# Stilo Group Services

At Stilo Group Services, we **embed experienced Project and Programme Managers** directly into your business, giving you immediate access to capability, leadership, and delivery, without the delays and overhead of traditional recruitment models.

Forget hiring individual contractors. With Stilo, you get a **fully supported delivery function**, backed by our growing network of **industry specialists**.

# Why embed with Stilo?

## A FULL TEAM BEHIND EVERY DEDICATED TEAM MEMBER

When you bring in one of our professionals, you're not just getting an individual, you're getting the strength of our entire expert network across:

- Project & Programme Delivery
- Business Transformation
- Operational Improvement
- Risk & Governance
- Change Management

[www.stilogroupservices.com](http://www.stilogroupservices.com)

# Faster impact, less disruption

- Integrate seamlessly into your teams, culture, and systems
- Align quickly with your strategic objectives
- Take ownership of delivery and drive momentum
- Maintain pace and performance across the full project lifecycle

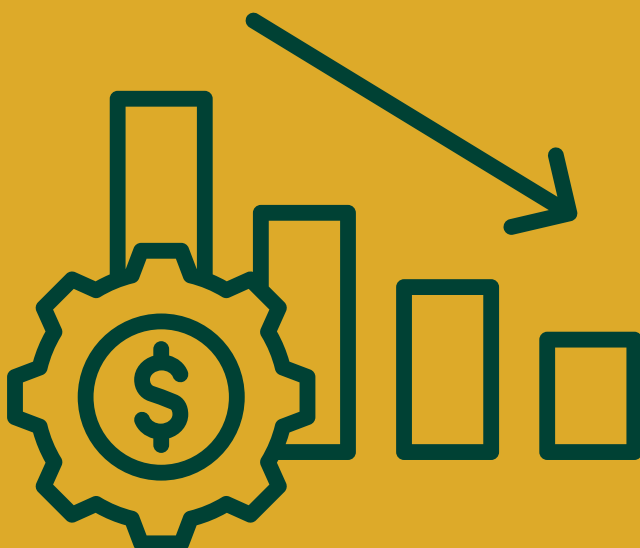

---

## Significant cost savings

**Avoid the high costs of:**

- Recruitment fees
- Long onboarding cycles
- Permanent headcount commitments
- With Stilo, you get senior capability only when you need it.

# Flexible, scalable support

Scale up or down depending on your project pipeline, without being locked into long-term employment costs.

## More Than Delivery. Direct Industry Access.

We're not just connected to the industry, we're plugged into it.

Through direct manufacturer partnerships, our teams are trained on the latest technology, giving you access to up-to-date expertise that keeps your projects ahead.

# THE STILO DIFFERENCE

OUR EMBEDDED TEAMS ARE **BACKED BY EXPERIENCED INDUSTRY EXPERTS**, AND EVEN THE MANUFACTURERS WE PARTNER WITH DIRECTLY AS A BUSINESS, ENSURING YOUR PROJECTS DON'T JUST RUN, BUT CONSISTENTLY **DELIVER RESULTS**.

We go **beyond** simply **supplying resource**.

Every Stilo engagement is supported by a wider ecosystem of **knowledge, technical insight**, and real-world **expertise**, bringing structure, pace, and accountability to your most critical initiatives.

## THAT MEANS:

- Stronger decision making, informed by both industry and manufacturer insight
- Faster problem-solving, with direct access to specialists and partners
- Greater accountability, with delivery that is actively supported, not isolated
- Consistent performance, maintained across the full project lifecycle

Unlike traditional recruitment models, where individuals are left to operate alone, Stilo professionals are continuously backed, challenged, and strengthened, ensuring they remain aligned, effective, and focused on outcomes.

**THE RESULT? MORE CONTROL. LESS RISK. BETTER DELIVERY.**

# A SMARTER, MORE COST-EFFECTIVE MODEL

With Stilo, you can **reduce your current resourcing costs** by up to **20%**, while gaining a stronger, fully supported delivery model.

## HOW WE REDUCE YOUR COSTS

### Lower overheads

No recruitment fees, no long onboarding cycles, and no unnecessary headcount.

Our model removes the hidden costs that come with traditional hiring and consultancy structures.

### Better paid, better performing teams

We invest in our people, meaning you get highly motivated, high-performing professionals who deliver more value from day one.

Better people = better outcomes, with less waste and rework.

### Knowledge that goes further

Our teams bring more than individual experience.

They are backed by a wider network of experts and direct manufacturer insight, giving you access to deeper knowledge than a standalone hire ever could.

### Smarter delivery, less waste

With the right expertise in place from the start, projects run more efficiently, reducing delays, avoiding costly mistakes, and improving overall performance.

**BECAUSE YOUR REPUTATION DESERVES THE BEST.**
