaf decoration, and three solid wood organ figures - with the side angel figures featuring articulating arms that strike bells. The angel figures show some cracks in the paint and a little paint loss. A custom-built platform with six rotating wheels is included with the organ; it measures 29 x 267 x 153 cm.

The organ is currently in very good playing condition. It comes with 10 recut music books and 3 wooden crates with old original music books. It features the following instrument pipes - bass, trombone, violin, trumpets, and a mixture of other pipes - and the following percussion instruments - snare drum, bass drum, and bells struck by the angel figures.

BARTON #275 THEATER ORGAN 3 MANUAL 13 RANKS

The Barton 3 Manual 13 Rank theater organ was manufactured by Bartola Musical Instrument Company in 1929 at the cost of whopping 25.000 USD, which adjusted for inflation would total over 471.000 USD today. It was ordered for the Orpheum Theater in Green Bay Wisconsin, for the opening night on 19th September of 1930. At the time this was regarded as the most beautiful organ in the state of Wisconsin.

The Barton organ was a project started by Bill Nunn in 2014 and ongoing ever since. With a computer interface which allows live performances to be repeated at will, the organ is certainly the collection's largest automatic instrument!

The organ console has been repainted in gold paint, the red paint has been done in a distressed style with artificial cracks, the ornaments have been cast in plaster and painted in gold.

The organ is in very good playing condition. The dimensions of the console are 195 x 170 x 195 cm. The dimensions for each of the two chambers currently in use for this organ are: 287 x 343 x 505 cm height.

KEYLESS WURLITZER MILITARY BAND ORGAN STYLE 125

This Wurlitzer Military Band Organ Style 125 was the first organ Bill Nunn bought (along with a Wellershaus organ in pieces), and the start of his collection back in 1998. Bill believed that this is either a DeKleist organ or a North Tonawanda organ converted to play Wurlitzer rolls. It has the Wurlitzer 4-in-1 pot metal valves and plays Wurlitzer Style 125 music. The quarter-sawn oak case contrasts nicely with the brass trumpets, which made this a very popular organ for carnivals and roller rinks. The organ case is in good visual condition, but the lower bottom veneer has been damaged and comes loose. It features Wurlitzer and Allan Herschell Co. vinyl decals, a plastic or resin gold leaf covered eagle decoration, and is mounted on 4 rotating wheels.

Currently, the organ has been tuned and is in excellent playing condition. It comes with 11 music rolls. Powered by 110V.

A wonderful organ from pre-revolutionary Russia. Famous maker (И.Нечада factory, Odessa), excellent instrument of incredible quality. This was the only factory in the Russian Empire where "sharmanki" were made. Despite the high cost, namely 900 gold rubles, this instrument was in great demand. Body made of wood in dark and light tones, on a plinth, with small legs, with two leather straps, ornamental and other decorative elements, intarsia, floral motifs. On the facade there is a decorative semi-volumetric image of an organ with tubular elements (presumably a horn) in an arch. On the sides of the arch is an image of two dancers (painting). On the back wall there is a panel (light wood): a fragment of a Caucasian village. Under the cover of the instrument there is a wooden program shaft with pins and brackets for 26 tone tracks, 8 melodic programs. Program change - manually, by moving the shaft along the axis. The organ features three registers of flute wooden labial pipes (low, medium and high). The drive is manual, from the handle. On the shaft - dance and song Georgian melodies.

352 | ORIGINAL 1923 DUTCH P.J. WALON SWING OR TRADITIONAL CAROUSEL

Original P.J. Walon swing carousel, built in Leeuwarden, the Netherlands, first constructed in 1921 and completed in 1923, offered without carousel figures or attributes. This versatile piece can be used as a traditional carousel with a floor - onto which carousel figures can be mounted - or as a swing carousel, complete with 16 wood-and-metal swing seats suspended by metal chains. The floor and twisted copper rods are included in the lot. Last used at a fair in the 1960s, the carousel was later refurbished and placed in storage, still retaining its original P.J. Walon artwork.

In our opinion, the carousel is complete. It features a roof diameter of 10 meters and an overall height of approximately 6 meters. A canvas roof tarpaulin, showing little use and in good visual condition, is also included. Lighting installation is still pending: holes are already present in the light frames, and slip rings are installed on the wooden mast - only the cables and fittings remain to be added. The floor should be repainted, and the chains holding the frames replaced due to age. This is a truly unique Dutch carousel, of which very few remain.

