ABOUT US

Bahçedecor is inspired by the Mediterranean way of living —where outdoor spaces are an extension of everyday life.

Rooted in material knowledge and craftsmanship, we approach outdoor furniture as part of a lifestyle shaped by light, nature, and time. Each piece is designed to belong naturally to its surroundings, responding to sun, air, and open spaces with balance and simplicity.

At Bahçedecor, design is guided by restraint. We work with honest materials, refined forms, and durable structures that age gracefully. Our furniture is created not to follow trends, but to accompany moments—long lunches, quiet evenings, and shared time outdoors.

Bahçedecor collections are designed for spaces where living slows down, comfort feels natural, and outdoor life becomes timeless.

MATERIALS

Our material choices are guided by performance, tactility, and longevity. Each element is selected to respond naturally to outdoor conditions while preserving its visual integrity.

IROKO

Iroko is our primary hardwood, chosen for its natural resistance to moisture, sun, and temperature variations. With its dense structure and natural oils, iroko is highly durable and resistant to rot, insects, and deformation. Its stability makes it ideal for outdoor environments such as gardens, terraces, poolside areas, and yachts —allowing furniture to age with character and consistency.

ALUMINUM

From the new season onward, we introduce aluminum-wood combinations that bring lightness and contemporary clarity to our designs.

Aluminum offers structural strength, corrosion resistance, and flexibility in form. Paired with natural wood and refined color options, it enables a balanced dialogue between modern architecture and outdoor living.

INOX (STAINLESS STEEL)

Stainless steel is used to reinforce both function and visual precision within our collections.

Its resistance to weather conditions, ease of maintenance, and long service life make it a reliable structural element. Fully recyclable, it aligns with our approach to responsible and enduring design.

COMPACT CERAMIC

Compact ceramic surfaces extend material performance beyond conventional limits.

Highly resistant to stains, moisture, and external conditions, they maintain a clean and refined appearance in outdoor use. Compared to untreated surfaces, compact ceramic ensures easier maintenance while supporting a more architectural expression.

PARTNERS

Quality emerges through collaboration.

We work with internationally recognized solution partners whose expertise complements our design and production philosophy. These collaborations allow us to deliver consistent performance, material reliability, and refined comfort across all Bahçedecor collections.
