

DEUTSCHER HEALTHCARE

ROSE² FLOORLINE BED

The Rose II series of beds allows the user to be lowered to the floor for safe sleeping, then raised to a suitable height to allow the caregiver to attend to the user's needs. The bed has electrically operated raise and lower, backrest, knee break, and Trendelenburg tilt.

Slimline towers at either end give the bed a clean, smooth and attractive appearance. The footend tower has a built in keypad to operate the bed. A separate hand control comes standard with the bed. This bed can be folded for storage, transport and installation and easily fits through any standard doorway.

The Rose II is available as a Long Single 900 x 2030mm, and King single 1070 x 2030mm mattress platform.

It is designed and manufactured using quality materials in Ballarat Australia.

ABOUT DEUTSCHER HEALTHCARE

Deutscher Healthcare is a manufacturing company based in Ballarat, Victoria and has been in continuous operation for over 120 years. In earlier years, the parent company, HF. Deutscher Pty. Ltd., specialised in farm equipment and later moved into producing a range of mowers and outdoor power equipment, some of which are still manufactured today. The company is still owned and operated by the original family.

All products are designed and manufactured to a high quality, using first grade materials to ensure the product you buy meets Australian standard requirements; is safe, reliable, and built to give trouble free service for many years to come.

For more information, speak with one of Deutscher's friendly staff about your requirements.
