FIBROBLAST FOR MEN SKIN CARE TREATMENTS

Fibroblasts are essential connective tissue cells responsible for producing and maintaining the extracellular matrix, including collagen and other structural proteins. They play a key role in wound healing, tissue repair, and maintaining skin integrity. Fibroblasts are widely used in research and therapeutic applications related to dermatology, tissue engineering, and regenerative medicine.

BENEFITS OF FIBROBLASTS:

- Build and repair tissue by producing collagen and other key proteins.
- Support wound healing by helping close and regenerate damaged areas.
- Maintain skin strength and elasticity, important in anti-aging studies.
- Useful in research for studying diseases, tissue repair, and developing new therapies.
- Key for tissue engineering, such as making skin grafts or lab-grown tissues.

CHEMICAL PEELS FOR MEN

A chemical peel is a technique used to improve and smooth the texture of the skin. Facial skin is mostly treated, and scarring can be improved. Chemical peels are intended to remove the outermost layers of the skin. To accomplish this task, the chosen peel solution induces a controlled injury to the skin. Resulting wound healing processes begin to regenerate new tissues. The dead skin eventually peels off. The regenerated skin is usually smoother and less wrinkled than the old skin.

BENEFITS:

- **Smoothing Skin for a Clean Shave:** Reduces rough texture, making shaving easier and less irritating.
- **Reduces Ingrown Hairs & Razor Bumps:** Clears clogged pores and helps prevent shaving-related breakouts.
- **Brightens Dull, Tired-Looking Skin:** Restores a healthier, more refreshed appearance.
- **Softens Fine Lines & Wrinkles:** Minimizes early signs of aging for a more youthful look.
- **Fades Sun Damage & Uneven Skin Tone:** Improves discoloration from outdoor exposure.
- **Clears Acne & Oily Skin:** Targets breakouts and reduces excess shine.
- **Quick, Low-Downtime Treatment:** Fits into a busy lifestyle without extended recovery.
- **Customizable Strengths:** From light refresh to deep resurfacing, tailored to individual needs.

TYPES OF PEELS

TCA PEEL \$399

A TCA (trichloroacetic acid) peel is a professional skin treatment that gently removes the outer layer of damaged skin, allowing fresh, healthier skin to appear. Over a few days, the peel works to smooth texture, even skin tone, and refresh your complexion.

CAN HELP IMPROVE:

- Signs of premature aging (fine lines and wrinkles)
- Dark spots & melasma
- Post-acne marks and scarring
- Mild skin laxity (looseness)
- Uneven texture or roughness

JENSSER PEEL \$399

The Jessner's Peel is a professional exfoliating treatment made from a powerful blend of three skin-renewing acids: 28% Lactic Acid, 28% Salicylic Acid, and 14% Resorcinol. Each ingredient targets different concerns, and together they work to deeply refresh and rejuvenate your skin.

CAN HELP:

- Reduce fine lines and wrinkles
- Lighten dark spots and hyperpigmentation
- Control acne and breakouts
- Balance oily skin by slowing excess oil production

50% GLYCOLIC ACID \$399

The Glycolic Peel effectively removes dead skin cells to reveal healthier skin. It improves skin texture, boosts elasticity, and restores an even tone, with proper preparation being essential for optimal results.

THIS PEEL CAN HELP:

- Diminish fine lines and wrinkles
- Even out skin tone
- Reduce acne and breakouts
- Relieve dryness and rough texture
- Fade sun damage and dark spots
- Address melasma and pigmentation issues
- Improve actinic keratosis (sun-related rough patches)

ACNE PEEL \$199

This acne treatment features 35% Salicylic Acid to cleanse pores, prevent oil buildup, and simplify extractions. It also helps prevent ingrown hairs and does not require neutralization, ensuring a straightforward and effective process.

THIS PEEL CAN HELP:

- Improve active acne and clear congested pores
- Prevent future breakouts by reducing excess oil
- Even skin tone while lightening and brightening
- Reduce redness and inflammation
- Smooth skin for a clearer, healthier appearance

LACTIC ACID \$199

The Lactic Acid Peel is a gentle exfoliating treatment suitable for all skin types. As a natural Alpha Hydroxy Acid (AHA), it refreshes the skin without irritation, making it ideal for age management by smoothing, brightening, and rejuvenating the complexion.

THIS PEEL CAN HELP:

- Gently exfoliate for a fresh, healthy glow
- Even out skin tone and improve clarity
- Fade hyperpigmentation and acne scars
- Diminish fine lines and early signs of aging
- Promote softer, smoother skin

NATURAL ALGAE PEEL \$599

NATURAL | SAFE | EFFECTIVE SKIN REGENERATION

The Algae Peel is a professional-grade, organic facial treatment made from marine algae and natural botanicals, designed for safe and effective skin regeneration without harsh chemicals.

