A MESSAGE FROM RICH GOLDEN, CEO

Since 1985, Golden has set the standard for comfort, innovation, and reliability in power lift recliners.

Built on a simple philosophy – build it right the first time – every design reflects a commitment to lasting performance and purposeful innovation.

From patented positioning technologies to advanced diagnostic systems, each detail is engineered to support comfort, independence, and confidence every day.

OUR VISION

To build the most innovative and comfortable products that put you and your family's lives in motion.

Golden Comfort

Golden's patented Comfort Zones work together to support your body, reduce pressure, improve circulation, and help you feel better throughout the day.

Comfort Zone™
by GOLDEN

Zone 1 - Lower body
Zone 2 - Upper body
Zone 3 - Headrest
Zone 4 - Lumbar
Zone 5 - Twilight Tilt

Comfort, At Your Command.

Every Golden power lift recliner is designed to respond to you. Our intuitive hand controls put each Comfort Zone within reach, allowing you to adjust, elevate, and fine-tune your position with ease. From subtle shifts to full-body positioning, every movement is smooth, responsive, and tailored to you.

INTUITIVE HAND CONTROLS ACROSS MODELS

COMFORT ZONES

Golden Innovation

Engineered to move with your body, not against it.

MAXI COMFORT®

Full-body positioning.

TWILIGHT
TILT TECHNOLOGY

Elevates legs above heart.

PATENTED Smart Tek inside®

Monitors system performance.

STRAIGHT LIFT

Stable assisted lift. Mid Lift on select models.

Feel the Difference of Nirvana™

Swedish Air Massage with HeatWave™ Technology

Nirvana™ delivers a full-body Swedish-style air massage through a system of precisely placed air chambers, designed to gently engage over 500 square inches of the body.

HeatWave™ Technology uses far infrared warmth to provide deep, soothing heat from shoulders to legs–helping relax muscles, ease stiffness, and support circulation.

Together, they create a restorative experience that goes beyond surface comfort, supporting how your body feels, moves, and recovers throughout the day.

Designed to:

- Relax and elongate muscles
- Reduce stiffness from prolonged sitting
- Encourage healthy circulation
- Support daily recovery and comfort

Nirvana's advanced air chambers inflate and deflate in a rhythmic sequence to deliver a soothing wave-like massage from the shoulders to the legs.

HeatWave penetrating heat warms from the lower back down through the calves.

PR519
Medium/Large
Shown in Brisa® Night Navy with optional Diffuser upgrade.*

The Rejuvenate position resulted in a **22% reduction** in pressure compared to the seated position.

PROUDLY MADE BY AMERICANS with Domestic & Imported Materials

Sitting for extended periods can place constant pressure on the lower body, often leading to discomfort. With the simple touch of a button, Twilight Technology redistributes your weight–giving your lower body the opportunity to relax, recover, and rejuvenate.

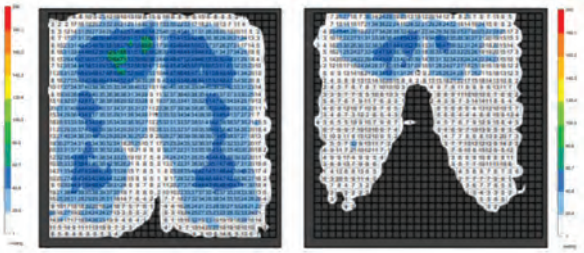

Our Patented Rejuvenate Position:

- Shifts pressure from the seat to the back
- Helps relieve pressure points caused by prolonged sitting
- Encourages circulation, allowing muscles and joints to rest and recover

Power Lift Recliners with Patented Twilight Technology in Rejuvenate Position

PRESSURE MAPPING

Seated Position *Rejuvenate Position*

Only available on chairs with Twilight Technology.

The Cloud™ Supreme

ONE CHAIR STYLE, TWO SIZES, FIVE ADJUSTABLE COMFORT ZONES

The Cloud™ Supreme is designed for lasting comfort, pairing a contoured memory foam chaise pad with an ergonomic seating system that supports the body with precision. A custom bucket seat, plush backrest, and high-density memory foam arm pillows create a deeply relaxing seating experience, while patented 5-Zone Twilight™ Tilt Technology, patented MaxiComfort® Positioning, adjustable headrest, and lumbar support allow for refined, fully personalized positioning—easily controlled through Golden's exclusive AutoDrive™ hand control. Accessory suites are thoughtfully integrated into the front arm panels for enhanced accessibility and modern functionality.

Our Luxurious Brisa® Fabric is Crafted with Takumi™ Technology

Taking its meaning from the Japanese word 'artisan', this innovative process engineers mastered performance directly into each layer - combining them into one unified system that assures enduring bond strength and longevity.

Surface Layer
Adds extreme durability with ease of care and low maintenance. Protects from stains. Liquid and moisture repellent.

Topskin Layer
Unique polycarbonate resins, engineered for maximum hydrolysis resistance. Quality pigments for lasting color vibrancy.

Microfoam Layer
Polycarbonate foam structure for added comfort. High moisture transfer provides ultimate thermal comfort for body climate regulation.

Substrate
Reinforced rayon fibers, or blends, provide dimensional stability. Superior foundation delivers high performance and upholstering ease.
