## *President's Message*

From everyone on the Board of Directors at NCUS, I would like to wish you a happy and peaceful holiday season. We are so grateful for the opportunity to partner with you, our membership, volunteers, and industry partners to fulfill our mission of providing education and career advancement opportunities to those in the field of diagnostic ultrasound.

We need your feedback and support more than ever! Your feedback helped us produce the most successful Fall Virtual Symposium we have ever had. We offered a variety of registration options and added an additional virtual room to meet your requests. We have started an [online library of lectures](#) from our fall symposiums! They are currently available on our website to our members. Check them out!

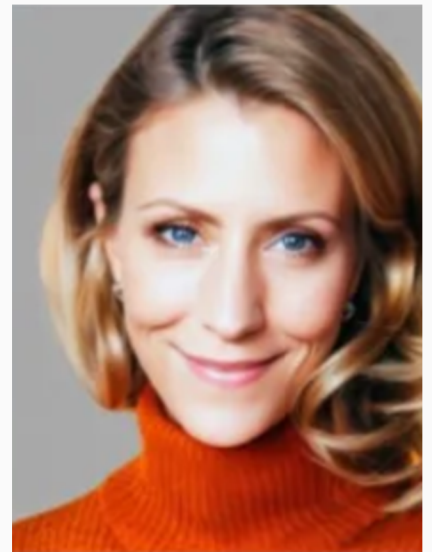

**Mark your calendars for the 2025 NCUS Spring Symposium! We will be at the Embassy Suites at Myrtle Beach March 20th- 23rd. Here is a preview of some of the offerings:**

- **Students-** We have set aside a special room block just for you! We will be sharing this information with your instructors. In addition, student rates are discounted, and we are offering a physics registry review on Friday, March 21st with Dr. Kremkau.
- **Members-** We will have four breakout rooms with hands on learning, more OB offerings and special guest speakers. You will want to book your room fast, as the room blocks will fill up!
- **Industry Partners-** In addition to having a booth, this year there will be speaking and corporate sponsorship opportunities! These slots are limited and will be offered to the first to register, so be on the lookout for the invitation to register!

Last, you should have received our new [membership survey](#) that went out Monday, December 2nd to the email address we have on file. This survey is designed to assist us in staying sensitive to your needs and help us better serve you! Please take a few minutes to respond.

Would you like to serve on a committee, speak at a conference, or get more involved in NCUS by way of micro-volunteer opportunities? We need you! Email us at [centraloffice@ncus.org](mailto:centraloffice@ncus.org).

Warm wishes,  
Cody Frye

## Spring Symposium 2025

Join us, March 20th-23rd 2025 at the Embassy Suites by Hilton Myrtle Beach Oceanfront Resort! We are excited to announce that our spring symposium is not only in person but will double as your luxury getaway. Take advantage of the onsite spa, 7 outdoor swimming pools, a complimentary water park, and more! This beachfront property is sure to be the setting for our best symposium yet. With hands on learning, expert guest speakers, complimentary Wi-fi, multiple restaurants and more in store for you, we are honored to extend this invitation.

This spring, we look forward to offering a diverse and innovative educational opportunity. We are excited to offer Ultrasound Physics and a Registry Review lecture as well as modality and pathology specific content! This, along with exciting networking opportunities and our traditional Quiz Bowl competition, will surely make this trip memorable.