BENEFITS:

- Detoxifies by removing impurities and reducing inflammation.
- Nourishes skin with vital nutrients for healing.
- Regenerates by stimulating collagen and cell turnover.

TARGETS:

- Fine lines and wrinkles
- Hyperpigmentation and dark spots
- Acne and acne scars
- Keratosis (uneven texture)
- Dullness and congestion

WHO IT'S FOR:

Suitable for most skin types, including sensitive skin, especially beneficial for those with hormonal pigmentation, acne-prone skin, aging signs, or uneven texture.

RESULTS:

One session leads to smoother, more hydrated skin; multiple treatments enhance tone, texture, and clarity for lasting results.

CHEMICAL PEELS

EXAMPLES: BEFORE & AFTER

MICRONEEDLING

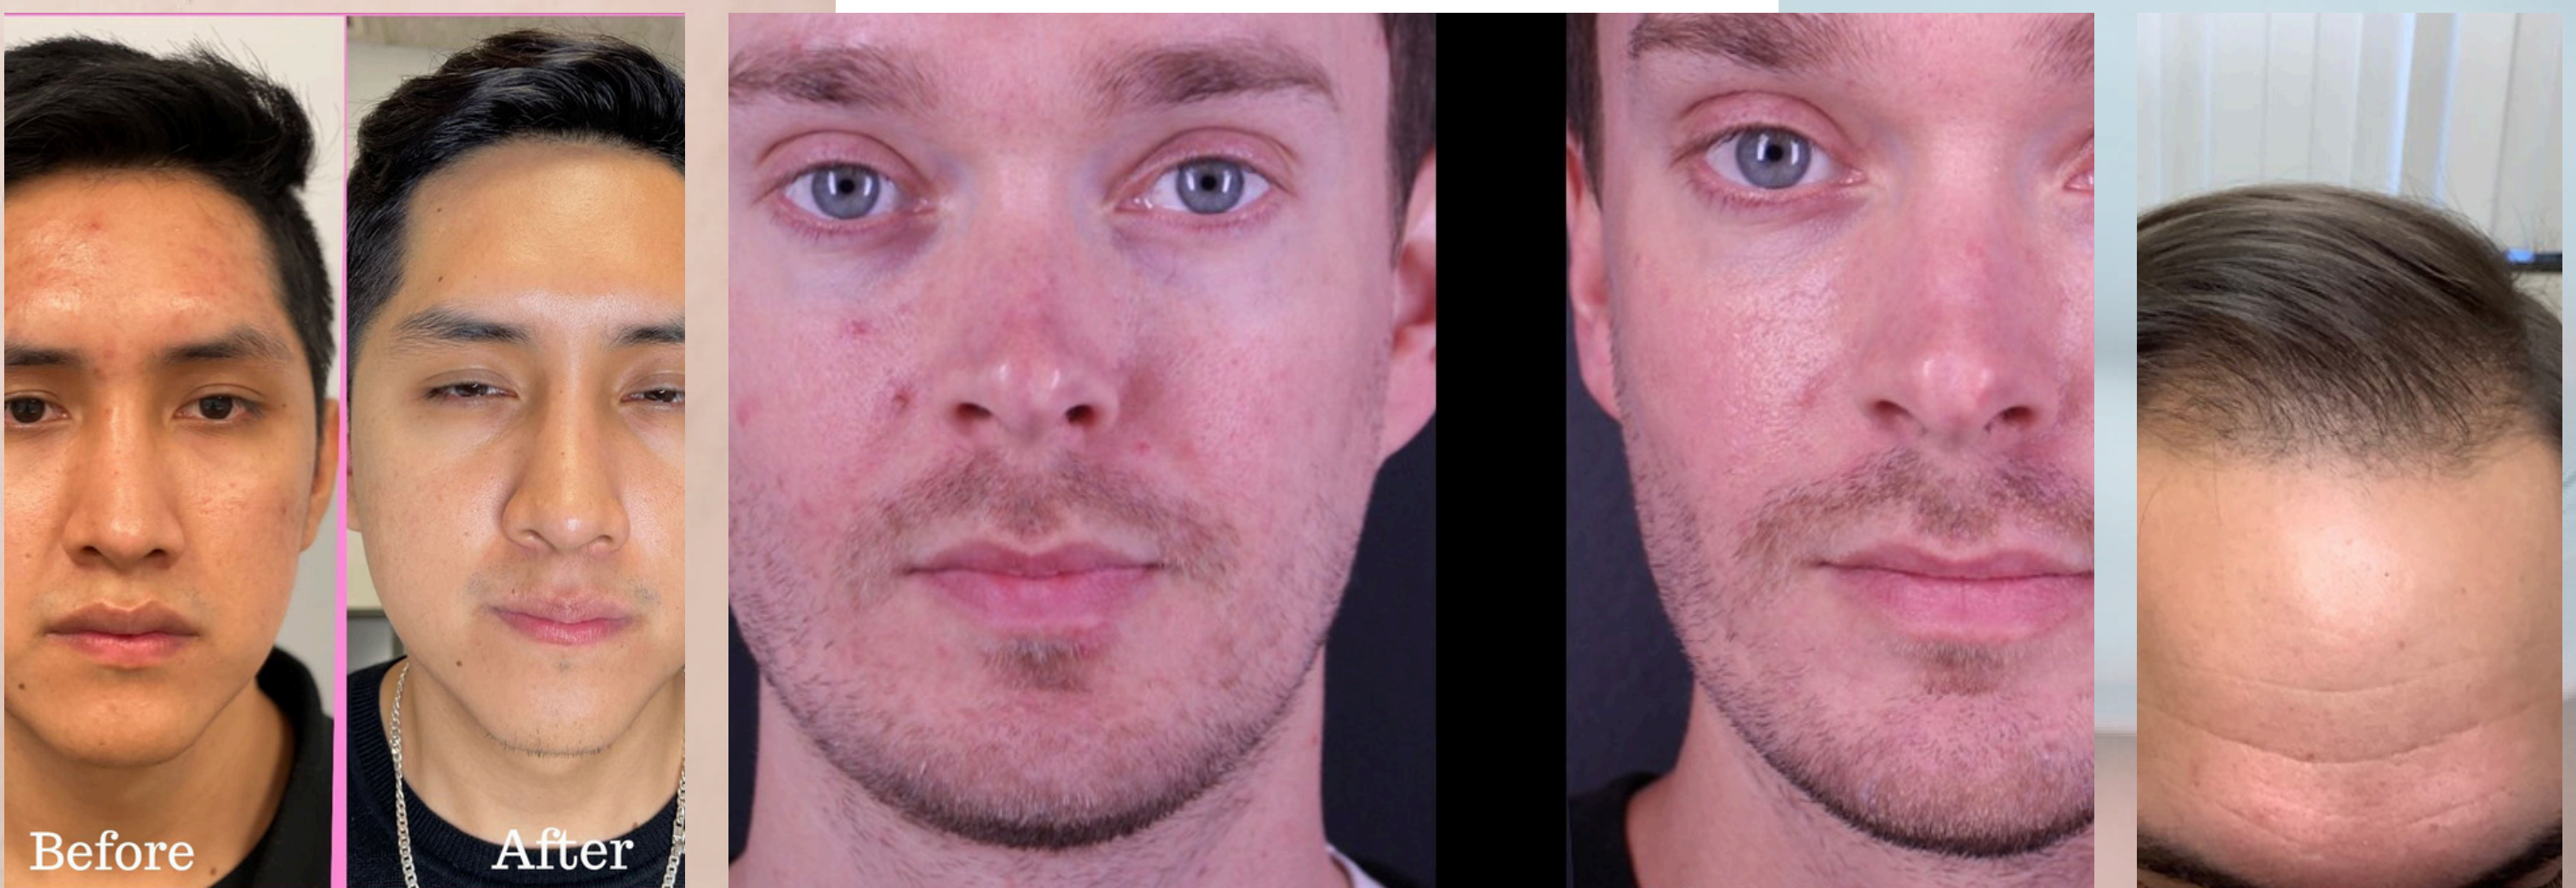

Microneedling is a popular skin treatment that uses tiny, controlled micro-injuries to naturally stimulate your skin's collagen and elastin production. This process helps reduce the appearance of fine lines, acne scars, stretch marks, large pores, and uneven skin texture. It also enhances the absorption of skincare products, making them more effective. The result is firmer, smoother, and more youthful-looking skin—with minimal discomfort and little to no downtime. Safe for most skin types.

BENEFITS OF MICRONEEDLING:

- Boosts collagen and elastin production
- Reduces fine lines and wrinkles
- Improves skin texture and tone
- Minimizes acne scars and other scarring
- Shrinks enlarged pores
- Fades hyperpigmentation and sun damage
- Enhances skin firmness and elasticity
- Helps reduce the appearance of stretch marks
- Increases absorption of skincare products
- Suitable for most skin types with minimal downtime

EXAMPLES: BEFORE & AFTER

MICRONEEDLING

A POWERFUL SKIN TREATMENT THAT BOOSTS COLLAGEN TO IMPROVE TEXTURE, REDUCE ACNE SCARS, FINE LINES, AND LARGE PORES. GREAT FOR MEN LOOKING TO SMOOTH THEIR SKIN, EVEN TONE, AND ACHIEVE A HEALTHY, REFRESHED APPEARANCE—WITH MINIMAL DOWNTIME AND NATURAL-LOOKING RESULTS.
