

VALPOLYMER

Polyurethane's Elastomers Moulding

Val Mixer 02

Application for the Val Mixer 02 using non abrasive polyureas, epoxies, urethanes and 2K materials include:

- Joint Filling
- Concrete Restoration
- Small Joint Sealing
- Small Spall Repair
- Anchoring
- Spray

Features and Benefits

- Portable, Reliable, Rugged Design
- Easy to Operate & Maintain
- Stainless Steel Construction
- Tanks 30 Lt + 30Lt
- 0.37 Drive Motor
- Automatic or Manual Dispense Valve
- Electric Powered 220 V.
- Pumps Non-Abrasive Materials
- Fixed Ratios of 1 : 1 to 4 : 1
- Continuous Flow Up to 4 Lt/Min
- Fluid Pressures 20 Bar
- Viscosities Up to 5,000 CPS
- Changeable Ratios/Pumps
- Variable Flow Rate

- Variable Flow Rate
- Changeable Ratios/Pumps
- Viscosities up to 5,000 CPS
- Fluid Pressures 20 Bar
