WINTERIZE YOUR HOME CHECKLIST

PLUMBING PREP

☐

DISCONNECT & DRAIN GARDEN HOSES

Install frost covers on hose bibs.

☐

SHUT OFF & DRAIN IRRIGATION LINES

To prevent underground breaks. Call Irrigation Company.

☐

CHECK AGE OF WATER HEATER

Look for rust, damage or leaks; flush sediment if recommended.

☐

TEST SUMP PUMP IF APPLICABLE

Install high level alarm to alert you of rising water.

☐

LOCATE & LABEL WATER MAIN SHUTOFF

Teach the family how to use it in case of emergency.

☐

INSULATE EXPOSED PIPES

In crawl spaces, garages and unheated areas.

☐

CHECK FOR LEAKS & MOISTURE

Around toilets, faucets, dishwasher, water heater, laundry room

☐

INSTALL LEAK SENSORS IN RISK AREAS

helping you prevent costly water damage, mold, and insurance claims.

☐

SEWER & PERIMETER DRAIN INSPECTION

Ensure basement and crawl-space drains are clear.

HEATING PREP

☐

SERVICE GAS FURNACE, BOILER & TANKLESS

Ensure your heating system is in top shape to avoid no-heat emergencies and stay comfy all winter.

☐

REPLACE FURNACE AIR FILTERS

For optimal efficiency and health & safety.

☐

TEST CARBON MONOXIDE / SMOKE DETECTORS

Ensure CM detectors are located near gas appliances.

☐

TEST YOUR FIREPLACE TO ENSURE OPERATION

We specialize in fireplace *repairs and gas emergencies*.
**Remember to change the batteries annually!*

SAFETY & PREPAREDNESS

☐

FIRE EXTINGUISHER ON EACH FLOOR

Be ready for small fires before they become big emergencies and check expiry dates on extinguishers.

☐

EMERGENCY KIT: FOOD, WATER, BLANKETS

Stay safe and self-sufficient during unexpected outages with enough supplies for at least 72 hours.

☐

EMERGENCY LIST: CONTACTS, UTILITY SHUT-OFFS

Keep critical numbers handy during an emergency

READY FOR THE FREEZE?

WINTERIZE YOUR HOME CHECKLIST

EXTERIOR & ROOF

CLEAN GUTTERS & DOWNSPOUTS

Prevent water damage and ice dams by keeping rainwater flowing freely.

INSPECT ROOF & SCHEDULE REPAIRS EARLY

Spotting loose shingles or leaks now avoids costly damage later.

SEAL GAPS AROUND PIPES & VENTS

Keep out drafts, moisture and PESTS before they sneak in.

TRIM BRANCHES AWAY FROM ROOF

Protect your home from falling limbs and power interruptions.

CHECK DRIVEWAY FOR CRACKS

Stock a pet-safe de-icer

WINDOWS & DOORS

CLOSE & LOCK WINDOWS

Secure your home and boost insulation before the cold sets in.

WEATHER STRIP DOORS/WINDOWS

Stop heat loss and lower energy bills with a tight seal.

COVER WINDOW WELLS

Ensure proper grading away from house.

INSULATE ATTIC HATCHES - ADD INSULATION

Trap warmth inside and improve overall efficiency.

LAUNDRY & UTILITY

CLEAN DRYER LINT TRAP & EXTERIOR VENT

Annually for fire safety + efficiency.

SECURE WASHING MACHINE HOSES

Replace bulging or 5+ year-old hoses.

1

FIRST THINGS FIRST

Tackle the **Must-Do** items first.

Then the **Good-to-Do** if time allows!

During an extreme **FREEZE** some clients let a slow trickle run from vulnerable faucets to help prevent pipes from freezing - just monitor closely to keep an eye on them and **turn them off** once it warms up to prevent water waste and flooding!

Stay
COZY
