Babysitting Policy

Some staff within the setting are available to babysit in their own time, typically charging from £10 upwards an hour.

Please be mindful when booking babysitting that it does not interfere with the staff working hours so they have enough time to travel to you after they finish work.

Staff who babysit do so in their own time and therefore on a private basis, the nursery is not responsible for any arrangements/cancellations made and cannot take any responsibility.

Due to confidentiality staff cannot discuss any issues regarding the nursery, other staff members or other children and should not to do so whilst babysitting.

The nursery has a duty of care to safeguard all children and staff attending the setting, for this reason if a staff member has any concerns for a child following a babysitting arrangement, they have a duty to pass the concerns on to the nursery.

To arrange any babysitting please speak to your child's key person, who will be able to advise you further.