The video provided includes a few seconds of vintage archive footage of the carousel in operation at a fair. The trailer where the disassembled carousel is currently stored is available for purchase at an additional cost; please contact us for details. Additional photos from the last build-up process are available upon request. This lot is located at an external location in the Netherlands, viewing by appointment.

Size (H x W x D): 600 x 1000 x 1000 cm

Condition: Very Good

Location: The Netherlands

Estimates: EUR 60.000 - EUR 100.000

Autopede

354
**1949 AUTOPEDE AIRPLANE TYPE 3
 CAROUSEL VEHICLE**

1949 Autopede Airplane Type 3 carousel vehicle was a significant improvement over the previous version. At the beginning of production, the aircraft did not have a windshield, and the steering wheels were mounted on top of the engine cowl. With the addition of the window, the steering wheels subsequently had to be mounted from below. The propeller had now become three-bladed. This aircraft was a huge commercial success for Autopede.

This Autopede Airplane is missing the windshield, the seats and the steering wheels, but steering wheel bases are present. Good overall visual condition, showing wear, paint loss and some rust.

1959 AUTOPEDE BUICK ELECTRA 225 CAROUSEL CAR IN TWO TONE YELLOW

In 1959 Buick (GM) presented their latest creation: the Buick Electra 225. The car still had clear elements of the 1950s, especially the rear wings. As expected, Karel Baeyens, with his love of American cars, recreated this vehicle in a 1:3 scale ratio as a carousel car. He simplified the design considerably, as usual, but the trick is precisely that: to maintain the resemblance to the full-size model, and there he succeeded remarkably well. He used the same windowpane as on the Autopede Futura and secretly made the rear wings slightly larger in proportion. The Autopede Buick was built from 1959 to 1970. This Autopede Electra is missing one front light and half of a decorative side grill on one side. Good visual condition, showing wear. Approximately 175 units of this model were produced in total. 1963 AUTOPEDE UFO CAROUSEL RIDE

This model is often called a spinning top, but is presented by Autoped as a UFO. The ride can spin independently on the floor of the ride by turning the wheel in the middle. For this reason alone, it's very popular with children, but it's not uncommon for them to get sick because of it. Originally it came with a decorative shell with an antenna in the middle of, but it caused quite a few accidents and most operators removed this feature, leaving only the steering wheel. The UFO is in overall good visual condition, but the seats need new upholstery and the ride show wear. 50-75 units of this model were produced in total.

1970 Autoped Volvo carousel vehicle. One of the most underrated models in the Autoped collection, the Volvo is a unique design and not based on any existing Volvo car designs, the name came about when a fairground operator asked for the Volvo when coming to order this unnamed carousel attribute. It features beautiful details that have been given a lot of care, such as the 4 steering wheels, the spoiler with 3 supports, an enormous amount of cooling fins over the entire car and the many lights at the front and rear. VERY RARE 1980 AUTOPEDE TRUCK IN TOW TRUCK VARIANT CAROUSEL VEHICLE

This truck successfully marked a "new impetus". More angular, more robust, more solid, and more realistic. This truck, with dual rear wheels, is a fantasy design and not based on an existing truck. The truck could also be delivered as a recovery/towing truck. This was achieved by simply installing a lifting device on the truck body, with the understanding that there was less space for steering wheels at the rear, reducing them from 6 to 4. Other than that, the chassis remained unchanged.

The truck is in very good visual condition, showing only minimal wear.

Only 8-12 units of this model were produced in total.

Size (H x W x D): 140 x 196 x 95 cm.

RARE 1998 AUTOPEDE HONDA GOLDWING TWO-SEATER CAROUSEL MOTORCYCLE

1998 Autoped Honda Goldwing Two-Seater carousel motorcycle. It became a major project, compared to the simpler scooters/mopeds of the late 1940s. The result is remarkably realistic. A complex motorbike, richly equipped with well-thought-out details. Released in 1997 as a single seat version, of course, a two-seater version was also made in 1998. The center section was lengthened slightly to create space for the step and seat for the passenger. Otherwise, the model underwent a few other changes and was referred to as the "improved version."

This Autoped Goldwing is in very good visual condition, showing only minor wear. Approximately only 25 units of this model were produced in total. Size (H x W x D): 100 x 178 x 50 cm. Condition: Very Good Location: The Netherlands, Tilburg
