

🎉 Exciting things are happening at Senior Services of Van Buren County!

At our June Board Meeting, we celebrated some BIG news—we have officially been awarded the MSHDA grant for our affordable housing project! 🎉 This exciting development will bring a new 42-unit housing community to South Haven Township and help provide affordable housing opportunities for decades to come. Stay tuned for more details as we prepare for a future groundbreaking ceremony!

We also discussed the continued growth of our programs and services. With more than 400 participants visiting our facilities each day, it's a wonderful challenge to have! Our Board is exploring ways to make the best use of our space so we can continue offering the activities, programs, and services our community enjoys.

Other highlights included:

- ✅ Updates on fundraising and special events
- ✅ Progress on facility and kitchen projects
- ✅ Reports from communities across Van Buren County

Thank you to our Board members, staff, volunteers, and community supporters who help make our mission possible every day. Together, we're building a stronger, healthier, and more connected community for older adults throughout Van Buren County. ❤️
