

Fractional Staffing Business – 36% Revenue CAGR 2022-2025

This virtual, on-demand, 100% remote, fractional staffing business has established itself as the leading resource within its niche market. Supported by a proprietary certification program for its virtual assistants.

Revenue has grown at 36% CAGR from 2022 to 2025 (projected).

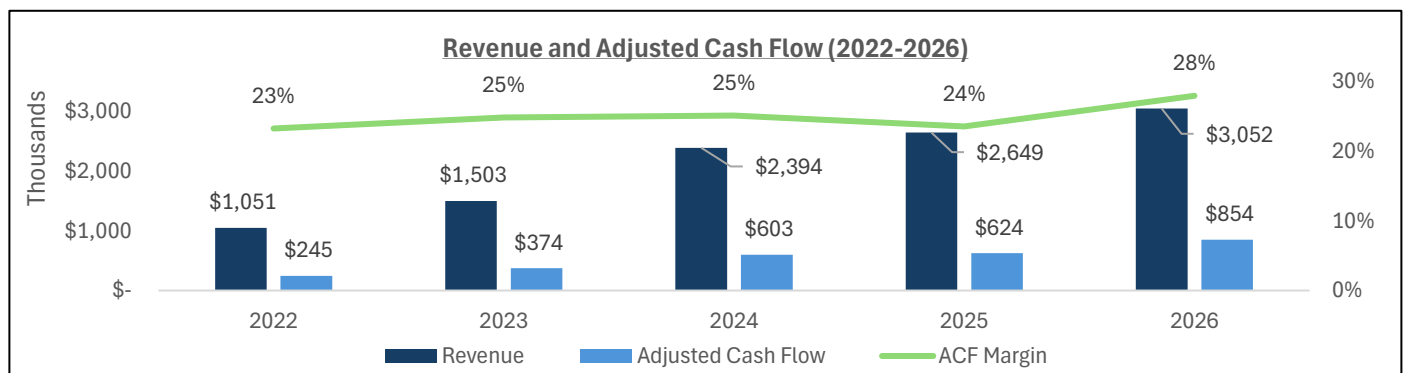

The business leverages a scalable, subscription-based model and minimal overhead requirements.

Investment Highlights:

- Attractive margins supported by a lean operating model with limited overhead requirements
- Over 300 clients, reducing concentration risk and supporting revenue stability
- Proprietary training and certification program for the company's virtual assistants
- All client-facing fractional staff are located in the U.S.
- Recognized as the go-to partner within its niche, strong brand reputation together with loyal client relationships
- High performing management team allows the business to operate independently of ownership

Key Statistics:

- Established: 1999
- Market: Nationwide
- Sale price: \$3,100,000
