FOLIAR-K[®]

Highest quality foliar potassium with StressTek  **STRESSTEK**

We've made a great product even better. Now, Foliar-K[®] has StressTek technology added to help mitigate stress during the season.

- Lower salt level for less crop injury
- Increases drought tolerance by providing the plant with proper potassium levels
- Helps protein synthesis by increasing the plants ability to convert nitrogen to protein

Guaranteed Analysis

Nitrogen (N)0%
Phosphorus (P)0%
Potassium (K₂O)24%

Derived from: Potassium Acetate

Application Rate:

Foliar: 0.5 - 2 gal. per acre

Note: For proper application rates suitable for your soil type, consult with a trained representative at Concept AgriTek
