

MAINTENANCE & RELIABILITY ENGINEERING IBL® RMIC® - (1 YEAR PROGRAM)

Develop your own Maintenance and Reliability Engineers with our program. They will graduate with solid understanding and implementation skills, resulting in an average ROI of 30:1. This solution helps you train employees who are well-equipped to excel in your specific environment. Invest in your facility's success with us. Eruditio®'s learning path approach follows three repeatable steps in order to deliver consistent results: **Understanding, Demonstration, and Application**

INSPIRED BLENDED LEARNING IBL® PROCESS

PUPROSE

This learning experience is highly interactive, with a large portion of time allocated to interactive exercises and activities. Participants will be involved in the development of equipment criticality, completing Reliability Centered Maintenance analysis and Root Cause Analysis, just to name a few. At the end of the curriculum the participants will be tasked with presenting all of the work that they have done throughout the curriculum in the form of a case study.

WHAT MAKES US DIFFERENT?

APPROACH

Our three step, customizable, interactive blended learning approach ensures high knowledge transfer and skill development.

EXPERIENCE

Our leadership team designed, marketed, and implemented the first blended learning program within the maintenance and reliability engineering community.

TOOLS

Our Learning Management System enables real-time tracking and measurement solutions and 24/7/365 availability that fits any learner's schedule.

RESULTS

Our corporate clients consistently see a 95% graduation rate, much higher than the best college programs. The iBL® program also offers an immediate return on investment. To date, iBL® programs have identified more than \$50 million in contribution margin gains.

CERTIFICATION

Five of our programs award participants with the coveted University of Tennessee Reliability & Maintainability Implementation Certification (RMIC®) credential.
