- Salary committee does have positions they are still reviewing and will give recommendations to the board later. To avoid this in future years, they will be putting together a guide and timeline for department heads. They had a problem this year with several waiting until a week before the budget workshop and even some during the workshop asking for a position to be reviewed.
- Most personnel looking at 3% raise (COLA for 2027), the auditor will run the numbers and see how we fall regarding the levy spreadsheet. See if the budget will be funded.
