

# F-70™ Flowable

IMPROVES NUTRIENT UPTAKE

## Guaranteed Analysis (1-3-3)

Total Nitrogen (N) .....	1%
1% .....	Ammoniacal Nitrogen
Available Phosphate (P <sub>2</sub> O <sub>5</sub> ) .....	3%
Soluble Potash (K <sub>2</sub> O) .....	3%
Sulfur (S) .....	2%
2% .....	Combined Sulfur

Derived from anhydrous ammonia, phosphoric acid and potassium sulfate

## General Information

**F-70™ Flowable** is fulvic acid product that is highly plant active and will help in complexing and chelating of metal ions and enhance soil microbial activity.

## Product Usage

Water Penetration	Apply 0.125-0.5 gals./acre as a soil application every 1 to 4 weeks.
Soil Health	Apply 0.125-0.5 gals./acre as a soil application every 1 to 4 weeks.
Root Growth	Apply 0.125-0.5 gals./acre as a soil application every 1 to 4 weeks.
Nitrogen Efficiency	Apply 0.125-0.5 gals./acre as a soil application every 1 to 4 weeks.

# F-70™ Flowable

IMPROVES NUTRIENT UPTAKE

## F-70™ Flowable Handling Guidelines

### PREMIXING

- Premixing is considered a best practice when sprayer agitation is not optimum. Proper hydration is essential for all applications. Recirculate or agitate while adding material.

### COMPATIBILITY

- Always jar test first.
- Redox products are compatible with other Redox products when following product handling guidelines.
- Use caution with reactive materials, such as phosphorus and calcium.
- Avoid extreme shifts in tank pH. When utilizing Redox materials that acidify, check tank pH prior to adding buffers.

### TANK MIXING

- Use of an anti-foaming agent is recommended. Fill the tank 50% full with water and initiate tank agitation prior to adding materials.
- Don't add material too quickly—this allows for more thorough hydration.
- The use of inductor assemblies is encouraged.
- Recirculate or agitate while adding material.
- Total foliar spray content of dry soluble Redox product should not exceed 2% solution (by weight).
- If material is not applied immediately, tank recirculation is required prior to application to ensure uniform product distribution.

*REFER TO PRODUCT HANDLING GUIDELINES FOR ADDITIONAL MIXING INSTRUCTIONS.*
