Hi Robert-

Thank you for taking my call today. It was pleasure speaking with you.

While reviewing your account noticed that your website does not have the BBB Dynamic Seal. It is one of the most important benefits we offer. The BBB Dynamic Online Seal is a great way to showcase your accreditation by linking back to your BBB Business Profile. Consumers can see the trusted BBB seal and check out your information on our site where we track clicks from the seal. The Seal can be downloaded through your business login account by following the instructions below.

To download the seal:

1. Login to your BBB Accredited Business portal: <https://www.bbb.org/chicago/login>
2. Click on the "Get Your BBB Seals" Icon
3. Click on the "BBB Dynamic Seal for Web" Icon
4. Choose your format, color, and orientation, then click SELECT
5. Email the HTML code to you or your web developer, to add to your website!

Here is a link to a helpful video tutorial to walk you through the process:

You may also want to consider adding the Submit a Review link to your website. This will allow happy customers to be directed to your website to leave a review. Below is a link with instructions on how to download the Customer Reviews seal to your website (start at the 2 min 31 second mark:)

If there are any issues or questions, don't hesitate to get in touch.

Best,

Mayra Rodriguez
