Appendix H: Templates for Labeling Secondary Containers of Disinfectants and Sanitizers

Blank Label Templates for:  
Use on Secondary (Workplace) Containers with Antimicrobial Products

The following two versions of label templates can be copied and pasted onto label paper for use. Laminated labels can be reused by marking dates and solution concentrations with a grease marker. Each label template is provided in color and in black and white for printing purposes.

1. **FIFRA** - Includes only information required by FIFRA, and a space to note the solution’s concentration and date diluted to help track disposal requirements.

<table>
<thead>
<tr>
<th>Product Name:</th>
<th>EPA Registration #:</th>
<th>Date Diluted:</th>
<th>% of active ingredient:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td>Disinfectant, Sanitizer</td>
</tr>
</tbody>
</table>

**Concentration of Solution - note units of measure:**

- PPM, ratio to, volume (TSP, TBSP, Cup) to (Cup, Quart, Gallon)

**Signal Word from the Pesticide Label – Check only one:**

- DANGER
- WARNING
- CAUTION

**Follow the directions for use on the pesticide label when applying this product.**
The product in this container is diluted as directed on the pesticide product label.

**Hazard Statements – Check all that apply**

- Explosive - Pressurized, In Absence Of Air, Projection
- Fire - Extremely or Highly Flam, Aerosol, Spontaneous Ignition, In Contact with Water, Flammable Solid, Flammable Vapor
- Toxic, Fatal, Harmful - If Swallowed, Inhaled, Skin
- Irritant, Damage - Allergic/Asthma - Skin, Respiratory, Eye
- Corrosive - Metals, Skin (burns), Eyes (burns)
- May Cause, or Causes - Cancer, Genetic Defects, Infertility

**Precautionary Statements – if unsure, get medical attention**

- If Swallowed - Do Not Vomit, Induce Vomiting, Rinse Mouth, Poison Control, Medical Attention
- If In Eyes - Remove or Do Not Remove Contacts, Rinse for Several Minutes, or 15 - 20 Minutes
- If Inhaled, or Respiratory Symptoms - Call Poison Control, Get Medical Attention, Remove - Fresh Air

**Concentration of Solution - note units of measure:**

- PPM, ratio to, volume (TSP, TBSP, Cup) to (Cup, Quart, Gallon)

**Follow the directions for use on the pesticide label when applying this product.**
The product in this container is diluted as directed on the pesticide product label.

**Hazard Statements – Check off all that apply**

- Explosive - Pressurized, In Absence Of Air, Projection
- Fire - Extremely or Highly Flam, Aerosol, Spontaneous Ignition, In Contact with Water, Flammable Solid, Flammable Vapor
- Toxic or Fatal or Harmful - Swallowed, Inhaled, Skin
- Irritant or Damage or Allergic/Asthma - Skin, Respiratory, Eye
- Corrosive - Metals, Skin (burns), Eyes (burns)
- May Cause or Causes - Cancer, Genetic Defects, Infertility
- May Damage or Damages - Unborn Child, Organs
- May Cause - Drowsiness, Dizziness, Nausea

**Precautionary Statements – if unsure, get medical attention**

- If Swallowed - Do Not Vomit, Induce Vomiting, Rinse Mouth, Poison Control, Medical Attention
- If In Eyes - Remove or Do Not Remove Contacts, Rinse for Several Minutes, or 15 - 20 Minutes
- If Inhaled, or Respiratory Symptoms - Call Poison Control, Get Medical Attention, Remove - Fresh Air
- If on Skin or Clothes - Remove Clothes, Wash Hands with Soap and Water, Seek Medical Care
- Keep away: Heat, Water, Air, Ignition, Flame

Appendix H: Templates for Labeling Secondary Containers of Disinfectants and Sanitizers
2. **FIFRA, Hazard Communication and NFPA/HMIS** - Includes the required FIFRA Pesticide Label information and “At a Glance” hazard information that is not required to be on the label, including GHS Pictograms from the OSHA Hazard Communication Standard (allowed by FIFRA), and the NFPA and HMIS Rating Systems.

FIFRA's guidelines are unclear about whether HMIS ratings are allowed on labels, but if the information does not conflict with FIFRA's, it can be useful to include it.
