

# MAN B&W 9L32/40

## Specifications

**Engine Model**  
MAN B&W 9L32/40

**Installation**  
MP600

**Vessel**  
MV MSC ELMA

## Installation

The client replaced their HYMF-600 Oil Conditioning System with an IOW MP600 Oil Conditioning Centrifuge. Designed for easy bolt-on, bolt-off installation, IOW Group's filters offer a hassle-free upgrade from older systems. The MP600 also includes remote monitoring as standard, providing engineers with automatic service alerts to eliminate guesswork and reduce unnecessary downtime.

## Results

- After 200 hours, the IOW MP600 removed 2.2kg (4.85 lbs) of dirt and soot from the engine's lube oil.
- After another 427 hours, the IOW MP600 captured and removed an additional 5.5kg (12.12lbs) of soot and dirt from the engine's lube oil.
