We will do our very best to provide the services that you and/or your family have selected and deserve.

This booklet presents an itemized listing of our service and merchandise offerings. It also lists several packages which offer a simplified way of selecting complete services at a single, discounted price. Our “Peace of Mind Cremation Care” is also described in detail. The goods and services shown within this booklet are those we can provide to our families.

You may choose only those items you desire.

However, any funeral arrangements you select will include a charge for our basic services and overhead. If legal or other requirements mean you must buy any items you did not specifically ask for, we will explain the reason in writing on the statement we provide describing the funeral goods and services you selected.

This list does not include prices for certain items that you may ask us to buy for you, such as cemetery or church services, flowers, and newspaper notices. The prices for those items will be shown on your bill or the statement describing the funeral goods and services you selected and will be listed as cash advanced items.

DEATH OF AN INFANT, CHILD OR YOUTH

STEPS TO SELECTING A SERVICE

Most often we hear families say that they want to follow their loved ones' wishes. What we first must do is ask ourselves – What do I need to help me through the grieving process? We all handle death differently. Many will need to view a loved one. While others will need to have a celebration of their loved one's life. - Burial of embalmed body or cremated remains
- Cremation either immediately or following funeral ceremony

‘Peace of Mind’ Cremation Care Guarantee

Boron Funeral Home’s ‘Peace of Mind’ Cremation Care begins as one of our Licensed Funeral Directors assumes custody of your loved one. If the death has occurred in a health care facility, all identification bands are checked, and identity is confirmed with nursing personnel. Should death occur at home or other location, the identity is confirmed with the next-of-kin, responsible family member, coroner or other authority. Unless circumstances dictate otherwise, we require a personal identification by the next-of-kin, or his or her representative. This can be done at the time we assume custody of your loved one or in the comfort of our Reflection Room at our Care Center. A non-combustible identification tag is placed on your loved one, and information is logged into our record system. This tag stays on your loved one through the cremation process and is then placed with the cremated remains in the urn or temporary container. Your loved one is transferred to our on-site climate-controlled secure Care Center for shelterization while we obtain authorizations and permits. At our Care Center the cremation casket or cremation container selected by the family is clearly labeled for identification. By Pennsylvania law, cremation cannot take place until 24 hours after death, nor before the next-of kin, attending physician, coroner or medical examiner, and registrar have all given their respective certifications or authorizations. This can sometimes take three or four days, especially over a weekend. One of our Licensed Funeral Directors reviews the cremation documents to ensure that all required authorizations and permits have been received and schedules the cremation with our Crematory. All cremations are performed in a private, interior crematory, so the deceased never leaves our care. One of our Licensed Funeral Directors or Cremation Specialists (under the direction of a Certified Cremation Operator or Licensed Funeral Director) assists in placing the cremation casket or container into the cremation chamber and begins the cremation process. If desired, immediate family members may witness the cremation casket or container enter the cremation chamber. Following cremation and processing, the cremated remains along with the identification tag are sealed in the permanent urn the family has chosen or placed in a clearly labeled temporary container. The urn is ready for committal services, if any, or it may be picked up by the family, or delivered or mailed by us as instructed.

Preparation of the Deceased

Embalming.....\$950.00

Embalming is the scientific preparation and sanitary care of the body by licensed professionals using universal precautions for the protection of public health. Except in certain special cases, embalming is not required by law. Embalming may be necessary, however, if you select certain funeral arrangements, such as a funeral with viewing. If you do not want embalming, you usually have the right to choose an arrangement that does not require you to pay for it, such as direct cremation or immediate burial. All embalming is performed by our licensed professional staff or agents, who may on occasion be assisted by licensed interns and mortuary students to the extent allowed by law. For both public health and aesthetic reasons, it is our policy to require embalming when it becomes a practical necessity. Such necessity will be determined by the specific circumstances in each individual case.
