

DEUTSCHER HEALTHCARE

CONCORD BED RANGE FLOORLINE "Ultralow" BED RANGE - SERIES II

Harmony between people or groups

This 'state of the art' bed meets the requirements of both client and carer for comfort, safety, and reliability.

The automatic two speed lift mechanism allows the client to be raised from floor level to the desired height with ease. High quality and smooth operation is achieved by the use of bearings on all moving parts.

The mattress base is available in both standard single and king single sizes. Large 100mm diameter dual castors are standard on all Concord beds.

These features make the Concord bed ideal for all healthcare environments.

The Concord bed is designed and manufactured in Australia from the highest quality materials. It is tested to meet Australian and international standards (ISO 60601-2-52) and is DHHS compliant.

ABOUT DEUTSCHER HEALTHCARE

Deutscher Healthcare is a manufacturing company based in Ballarat, Victoria and has been in continuous operation for over 120 years. In earlier years, the parent company, HF. Deutscher Pty. Ltd., specialised in farm equipment and later moved into producing a range of mowers and outdoor power equipment, some of which is still manufactured today. The company is still owned and operated by the original family.

All products are designed and manufactured to a high quality, using first grade materials to ensure the product you buy meets Australian standard requirements; is safe, reliable and built to give trouble free service for many years to come.

For more information, speak with one of Deutscher's friendly staff about your needs and requirements.
